*To His Excellency*

The Right Honourable Jules Léger, C.C., C.M.M., C.D.,  
*Governor General and Commander-in-Chief of Canada.*

MAY IT PLEASE YOUR EXCELLENCY:

The undersigned has the honour to present to Your Excellency the Public Accounts of Canada for the year ended March 31, 1977.

All of which is respectfully submitted.

Jean Chrétien  
*Minister of Finance.*

OTTAWA, SEPTEMBER 30, 1977.

*Minister of Finance.*

In accordance with the provisions of Section 55(1) of the Financial Administration Act, Revised Statutes of Canada, 1970, c. F. 10, I have the honour to transmit herewith the Public Accounts of Canada for the year ended March 31, 1977, to be laid by you before the House of Commons.

Respectfully submitted,

J. P. Goyer,  
*Receiver General for Canada.*

OTTAWA, SEPTEMBER 30, 1977

*To The Honourable J. P. Goyer,  
Receiver General for Canada.*

Sir:

I have the honour to submit the Public Accounts of the Government of Canada for the year ended March 31, 1977.

Under Section 55(1) of the Financial Administration Act, Revised Statutes of Canada, 1970, c. F. 10, the Public Accounts for each fiscal year shall be prepared by the Receiver General and shall be laid before the House of Commons by the Minister of Finance on or before the thirty-first day of December next following the end of that year, or if Parliament is not then sitting, within any of the first fifteen days next thereafter that Parliament is sitting.

This annual report is presented in three volumes:

Volume I—A survey of the transactions for the year including summary statements; the financial statements of Canada certified by the Auditor General, namely, the statements of revenue and expenditure on a gross and net basis, of the assets and liabilities of Canada and of budgetary appropriations and expenditures together with related notes; the observations of the Auditor General on the financial statements of Canada; analyses of budgetary revenue and expenditure, non-budgetary and foreign exchange transactions, the financing operations of the government and asset and liability accounts together with those statements required by the Financial Administration Act to be published in the Public Accounts and various other schedules, statements and explanatory notes.

Volume II—Details of expenditures and revenues by departments.

Volume III—The financial statements of all Crown corporations and the Auditors' reports thereon.

Respectfully submitted,

J. L. Fry,  
*Deputy Receiver General for Canada.*

OTTAWA, SEPTEMBER 30, 1977.

## FOREWORD

The format of Volume 1 of the Public Accounts of Canada differs somewhat from previous years' presentations. This is due to the changes which have been made this year to implement many of the recommendations of the Report of the Study of the Accounts of Canada, and the refinement of the measures previously taken to implement certain recommendations of the Report of the Independent Review Committee on the Office of the Auditor General of Canada (Wilson Report).

Changes to this edition of the Public Accounts were introduced as a result of the recommendations included in the Fifth Report of the Standing Committee on Public Accounts of March 9, 1976. This report endorsed the measures proposed in the Report on the Study of the Accounts of Canada\* and recommended that they be implemented as soon as it is technically possible. Recommendations being implemented in the 1976-77 Public Accounts relate mainly to the following:

1. Where practical, the financial statements of the Government of Canada are presented to show accounts with outside parties on a basis consistent with the new definitions of assets and liabilities;
2. The recommended standard form of presentation of Summary Statements for the reporting of Government financial transactions, used in the Budget Papers of May 25, 1976, and in the Canada Gazette monthly series, is introduced in Section 2 of this volume for purposes of consistency;
3. The Extended National Accounts are introduced to incorporate other financial transactions which affect the Government's financial requirements, and a presentation of transactions on this basis is now included in the Public Accounts;
4. The format of the Statement of Assets and Liabilities is significantly revised but further revisions will be necessary in 1977-78 to improve its consistency with the new standard summary statement of financial transactions and

to make its contents compatible with the new definitions of assets and liabilities;

5. The format of the Statement of Revenue and Expenditure is also revised to show revenues and expenditures on a gross and net basis, but further work to identify inter-departmental transactions is required in order to present net transactions with those outside the Government of Canada;
6. The recommended distinction between accounts for loans to outside parties and working capital advance accounts has been introduced.

Previous changes to implement recommendations in the Wilson Report included:

1. The location of all statements certified by the Auditor General in one section of the Public Accounts together with any notes and explanations;
2. The inclusion of the Auditor General's qualifications or other observations on the financial statements in a report which is attached to the financial statements in the Public Accounts.

In addition, the Summary of Revenue by Main Classification and Department, formerly included among the main financial statements, was not presented this year to the Auditor General for certification because it includes only details of revenue by department already reported in the Statement of Revenue and Expenditure. This Summary may now be found in Section 6 of this volume.

The Wilson Report also recommended the inclusion of a new statement showing changes in financial position. As a result of this recommendation, a statement of changes in the debt and cash position of the Government is being developed but is not yet considered to be in a form which could be presented for certification by the Auditor General; it has therefore been included as a supplementary statement in Section 5 of this volume.

## THE SCOPE AND METHODS OF THE PUBLIC ACCOUNTS

### Nature and Format of the Public Accounts

#### Nature of the Public Accounts

The Public Accounts of Canada is the annual financial report of the Government of Canada prepared by the Receiver General for Canada as required by Section 55 of the Financial Administration Act. The report covers the financial transactions of the Government during the year under review even although the Parliamentary authority to undertake these transactions was, in many cases, provided by legislation approved in earlier years. In addition, it includes the financial statements of those Crown corporations and other bodies whose accounts are maintained separately from the accounts of Canada. The financial year of a number of these corporations is the calendar year rather than the fiscal year of the Government that ends on March 31.

#### Format of the Public Accounts

The Public Accounts is produced in three volumes. Volume I contains:

- An outline of the principal features of the Government's financial statements and accounting system;
- Summary statements of the financial transactions of the Government of Canada on both Public Accounts and Extended National Accounts bases of accounting.
- The financial statements of the Government of Canada, which are signed by the Deputy Receiver General for Canada and the Deputy Minister of Finance and certified by the Auditor General are as follows:
  - The Statement of Revenue and Expenditure on a Gross and Net Basis;
  - The Statement of Assets and Liabilities;
  - A Summary of Budgetary Appropriations, Expenditures, and Unexpended Balances by Departments; and
  - The related Notes to Financial Statements.
- The observations by the Auditor General on the financial statements;
- Financial statements which supplement the signed financial statements;
- A review of budgetary revenue, expenditure and the surplus or deficit for the year, with comments on the significant aspects of the more important items;
- An analysis of non-budgetary and foreign exchange transactions;
- A summary of the financing operations of the Government and their effect on the unmatured debt and the cash position of the Government;
- An analysis of asset and liability accounts;
- The statements required by the Financial Administration Act to be published in the Public Accounts together with a number of supporting schedules and statements.

Volume II reviews the financial operations of departments in finer detail. For each department, this volume presents:

- Budgetary appropriations, expenditures and unexpended balances;
- The total cost of each program;
- An analysis of expenditures by program;

- An analysis of expenditures by standard object;
- An analysis of expenditures by activities within a program;
- A statement of grants, contributions and other transfer payments;
- A statement of revenues collected;
- A summary of departmental financial transactions; and
- Statements of revolving funds and other accounts.

Volume II also provides a range of additional information, by departments, on items such as:

- Accounts receivable;
- Payments for professional and special services;
- Construction and the acquisition of machinery, equipment, land, buildings, and works.

Volume III includes the financial statements of Crown corporations which keep their own accounts, together with the reports of their auditors.

### Government's Accounting System

The accounting practices have developed over a number of years and reflect the provisions of the British North America Act and other legislation.

To assist the reader in interpreting the Government's financial statements, a brief outline of the main features of its accounting methods is given in the paragraphs which follow. This outline includes:

- The basic concepts of the Government's accounting system;
- The definition of the Government of Canada as an accounting entity;
- The identification of financial transactions;
- The allocation of transactions to fiscal years;
- The measurement of transactions;
- The classification of transactions.

#### Basic Concepts

The two basic concepts of the Government's accounting system in the British North America Act are that all duties and revenues, other than those reserved to the Provinces, "shall form One Consolidated Revenue Fund" and that the balance of the Fund, after certain prior charges, "shall be appropriated by the Parliament of Canada". The Financial Administration Act further provides that "All estimates of expenditures submitted to Parliament shall be for the services coming in course of payment during the fiscal year" but modifies this requirement by permitting debts which are incurred during the year and paid within the following thirty days to be included in the accounts of the year. Any debts so paid may be charged in the accounts of the year just ended. After the period allowed for the payment of debts, no further disbursement may be made from the unexpended balance of any annual appropriation. As a result, there are then no annual appropriations under which debts incurred during a year but still unpaid can be discharged. All disbursements to discharge debts incurred during a year are therefore reflected in the accounts of that year. The effects of these constitutional and legal provisions are examined further in the following sections.

### Government of Canada as an Accounting Entity

All the financial transactions of the Government of Canada are reflected in the Public Accounts, irrespective of whether they are undertaken by or on behalf of a department, agency or other body such as a board, commission, council, Crown corporation or fund. There are, however, a number of Crown corporations and other bodies which operate their own banking facilities and keep their own accounts. The financial transactions of these organizations are reflected in the transactions of the Government of Canada only to the extent that they receive money from or pay it to the Government.

As an accounting entity, the Government of Canada is defined as the aggregate of all its departments, agencies, boards, commissions, councils, Crown corporations, funds and other bodies, with two exceptions. These exceptions are the "Agency" and "Proprietary" Crown corporations, listed respectively in Schedules C and D of the Financial Administration Act and those Crown corporations that are not subject to the Financial Administration Act. The Crown corporations not subject to the Financial Administration Act include the Bank of Canada, the Canada Council, the Canadian Wheat Board, the Federal Business Development Bank, the International Development Research Centre and the National Arts Centre Corporation. This definition is consistent with that given in the Report on the Study of the Accounts of Canada.

Although "Agency" and "Proprietary" Crown corporations are normally permitted to make their own banking arrangements, six "Schedule C" corporations—the Canadian Dairy Commission, the Canadian Film Development Corporation, the Canadian Livestock Feed Board, the National Harbours Board, the Royal Canadian Mint and Uranium Canada Limited—are required to use the Consolidated Revenue Fund for banking purposes. These six "Agency" Crown corporations are treated in the same way as other Schedule C and D corporations and are therefore excluded from the definition of the Government of Canada as an accounting entity.

The distinction drawn between the Government of Canada as an accounting entity and those Crown corporations that are regarded as outside that entity reflects the different nature of the transactions of the Government of Canada and those of the Crown corporations in question. Within the Government of Canada, most financial transactions are undertaken for non-commercial purposes. Within the Crown corporations in question, commercial objectives are significant and are reflected in their accounting systems.

The following description of the Government's accounting system refers only to the departments, agencies and other accounting sub-entities that are included in the Government of Canada as an accounting entity.

### Identification of Financial Transactions

Section 102 of the British North America Act provides that all cash receipts are to be paid into the Consolidated Revenue Fund and that all cash payments are to be made from the Fund. The same requirement, together with the provisions in the Financial Administration Act that bring the bank accounts of the Government within the Consolidated Revenue Fund, ensures that the record of cash transactions into and out of the Consolidated Revenue Fund is complete.

The identification of financial transactions therefore begins with the identification of all cash transactions that lead to

changes in the balance of the Consolidated Revenue Fund. Cash transactions within the Consolidated Revenue Fund when money is moved between bank accounts are therefore excluded from the Public Accounts.

Apart from cash transactions, a number of internal transactions are identified. These transactions do not lead to any change in the balance of the Consolidated Revenue Fund but are included in the Public Accounts because of legislation and regulations.

The major internal transactions are:

- Interest, Government contributions and deferred charges credited to annuity, insurance and pension accounts;
- Amortization of deferred charges for loan flotation costs;
- Advances to the Unemployment Insurance Account;
- Departmental working capital advances;
- Loans to revolving fund accounts;
- Appropriations credited to undisbursed balances of appropriations to special accounts carried forward to future years;
- Internal charges and credits to votes from other appropriations, the Unemployment Insurance Account, the Canada Pension Plan account, special and deposit and trust accounts;
- Internal transfers of interest, profits, surpluses and deficits between funds and accounts;
- Losses written off and conditional benefits under the Veterans' Land Act.

In addition to the cash and internal transactions that have been described, deferred revenue for income due but not received and two other types of transactions are identified in the Public Accounts of Canada. The initial transactions leading to issues of non-interest-bearing notes payable to the International Monetary Fund and other international organizations together with allocations of Special Drawing Rights received from the International Monetary Fund do not lead to changes in the Consolidated Revenue Fund but influence other assets and liabilities.

Non-interest-bearing notes payable to international organizations are issued as a part of Canada's subscriptions to the capital of such organizations. These subscriptions are recorded as assets while the non-interest-bearing notes are recorded as liabilities until they are paid. The initial issue of notes therefore leads to no receipts of cash but there are subsequent cash payments to international organizations when they present the notes for payment.

Special Drawing Rights are allocated to Canada by the International Monetary Fund. At the time of such allocations, no payment is made by Canada even although Special Drawing Rights are assets that can be used to make payments to other countries. To identify the transaction, Special Drawing Rights are recorded as additional advances to the Exchange Fund and the equivalent liability for their re-payment to the International Monetary Fund is recorded.

After the initial issues of non-interest-bearing notes or allocations of Special Drawing Rights, subsequent transactions lead to changes in the balance of the Consolidated Revenue Fund and are therefore identified in the same way as any other transactions that change the balance of the Fund.

## Allocation of Transactions to Fiscal Years

The allocation of transactions to accounting periods is usually determined on either a "cash" or an "accrual" basis. When the "cash" basis is used, revenues are taken into the accounts in the period during which they are collected and expenditures are accounted for when cash disbursements are made. When the "accrual" basis is used, revenues are accounted for when earned or due, even if they are not then collected, while expenditures are accounted for when liabilities are incurred irrespective of whether or not payment is made in the same accounting period.

In the Public Accounts, revenues are reported on a cash basis so that accrued tax revenues and other revenues receivable or accrued (including interest accrued) are not normally reported as assets on the Government's statement of assets and liabilities. Both tax and non-tax revenues that have accrued but not been received are clearly not in the Consolidated Revenue Fund; they therefore cannot be used to finance disbursements.

In the case of expenditure, the Financial Administration Act provides that all estimates of expenditure shall be for the services coming in course of payment during the year but permits payments to discharge debts to be made from annual appropriations for thirty days after the end of the year and reported in the accounts for that year. Thereafter, all annual appropriations lapse. As a result, liabilities under contracts and other accounts payable at March 31, for which cheques are issued during April, are charged as expenditures in the year ended March 31 and appear as other liabilities on the statement of assets and liabilities. Any expenditures not so included are those for which annual appropriations have lapsed. This procedure brings into each year's transactions by far the greater part of the Government's expenditures that, on an accrual basis, would be included as accrued expenditure.

Specific provisions are made to accrue interest on the public debt, and salaries and wages.

Charges to budgetary expenditure for interest on unmatured debt, including Treasury bills, are made each month as interest accrues rather than annually or semi-annually as interest becomes payable. Accrued salaries and wages are charged to budgetary expenditures at the end of the year.

The effect of these procedures is to include in budgetary expenditure for each year accrued interest on unmatured debt and other liabilities, accrued salaries and wages and a measure of other accrued expenditures based on debts incurred during a year and paid during the first thirty days after its end. The difference between budgetary expenditure as reported in the Public Accounts and budgetary expenditure on a full accrual basis is therefore the value of debts incurred during a year and not paid during the following thirty days. As already indicated, no annual appropriations then exist to discharge such unpaid debts.

These practices are conservative in that budgetary expenditure is included in the accounts for the year as liabilities while accrued revenues are not treated as assets or taken into revenue until collected.

Receipts from the sale of assets and the incurring of liabilities together with payments for the acquisition of assets and the retirement of liabilities are recorded when they occur.

Other transactions that do not lead to any receipts or payments of cash have already been described in the section dealing with the "Identification of Financial Transactions".

## Measurement of Transactions

All transactions are measured in terms of Canadian dollars, as required by the Financial Administration Act.

Where a transaction leads to movements of money into or out of the Consolidated Revenue Fund, its value is taken to be that of the cash receipt or disbursement in question. The only significant exception to this practice is in the measurement of receipts from issues of marketable bonds and Treasury bills. Treasury bills are issued at a discount; marketable bonds may be issued at par, a discount or a premium. However, issues of marketable bonds and Treasury bills are recorded at face value. For bonds, discounts and premiums are charged directly to budgetary expenditure in the year of issue and are not amortized over the term of the bond; this represents a change in practice introduced in 1976-77. Treasury bill discount is recorded in the unamortized Treasury bill discount account and amortized over the term of the bill.

Expenditures accrued at the end of a year do not result in payments of money out of the Consolidated Revenue Fund during that year. Accrued expenditures are therefore measured at the proportionate amount of the payment that will be made from the Fund when the related liabilities are liquidated.

Transactions that do not lead to payments into or out of the Consolidated Revenue Fund are measured in a number of ways. For the purposes of measurement, such transactions can be considered in three groups.

The first group consists of transactions arising from the deferring of expenditure or revenue. This group includes charges for actuarial deficiencies in superannuation accounts, deferred charges for loan flotation costs and deferred revenue for loan premiums and interest earned but not received.

In the case of the superannuation accounts for the Public Service, Canadian Forces and Royal Canadian Mounted Police, valuations are made every fifth year and the superannuation account in question is then credited with the total amount of any deficiency adjustment. At the same time the amount of the adjustment is charged to the account for deferred charges for superannuation accounts. The deferred charge is amortized by annual charges to budgetary expenditure and revolving funds over a period of five years, starting in the year in which it is first set up. Similar adjustments are also made when there are salary increases.

The measurement of transactions arising from the deferring of expenditure is therefore based on their original recorded values and the convention adopted to record such transactions in the accounts over a period of time.

The second group consists of transactions that arise from transfers between accounts or to subsequent years.

They are measured as follows:

- Advances to the Unemployment Insurance Account, departmental working capital advance accounts and revolving fund accounts represent amounts drawn against authorities to disburse money made available to these accounts;
- Additions to the undisbursed balances of appropriations to special accounts are the amounts of authorities to disburse money that are granted annually and which may be carried forward to future years;
- Credits to votes where the amounts in question are transferred from one department or agency to another are measured at the amount that the paying department or agency has agreed to transfer to the recipient;

- Internal transfers of interest are measured in the normal way on the basis of principal outstanding, the agreed rate of interest and the term of the liability;
- Revolving fund surpluses are the excess of revenues over expenses.

The last group of transactions consists of losses written-off. These transactions are measured at the determined amount of the loss; they are, in effect, adjustments of the value of assets.

### Classification of Transactions

For the reader's convenience, this section has been subdivided as follows:

- Classification of items as budgetary and other than budgetary;
- Budgetary revenue;
- Budgetary expenditure;
- Definition of assets and liabilities;
- Assets;
- Liabilities;
- Valuation of assets and liabilities.

### *Classification of transactions as budgetary and other than budgetary*

The financial transactions of the Government of Canada are classified into two basic groups, budgetary and other than budgetary.

In general terms, "budgetary" transactions occur when current revenues are raised or current expenditures are made; transactions other than budgetary lead to the acquisition or disposal of a financial asset or to the creation or discharge of a financial liability. Transactions other than budgetary include non-budgetary, foreign exchange and unmatured debt transactions. These classifications are, however, subject to a number of exceptions and may also be altered at the discretion of the Minister of Finance or by legislation.

The Minister of Finance is given a discretionary power in Section 55(2)(c) of the Financial Administration Act to determine "such of the assets and liabilities of Canada as, in the opinion of the Minister, are required to show the financial position of Canada as at the termination of the fiscal year". He therefore has the power to change the classification of any transactions from budgetary to other than budgetary, or vice versa.

Most changes in the classification of transactions are, however, made by legislation establishing a new account. These changes in classification apply to both revenue and expenditure. For example, if a new advance account or revolving fund account is allocated certain fees, the classification of these fees will change from budgetary revenue to receipts that no longer are classified as budgetary. Similarly, when an advance account or revolving fund account is created, any capital expenditures it makes are re-classified from budgetary expenditures to payments that are not budgetary.

The effect of these practices is that budgetary revenue is revenue that is not allocated to a specific purpose while budgetary expenditure consists of expenditure that is financed from budgetary revenue, and such other sources as may be used to finance any shortfall of budgetary revenue. Since revenue that was freely disposable can be allocated to a special purpose, and vice versa, the classification of transactions as budgetary or other than budgetary may not be the same from one year to another. Budgetary transactions can be reclassified as other

than budgetary, and conversely, whenever a new advance or fund account is created or discontinued.

For the purpose of accounting and reporting, the Public Accounts uses the definition of budgetary and other than budgetary transactions in force at the end of the year to which the report refers and presents comparative figures for the previous year based on the same definition. This procedure has been adopted to provide as accurate comparisons as possible between the current and previous years in any given edition of the Public Accounts.

### *Budgetary revenue*

Budgetary revenue consists of all revenue that has not been allocated to a special purpose. It includes all tax revenues from income tax, the oil export charge, excise taxes and duties, customs import duties and estate tax subject to the exceptions noted in the following paragraph. In addition, budgetary revenue includes the returns received on investments, postal revenue net of both disbursements and revenues credited to the votes of the Post Office, and certain other non-tax revenues. The main items included in other non-tax revenues are receipts from fees, sales, privileges, licences and permits and bullion and coinage transactions and refunds of previous years' expenditures. Budgetary revenue also includes other internal transactions that do not lead to changes in the balance of the Consolidated Revenue Fund as disclosed under the Identification of Financial Transactions.

Net budgetary revenue is stated after deducting refunds paid and excludes the following in compliance with legislation and regulations:

1. taxes collected by the Government of Canada but paid to participating provinces in accordance with Federal-Provincial Agreements;
2. receipts from the Air Transportation Tax credited to both the Airports Revolving Fund and budgetary expenditures of the Ministry of Transport;
3. contributions to the Canada Pension Plan, the Unemployment Insurance and superannuation accounts;
4. receipts and revenues credited to appropriations;
5. receipts and revenues credited to special and departmental accounts;
6. receipts and revenues credited to revolving funds.

Both gross and net budgetary revenue are reported in the Statement of Revenue and Expenditure in which certain receipts and revenues netted against expenditures under authority of Parliament are added in total to revenue to arrive at gross revenue. However, interdepartmental transactions have not been deducted in arriving at gross revenue from outside parties. When the recommendations of the Study of the Accounts of Canada are fully implemented such interdepartmental transactions will be disclosed.

### *Budgetary expenditure*

Budgetary expenditure consists of expenditure that is financed from budgetary revenue and such other sources as may

be used to finance any shortfall of budgetary revenue. It includes:

- Payments made during the year and within thirty days following the end of the year on account of debts incurred for operating expenditures, capital expenditures, grants and contributions;
- Interest accrued on the public debt;
- Accruals of certain salaries and wages earned but not paid at the end of the year.

Budgetary expenditures also include certain transactions that do not change the balance in the Consolidated Revenue Fund, such as:

- Interest and government contributions credited to superannuation, other annuity, insurance and pension accounts and to the Unemployment Insurance Account;
- Write-off of losses;
- Amortization of loan flotation costs and the actuarial deficiencies of superannuation accounts;
- Amounts credited to the undisbursed balances of appropriations to special accounts;
- Credits to votes from other appropriations, revolving funds and other accounts.

Budgetary expenditure does not include pensions paid under the Canada Pension Plan, superannuation and other pension accounts, Unemployment Insurance payments other than benefits to fishermen, any payments financed from receipts credited directly to undisbursed balances of appropriations to special accounts or expenditures charged to working capital advance accounts and revolving funds.

In the Statement of Revenue and Expenditure, expenditures are reported both gross and net. To arrive at gross expenditures certain receipts and revenues netted against expenditures under the authority of Parliament, are added back. However, interdepartmental transactions have not been deducted to arrive at gross expenditures to third parties. When the recommendations of the Study of the Accounts of Canada are fully implemented, such interdepartmental transactions will be disclosed.

#### *Definition of assets and liabilities*

In the Study of the Accounts of Canada, assets are defined as "the financial claims acquired by the Government of Canada on outside organizations and individuals as a result of events and transactions prior to the accounting date", and liabilities are defined as "its financial obligations to outside organizations and individuals as a result of events and transactions prior to the accounting date".

The application of these definitions to the reported assets and liabilities excludes certain balances identified as "Internal accounts" which will continue to be reported on the Statement of Assets and Liabilities until Parliamentary authority to delete them from the Accounts of Canada has been obtained.

#### *Assets*

The recorded assets of the Government consist of:

- The realizable or income-earning financial claims acquired on outside organizations and individuals as a result of events and transactions prior to the accounting date;

—Other financial claims on outside parties that yield no income and may not be realizable but for which no authority for deletion has been obtained from Parliament; and

—The balances in internal accounts for advances to working capital and revolving fund accounts, the Unemployment Insurance Account, and unamortized bond flotation costs.

Assets not reported on the Statement of Assets and Liabilities include accruals of revenue and inventories. Accruals of revenue are excluded because revenue is reported when it is received. Inventories are excluded because purchases of inventories are charged to expenditure.

The balances in "internal accounts" are not claims on individuals and organizations outside the Government with the following exceptions.

Any debit balance in the Unemployment Insurance Account at the end of a year is recoverable from higher premiums in subsequent years and, where unemployment exceeds a stated percentage, a contribution made by the Government at the start of the next year. The sums recoverable from future increases in premiums could be regarded as claims on contributors to Unemployment Insurance.

The debit balances for unamortized bond flotation costs are those from previous years not yet deleted.

The debit balances for deferred charges appear because of the policy of deferring certain charges. The debit balances in working capital advance and revolving fund accounts occur because of the policy of making advances to these accounts instead of financing them by budgetary appropriations; the effect of this policy is that the financing of certain inventories and fixed assets is reflected in assets.

The classes of assets shown in the Statement of Assets and Liabilities include:

- Loans, investments and advances to Crown corporations and agencies;
- Other loans, investments and advances, including those to provincial and territorial governments, national governments, the Unemployment Insurance Account and others;
- Cash in transit;
- Internal accounts including working capital advances revolving funds, departments and agencies, non-interest-bearing advances to the Unemployment Insurance Account and unamortized bond flotation costs;
- Foreign assets including the Exchange Fund Account, subscriptions, loans and advances to the International Monetary Fund and to other international organizations;
- Cash balances; and
- Fixed assets, a category set up to cover fixed assets that are charged to budgetary expenditure at the time of acquisition or construction and which are shown on the statement of assets and liabilities at a nominal value of \$1.

#### *Liabilities*

The liabilities of the Government of Canada consist of:

- Financial obligations to outside organizations and individuals, including government employees, except for those as noted below as not reported;

—Credit balances of internal accounts included in “Undisbursed balances of appropriations to special accounts”.

Financial obligations to organizations and individuals outside the Government, include accrued interest, accrued salaries and wages, accounts payable and the liabilities of superannuation accounts. Accounts payable are for liabilities outstanding at March 31 but that are paid within thirty days thereafter in accordance with provisions of the Financial Administration Act. The liabilities for superannuation accounts are periodically re-valued on an actuarial basis except that the calculations of the obligation arising under the indexation scheme are not included in the re-valuation.

The undisbursed balances of appropriations to special accounts do not represent obligations to other organizations and individuals.

Liabilities not reported on the Statement of Assets and Liabilities include the following:

- Accounts payable for goods and services received in the year but not paid within thirty days from the end of the year;
- Accrued liabilities for certain retroactive salary and wage settlements and for benefits payable upon termination of employment;
- Actuarial liabilities arising from the indexing to the cost of living of superannuate pensions and annuities.

The classes of liabilities shown in the Statement of Assets and Liabilities include:

- Annuity, insurance and pension accounts including the Canada Pension Plan account from which the provincial government securities are deducted, the superannuation accounts from which the unamortized portion of actuarial deficiencies are deducted, government annuities and others.
- Other liabilities including interest and matured debt, accounts payable and accrued salaries, outstanding cheques, warrants and money orders, deposit and trust accounts, provincial tax collection agreement accounts and other accounts;

—Internal accounts including undisbursed balances of appropriations to special accounts;

—Foreign liabilities including notes payable to the International Monetary Fund and to other international organizations, Special Drawing Rights and the unmatured debt payable in foreign currency; and

—Unmatured debt, consisting of bonds and Treasury bills.

### *Valuation of assets and liabilities*

Assets are valued at cost except for:

- Those reported at amounts advanced less amounts repaid or written off as authorized by Parliament;
- Short-term assets denominated in foreign currencies, which are valued at year-end closing rates of exchange;
- Fixed assets, which are carried at the nominal value of \$1.

Assets have not been subject to revaluation to reflect collectable or recoverable values. However a general allowance for losses on all classes of assets has been provided. This allowance, which was created prior to 1957 by charges to budgetary expenditure, does not constitute a reserve related to any specific asset or classes of assets.

Assets and liabilities denominated in foreign currencies, other than cash and short-term liabilities, are recorded at historical values. Cash and short-term liabilities are valued at year-end closing rates of exchange.

Other liabilities are recorded in the amounts ultimately payable except for pension and annuity obligations. The government's obligations for superannuate pensions and annuities are valued on an actuarial basis, except for the obligations under the Canada Pension Plan account and the supplementary retirement benefit account which are not maintained on an actuarial basis.

## INTRODUCTION

In this section, the financial transactions of the Government of Canada are set out in summary form with comparative figures for the previous four years. The financial transactions are first presented according to the accounting principles explained in Section I and referred to as the Public Accounts presentation; the second presentation is on the National Income and Expenditure basis, extended to encompass other financial transactions affecting the Consolidated Revenue Fund. This latter form of presentation is hereafter referred to as the Extended National Accounts presentation.

This form of presentation is broadly consistent with Budget Paper B which accompanied the May 25, 1976 Budget. The introduction of this section in the Public Accounts reflects the recommendations in the "Report on the Study of the Accounts of Canada" both with regard to the form of the statements and the extension of the traditional National Income and Expenditure Accounts. This section is also consistent with the proposal in the Study for a standard form of reporting the Summary Statements of federal government financial transactions in official publications.

This section is intended to provide an overview of the Government's financial operations both on the Public Accounts basis and on the Extended National Accounts basis. The Public Accounts presentation reflects the accounting procedures and conventions which have been adopted in providing Parliament with an accounting of the source and use of financial resources. The Current Transactions block of the Extended National Accounts presentation is designed primarily to facilitate economic analysis of the federal government sector on a basis consistent with that used in measuring revenue and expenditure flows in the economy as a whole. The remaining blocks show the relation between the traditional budget balance on the National Accounts basis and the government's overall financial requirements, debt transactions, and cash position.

## Public Accounts Presentation

The "Summary Statement of Transactions" table summarizes the transactions in an aggregate form. These transactions are categorized under four main headings: budgetary, non-budgetary, foreign exchange and unmatured debt. The resulting cash position at the end of the period is also shown.

This form of presentation is broadly consistent with the tables presented in the Budget Speech, the presentation in the Economic Review, the Statement of Financial Operations published each month in the Canada Gazette and is compatible with the form of presentation in other sections of the Public Accounts.

It should be noted that, in the Public Accounts presentation, budgetary expenditures for the first three years in the series

are consistent with the figures published in previous years Public Accounts. The figures have not been adjusted to take into account any changes in departmental responsibilities which may have occurred and thus are not strictly comparable. One exception to this is the treatment of Old Age Security transactions which were reclassified from non-budgetary to budgetary as of July 1, 1975. To provide a consistent historical record the Old Age Security transactions have been treated as budgetary in all years in this section.

## Extended National Accounts Presentation

This is the first time that the Government's financial transactions have been presented on an Extended National Accounts basis in the Public Accounts. This form of presentation, as earlier noted, complies with the recommendation of the Report of the Study of the Accounts of Canada, and is consistent with the tables presented in the Budget Speech.

As in the Public Accounts presentation, the transactions are categorized under four main headings: the traditional National Income and Expenditure Accounts for revenues and expenditures which are referred to herein as current transactions, loans and other transactions, foreign exchange and unmatured debt transactions. The resulting cash position at the end of the period is also shown. It may be noted that starting with the line entitled "Financial Requirements (excluding foreign exchange)", the Extended National Accounts presentation is identical to the Public Accounts presentation.

The total for Loans and Other Transactions will differ from the Non-budgetary Transactions in the Public Accounts presentation due to differences in coverage. Loans to certain agencies such as Atomic Energy of Canada Limited as well as advances to revolving funds are excluded in arriving at the total of Loans and Other Transactions in the Extended National Accounts presentation as transactions of these agencies and revolving funds are included in Current Transactions. Similarly, the receipts and disbursements of government pensions and social security accounts, such as the Unemployment Insurance Account, are included in Current Transactions whereas they appear in the Non-budgetary sector in the Public Accounts presentation. In determining the surplus or deficit of Current Transactions on a National Accounts basis, certain revenue items, such as corporate income taxes, are reflected on an accrual as opposed to a cash basis. The Loans and Other Transactions section includes the adjusting entry required to convert from the accrual basis of revenue and expenditure to a cash basis.

## SUMMARY STATEMENT OF TRANSACTIONS—PUBLIC ACCOUNTS PRESENTATION

Total financial requirements, including foreign exchange transactions, amounted to \$4,272 million for the year ended March 31, 1977. The budgetary deficit of \$6,290 million was offset by \$896 million of non-budgetary transactions and \$1,122 million of foreign exchange transactions. As a result of

these transactions and a \$4,817 million increase in unmatured debt, cash balances rose by \$545 million to \$3,597 million on March 31, 1977 as compared to \$3,052 million at the beginning of the year.

## I. Budgetary transactions

### A. Revenues

In 1976-77, total budgetary revenues increased by \$2,684 million or 9% above the level of 1975-76. This increase was recorded in personal income taxes, indirect taxes excluding the oil export charge and non-tax revenues. These increases were partially offset by reductions in the oil export charge, corporate income tax and non-resident tax collections.

Personal income tax revenues rose by \$1,911 million in 1976-77. This increase of 15% over 1975-76 accompanied a similar growth in wages and salaries in 1976. Apart from the automatic operation of indexation which increased personal exemption levels and tax rate brackets by 11%, there were no changes in tax rates with a major impact on personal income tax collections in 1976-77. However, federal revenues were reduced, to the extent of some \$300 million, by the transfer to the provinces of a larger share of total personal income tax revenues which took effect at the beginning of the 1977 taxation year.

The decline in corporate tax revenues of \$371 million was primarily due to a slight fall in corporate profits in 1976 and to the fact that the level of revenues in 1975-76 had been increased by the acceleration of corporation tax payments announced in the November 18, 1974 Budget. As a result of this measure, final settlement payments in respect of both the 1974 and 1975 taxation years were received from some corporations in 1975-76.

Total indirect taxes increased by \$494 million in 1976-77. Sales tax revenues and customs import duties were higher by \$624 million reflecting increased consumer spending on goods in 1976 of almost 13%, a 15% growth in business construction

expenditures and a 9% increase in merchandise imports. The gasoline tax introduced in the June 23, 1975 Budget accounted for another \$175 million increase in revenues. This was the first full year of collection of the gasoline tax. The only revenue source decrease in this category was in the oil export charge which fell by \$402 million due to significant reductions in oil exports.

Total non-tax revenues rose by \$622 million over 1975-76. Of this increase, return on investments accounted for \$396 million including \$120 million of Bank of Canada profits. Postal revenue rose by \$171 million; approximately one-half of this increase was accounted for by the September, 1976 postal rate increases.

## B. Expenditures

Budgetary expenditures in 1976-77 increased by 15% over 1975-76, compared with increases of 16% and 28% in 1975-76 and 1974-75 respectively. The major portion of the increase was accounted for by a limited number of specific programs.

Government contributions to the Unemployment Insurance account, after falling slightly in 1975-76, have nearly doubled to \$1,722 million in 1976-77. The additional \$846 million accounted for 17% of the total increase in budgetary expenditures.

Public debt charges increased by \$766 million or 19% in 1976-77, due to higher average interest rates on outstanding debt and the increase in unmatured debt outstanding. The increase in interest on the public debt accounted for 15% of the total increase in budgetary expenditures.

Equalization and revenue guarantee payments to provinces increased by \$163 and \$483 million respectively from their 1975-76 levels of \$1,935 and \$461 million. The revenue guarantee payments will be eliminated over the next few years as the program is phased out. The increases in both the equalization and revenue guarantee payments accounted for 13% of the total increase in budgetary expenditures.

In addition to the above noted increases, four National Health and Welfare programs: Old Age Security, Hospital Insurance and Diagnostic Services, Medicare and the Canada Assistance Plan have increased in total by \$1,136 million or 16% from 1975-76. This compares with 19% and 17% increases for this group of four programs, for 1975-76 and 1974-75 respectively. The Old Age Security payments, which include the Guaranteed Income Supplement and the Spouse's Allowance payments, increased by \$503 million to \$4,437 million from \$3,934 million. Approximately \$350 million of this increase is due to indexation while the remainder arises from the increased provision for spouses under the Spouse's Allowance part of the legislation and volume increases of the program. Hospital Insurance and Diagnostic Services increased by \$321 million to \$2,030 million from \$1,709 million. Medicare payments increased by 26% to \$1,004 million from \$795 million in 1975-76. Payments under the Canada Assistance Plan rose to \$989 million from \$886 million. These four programs account for over 23% of the total increase in budgetary expenditures in 1976-77.

Another large increase in expenditures was recorded for Central Mortgage and Housing Corporation. Increases of \$30 million for municipal sewage treatment, \$100 million for housing programs and \$40 million for the Nova Scotia and Prince Edward Island Home Insulation Program, account for nearly all of the \$179 million or 49% increase in Central Mortgage and Housing Corporation's budgetary expenditures.

Post-secondary education payments to the provinces increased by \$114 million to \$649 million in 1976-77 from \$535 million in 1975-76. As with Hospital Insurance, Medicare and Canada Assistance Plan payments, the post-secondary education payments are transfers to the provinces based on the actual costs of these programs and are therefore sensitive to inflation.

The Department of Industry, Trade and Commerce increased its expenditure on hopper cars by \$127 million to \$167 million in 1976-77 to help alleviate serious unemployment problems in the railcar fabricating industry and to accelerate the rate of acquisition of grain hopper cars.

Local Initiatives program payments increased by 42% or \$51 million to \$175 million in 1976-77 from \$124 million in 1975-76. A new program, Western Grain Stabilization, required program costs of \$62 million in its first year.

The above rather limited list of expenditure programs accounted for over three-quarters of the total increase in budgetary expenditures in 1976-77.

Reduced requirements for payments under the Oil Price Compensation program, Two Price Wheat and the Railway Act produced the most significant reductions in 1976-77. Payments to importers of oil under the Oil Import Compensation Program amounted to \$946 million, down \$638 million from the previous year's level. The major reason for the lower cost of this program was the narrowing of the gap between the domestic and international oil prices resulting in a reduced subsidy rate. In addition, the volume of oil imports declined in 1976 by 11%. Two Price Wheat payments decreased to \$65 million from \$189 million and Railway Act payments decreased to \$281 million from \$326 million.

The total of all remaining budgetary expenditures increased by 11%.

Figures for 1974-75 to 1976-77 reflect the allocation to individual departments of their share of employer contributions to the Canadian Pension Plan, the Quebec Pension Plan and the Public Service Death Benefit Account. For 1972-73 and 1973-74 these amounts are charged to Treasury Board.

## II. Non-budgetary transactions

### A. Loans, investments and advances

Requirements for loans, investments and advances declined by \$1,152 million to \$2,148 million in 1976-77 from \$3,300 million in 1975-76. The bulk of the decline was in the requirements of Crown corporations which amounted to \$2,075 million in 1976-77 compared to \$2,820 million in 1975-76, a decrease of \$745 million. Other loans fell by \$407 million, from \$480 million in 1975-76 to \$73 million in 1976-77.

Of the decrease in loans to Crown corporations, loans to lending institutions were down \$286 million. This decrease reflects lower loan requirements by both Central Mortgage and Housing Corporation and Export Development Corporation of \$221 million and \$155 million respectively which were partly offset by an increase in loans to the Federal Business Development Bank of \$110 million. The increase in loans to the Federal Business Development Bank reflects the first full year of operations of the corporation. Among loans to other Crown corporations, requirements of the Canadian Dairy Commission decreased by \$151 million from the abnormally high 1975-76 level of \$168 million. There were net repayments of \$83 million by Air Canada while loan requirements of Atomic Energy of Canada decreased by \$50 million and loans to the Canadian National Railways decreased by \$173 million.

Part of the decline of \$407 million in other loans reflects the termination of the Winter Capital Projects Fund program in 1975. Employment Loans thus changed from net requirements of \$47 million in 1975-76 to net repayments of \$45 million in 1976-77. Repayments under the Olympic Coin program provided \$80 million more in 1976-77 than in 1975-76. Loans to developing countries decreased by \$83 million and requirements of the Airports Revolving Fund were down \$51 million.

Loans by the Department of Industry, Trade and Commerce were \$26 million less than in 1975-76. The high requirements in 1975-76 by Industry, Trade and Commerce was attributable to the purchase of Canadair Limited.

### B. Annuities insurance and pensions

The annuities, insurance and pension accounts provided \$2,368 million in 1976-77, an increase of \$1,348 million over 1975-76. The bulk of the increase reflects the \$1,159 million change in the Unemployment Insurance Account net receipts which resulted mainly from an increase of \$846 million in government contributions to the Unemployment Insurance account, and the increase in the combined employer-employee premium rate per \$100 of weekly insurable earnings to \$3.96 from \$3.36 in 1975.

The three major superannuation accounts provided \$1,580 million or \$132 million above the 1975-76 level.

### C. Other transactions

Other transactions provided \$676 million compared to \$1,708 million in 1975-76. This category includes entries which are subject to wide fluctuations such as accounts payable, cash in transit and outstanding cheques. The level of cash in transit, for example, increased by \$169 million in 1976-77 but decreased by \$665 million in 1975-76. Outstanding cheques, warrants and money orders decreased by \$360 million in 1976-77 but increased by \$366 million in 1975-76, for a net change of \$726 million.

### III. Foreign exchange transactions

Foreign exchange transactions include the operation of the Exchange Fund Account to maintain orderly conditions in the exchange markets and to effect payments by various government departments for the purchase of foreign goods and services. Also included are subscriptions and notes payable to international organizations and unmatured debt payable in foreign currency. Total foreign exchange transactions provided a source of \$1,122 million during 1976-77 compared to a requirement of \$186 million in 1975-76.

### IV. Unmatured debt transactions

Marketable bonds payable in Canadian currency increased by \$2,267 million, treasury bills increased by \$1,760 million,

and net sales of Canada Savings Bonds amounted to \$787 million. In total, unmatured debt increased by \$4,817 million in 1976-77 compared to an increase of \$4,628 million in 1975-76.

### V. Cash balances at end of period

Financial requirements, including foreign exchange transactions amounted to \$4,272 million. This was more than offset by an increase of \$4,817 million in unmatured debt transactions. As a result, cash balances rose to \$3,597 million at March 31, 1977 from \$3,052 million at March 31, 1976.

## SUMMARY STATEMENT OF TRANSACTIONS—EXTENDED NATIONAL ACCOUNTS PRESENTATION

The National Income and Expenditure accounts were developed as a basis for economic analysis of income and expenditure flows in the economy as a whole. The concepts and definitions applied to the government sector are consistent with those applied to other sectors and follow international practices developed under the aegis of the United Nations. The economic nature of a transaction is the determining factor in its classification within the national accounts framework. The Extended National Accounts present, in addition to the traditional national accounts revenue, expenditure and balance shown here under the heading "current transactions", the

items which account for the difference between the national accounts budget balance and total public accounts financial requirements. In 1976-77, current transactions resulted in a deficit of \$3,893 million and loans and other transactions amounted to a requirement of \$1,501 million. Foreign exchange transactions provided \$1,122 million and unmatured debt transactions amounted to \$4,817 million. As was previously noted, foreign exchange and unmatured debt transactions are identical to those reported in the Public Accounts presentation.

## A. Revenues

Revenues increased by \$3,566 million or 11% in 1976-77 compared to an increase of 7% in 1975-76. This reflects the return to a more normal growth rate for personal direct taxes, which accounted for almost three-quarters of the increase in total revenues. There was also a resurgence of the growth rate in indirect taxes and investment income.

Revenue from indirect taxes resumed growth in 1976-77 following a decline in 1975-76. The decline in 1975-76 was largely attributable to the fall in the oil export charge, and to

the manufacturer's sales tax which decreased as a result of tax rate reductions, principally the rate on building materials which was lowered to 5% in the November 18, 1974 Budget.

Investment income rose 13% in 1976-77 compared to 5% in 1975-76. This higher growth reflects a significantly smaller increase in the Post Office deficit as a result of recent postal rate increases. In the Extended National Accounts definition of investment income, Post Office expenditures are netted against postal revenues.

## B. Expenditures

Federal government expenditures increased by \$3,963 million or 11% in 1976-77, compared to increases of 19% and 29% in 1975-76 and 1974-75 respectively. Expenditures in all categories, except subsidies, increased.

The \$1,300 million or 15% increase in total expenditures on current goods and services accounts for 33% of the total increase in expenditures. Non-defence goods and services expenditures increased by \$934 million or 16% while defence goods and services expenditures increased by \$366 million or 12%.

Transfer payments to persons, amounted to \$11,803 million, an increase of \$818 million or 7% from 1975-76. This compares with rates of increase of 22 and 21% for 1974-75 and 1975-76. One of the main factors contributing to this lower rate of growth was the small increase in Family Allowance payments as a result of the suspension of indexing of these allowances for 1976. Another reason for the decrease in the rate of growth was the low growth in unemployment insurance benefits in 1976-77. The increase amounted to only 4% in 1976-77 compared to increases of 16 and 44% in 1974-75 and 1975-76 respectively.

Subsidies was the only expenditure category where an absolute decrease was recorded. Subsidies provided by the federal government in 1976-77 were \$610 million lower than those paid in 1975-76, largely due to decreased payments to importers of oil under the Oil Import Compensation Program.

Capital assistance to industry increased by only 5% in 1976-77 reflecting the termination of the Home Buyers Grant program. Current transfers to non-residents increased by only 2% as a result of the slow growth in the expenditures of the Canadian International Development Agency. Interest on the public debt increased by \$764 million or 20% and accounted for 19% of the total increase in the national accounts expenditures.

Transfers to provinces increased by 21% to \$9,048 million in 1976-77 from \$7,502 million in 1975-76. The growth in this category accounts for 39% of the year over year increase in expenditures. The increase resulted mainly from the Revenue Guarantee payments, Medicare payments, the Post-Secondary Education Program, and payments under the Hospital Insurance and Diagnostic Services Act. The rate of increase in transfers to local governments continued its rise in 1976-77, with an increase of 22% compared with increases of 17% in

1975-76 and 12% in 1974-75. Gross Capital Formation increased by only 7% in 1976-77 compared to increases of 21 and 28% in 1975-76 and 1974-75 respectively.

## II. Loans and other transactions

### A. Loans, investments and advances

On the Extended National Accounts basis, loans, investments and advances decreased by \$801 million in 1976-77 compared to an increase of \$846 million in 1975-76.

Loans, investments and advances to lending institutions accounted for \$299 million of the decline. Loans for regional economic development decreased by a further \$71 million. There was also a substantial change in the requirements for transportation and communications. In 1976-77 this category provided a source of \$62 million compared to a requirement of \$276 million in 1975-76. This reflects the substantial repayments by Air Canada and lower loan requirements for Canadian National Railways.

### B. Accrual accounts

This category reflects mainly the difference between actual receipts and payments and amounts receivable and payable used in arriving at current revenues and expenditures. For example, corporate taxes are recorded on an accrual basis as opposed to a collection basis in the Extended National Accounts presentation.

The accrual accounts provided a source of only \$520 million in 1976-77 compared to a source of \$1,575 million in 1975-76. The largest part of the reduction, \$871 million, occurred in the excess of corporate income tax collections over corporate tax liabilities. In addition, outstanding cheques, warrants and money orders decreased giving rise to a requirement of \$360 million in 1976-77 compared to a source of \$366 million in 1975-76.

### C. Other transactions

Other transactions provided only \$9 million in 1976-77 compared to \$158 million in 1975-76. The major portion of this decline is in the change in financial requirements of the Provincial Tax Collection Account amounting to \$188 million.

## PUBLIC ACCOUNTS AND EXTENDED NATIONAL ACCOUNTS RECONCILIATION

While the Public Accounts and the Extended National Accounts presentations result in the same total financial requirement figures, differences exist in the treatment of transactions in arriving at the budgetary surplus or deficit on a Public Accounts basis and the surplus or deficit on an Extended National Accounts basis. These differences are necessarily compensated for in the non-budgetary components of total financial requirements.

The reconciliation of transactions according to the two systems of accounts is set out in the tables that follow. The major factors which give rise to the need for a reconciliation are listed below.

In the Public Accounts presentation, post office revenues and expenditures are considered as budgetary transactions. In the National Accounts, the postal service is considered to be a business rather than governmental in nature and post office revenues and expenditures, as such, are not included in the National Accounts government sector. However, the deficit or surplus of the post office is treated as an adjustment to the investment income of its 'owner', the government.

The deficits of government business enterprises which are outside the government accounting entity are, for Public Accounts presentation purposes, met through budgetary appropriations and thus recorded as budgetary expenditures. In the National Accounts presentation, these deficits are netted against government investment income.

Revenues in the Public Accounts are recorded on a cash basis. While the major portion of National Accounts revenues is accounted for on a cash basis, certain items such as corporate income taxes and oil export charges are reported on an accrual basis.

Transactions of employee pension accounts and the unemployment insurance account are treated as non-budgetary in the Public Accounts, although the government's statutory contributions to these accounts and interest payments on debt held in the name of these accounts form part of budgetary expenditures. Employer and employee contributions to these accounts plus any related interest income form part of government revenues in the Extended National Accounts presentation, and benefit payments form part of government expenditures.

In the Public Accounts presentation, the purchase of capital assets such as buildings and machinery is recorded as a budgetary expenditure in the year of acquisition. Only newly produced capital assets are included in the National Accounts framework while both government revenues and expenditures include an allowance for the depreciation of capital assets; no such provision is made in the Public Accounts presentation.

The Extended National Accounts universe includes certain government agencies not part of the Public Accounts universe. The actual financial transactions of those agencies form part of Extended National Accounts revenue and expenditures. Transfers and loans to these agencies are thus not accounted for in the Extended National Accounts presentation.

# Notes to the Financial Statements of the Government of Canada

## Introduction

Revisions have been made in the presentation of the financial statements in order to implement several recommendations made in the Report on the Study of the Accounts of Canada which was approved by the Standing Committee on the Public Accounts on March 9, 1976. These changes are described in the Notes to the financial statements which follow.

## 1. Significant accounting policies and practices

### i. Basic Concepts

The Government's accounting system is based on two concepts embodied in the British North America Act which provides that all duties and revenues, other than those reserved to the Provinces, "shall form One Consolidated Revenue Fund" and that the balance of the Fund, after certain prior charges, "shall be appropriated by the Parliament of Canada". The Financial Administration Act further provides that "All estimates of expenditures submitted to Parliament shall be for the services coming in course of payment during the fiscal year" but modifies this requirement by permitting debts which are incurred during the year and paid within the following thirty days to be included in the accounts of the year.

### ii. The Government of Canada as an accounting entity

The Government of Canada for purposes of these statements is defined as the aggregate of all its departments, agencies, boards, commissions, councils, Crown corporations, funds and other bodies, except the "agency" and "proprietary" corporations listed in schedules C and D of the Financial Administration Act, and those Crown corporations that are not subject to the Financial Administration Act. This definition is consistent with that affirmed in the Report on the Study of the Accounts of Canada.

### iii. The identification of financial transactions

As noted under i., all cash receipts and payments of the Government pass through the Consolidated Revenue Fund. The identification of the Government's financial transactions therefore begins with the identification of all cash transactions that lead to changes in the balance of the Consolidated Revenue Fund. However, in addition to cash transactions, there are a number of non-cash transactions which, although not changing the balance of the Consolidated Revenue Fund, are reported in the Public Accounts in compliance with legislation and regulations.

### iv. Reporting of budgetary revenue

Revenue from parties outside the Government of Canada is recorded when received in the Consolidated Revenue Fund and is not adjusted for amounts receivable.

Revenue is reported both gross and net in the Statement of Revenue and Expenditure in which certain

receipts and revenues netted against expenditures under authority of Parliament are added in total to revenue to arrive at gross revenue. However, interdepartmental transactions have not been deducted in arriving at gross revenue from outside parties. When the recommendations of the Study of the Accounts of Canada are fully implemented such interdepartmental transactions will be disclosed.

Revenue is stated net of refunds and excludes amounts credited to asset and liability accounts in compliance with legislation and regulations.

### v. Reporting of budgetary expenditure

Budgetary expenditure includes payments made during the year and within thirty days following the end of the year on account of debts incurred for operating expenditures, capital expenditures, grants and contributions.

It also includes:

- Accruals of interest on the public debt;
- Accruals of certain salaries and wages earned but not paid at the end of the year;
- Interest and government contributions credited to pension accounts and to the Unemployment Insurance Account;
- Write-off of losses;
- Amortization of loan flotation costs and actuarial deficiencies of superannuation accounts;
- Amounts credited to undisbursed balances of appropriations to special accounts; and
- Credits to votes from other appropriations, revolving funds and other non-budgetary accounts.

In the Statement of Revenue and Expenditure, expenditure is reported both gross and net. To arrive at gross expenditure, certain receipts and revenues netted against expenditure under the authority of Parliament, are added back. However, interdepartmental transactions have not been deducted to arrive at gross expenditure to outside parties. When the recommendations of the Study of the Accounts of Canada are fully implemented, such interdepartmental transactions will be disclosed.

### vi. Definition of assets and liabilities

In the Study of the Accounts of Canada, assets are defined as "the financial claims acquired by the Government of Canada on outside organizations and individuals as a result of events and transactions prior to the accounting date", and liabilities are defined as "its financial obligations to outside organizations and individuals as a result of events and transactions prior to the accounting date".

The application of these definitions to the reported assets and liabilities excludes certain balances identified as "Internal accounts" which will continue to be reported on the Statement of Assets and Liabilities until Parliamentary authority to delete them from the Accounts of Canada has been obtained.

### vii. *Reporting of assets*

For the purposes of the Public Accounts the reported assets consist of:

- The realizable or income-earning financial claims acquired on outside organizations and individuals;
- Other financial claims on outside parties that yield no income and may not be realizable but for which no authority for deletion has been obtained from Parliament; and
- The balances in "Internal accounts" for advances to working capital accounts, revolving funds and the Unemployment Insurance Account, and unamortized bond flotation costs.

Assets not reported on the Statement of Assets and Liabilities include the following:

- Accruals of revenue;
- Inventories.

### viii. *Reporting of liabilities*

For the purposes of the Public Accounts the reported liabilities consist of:

- Financial obligations to outside organizations and individuals, including government employees, except for those noted below as not reported;
- Credit balances of internal accounts included in "Undisbursed balances of appropriations to special accounts".

Liabilities not reported on the Statement of Assets and Liabilities include the following:

- Accounts payable for goods and services received in the year but not paid within thirty days from the end of the year;
- Accrued liabilities for certain retroactive salary and wage settlements and for benefits payable upon termination of employment;
- Actuarial liabilities arising from the indexing to the cost of living of superannuate pensions and annuities.

### ix. *The valuation of assets and liabilities*

Assets are valued at cost except for:

- Those reported at amounts advanced less amounts repaid or written off as authorized by Parliament;
- Short-term assets denominated in foreign currencies, which are valued at year-end closing rates of exchange; and
- Fixed assets, which are carried at the nominal value of one dollar.

Assets have not been subject to revaluation to reflect collectable or recoverable values. However, a general allowance for losses on all classes of assets has been provided. This allowance, which was created prior to 1957 by charges to budgetary expenditure, does not constitute a reserve related to any specific assets or classes of assets.

Assets and liabilities denominated in foreign currencies, other than cash and short-term liabilities, are

recorded at historical values. Cash and short-term liabilities are valued at year-end closing rates of exchange.

Other liabilities are recorded in the amounts ultimately payable except for pension and annuity obligations. The government's obligations for superannuate pensions and annuities are valued on an actuarial basis, except for the obligations under the Canada Pension Plan account and the supplementary retirement benefits account which are not maintained on an actuarial basis.

## 2. *Changes in financial statement presentation*

Significant changes have been made in the financial statements, in accordance with recommendations made in the Report on the Study of the Accounts of Canada. These changes include the following:

### i. *Statement of Revenue and Expenditure*

Revenue and expenditure are reported both gross and net in the Statement of Revenue and Expenditure in which certain receipts and revenues netted against expenditures under authority of Parliament are added back in total to revenue and expenditure to arrive at gross revenue and expenditure. Only net amounts are shown for the previous year.

### ii. *Statement of Assets and Liabilities*

—The order in which assets and liabilities are displayed in the Statement of Assets and Liabilities has been changed as recommended in the Report on the Study of the Accounts of Canada. The order of presentation in the 1975-76 Public Accounts was in accordance with liquidity.

—In both the assets and the liabilities, a new classification for internal accounts has been introduced, as explained in Note 9.

—Deferred charges and deferred revenue have been offset against the asset and liability accounts to which they apply, and the Canada Pension Plan investment fund has been deducted from the balance in the Canada Pension Plan account. The effect of these changes was as follows:

	(in millions of dollars)
	Balances at March 31, 1977
Asset balances offset against liabilities—	
Canada Pension Plan investment fund, to	
Canada Pension Plan account .....	10,851
Unamortized portion of actuarial deficiencies,	
to superannuation accounts .....	1,723
Discount on Treasury bills, to interest and	
matured debt .....	124
Cash and securities accounts, to trust accounts ..	91
Securities accounts, to unmatured debt .....	161
	12,950
Liability balances offset against assets—	
Uncollected interest capitalized (formerly	
deferred revenue), to loans, investments and	
advances .....	510
Reduction in asset and liability totals .....	13,460

### 3. Change in accounting practices

#### *Unamortized bond flotation costs*

A change has been made in the practice of amortizing commissions and discounts on bonds. All commissions and discounts on bonds issued in 1976-77, net of bond premiums, have been charged directly to budgetary expenditure. Previously, such costs had been amortized over the term of the bonds. This change is in accordance with that proposed in the Report on the Study of the Accounts of Canada.

The effect of this change is that bond commissions and discounts have increased budgetary expenditure in 1976-77 by \$9 million. The comparable increase in 1975-76 would have been \$17 million but this restatement has not been made to the 1975-76 accounts.

No change has been made in the practice of amortizing Treasury bill discounts over the term of the bills.

### 4. Amounts not included in budgetary revenue and expenditure

#### *i. Postal receipts used to defray postal expenditures*

Gross postal receipts amounting to \$103 million were used to defray certain postal expenditures under the authority of the Post Office Act, R.S., c. P-14 and are not included in either gross or net revenue and expenditure. The comparative figure for 1975-76 was \$85 million.

#### *ii. Amounts credited or charged to departmental asset and liability accounts*

	(in millions of dollars)			
	1977		1976	
	Credits	Charges	Credits	Charges
Airports revolving fund .....	41	70	30	137
National Defence—Surplus crown assets and replacement of material accounts .....	9	5	14	8
External Affairs—International assistance account .....		43		30
Transport—Railway grade crossing fund .....		27		19
Urban Affairs—National capital fund .....				5
Deposit and trust accounts .....	14	3	14	4

#### *iii. Amounts credited or charged to annuity, insurance and pension accounts*

The Unemployment Insurance Account, the Canada Pension Plan account and the Government superannuation accounts are accounts maintained separately within the Accounts of Canada and accordingly contributions and expenditures made for these accounts are not reflected in budgetary revenue and expenditure.

	(in millions of dollars)			
	1977		1976	
	Credits	Charges	Credits	Charges
Canada Pension Plan .....	2,461	874	2,129	622
Unemployment Insurance Account .....	4,222	3,631	2,940	3,508
Superannuation accounts .....	1,950	476	2,060	389
Government annuities .....	92	93	89	99
Other annuities, insurance and pension accounts .....	143	43	111	35

### 5. Refund of previous year's expenditures—Ministry of State for Urban Affairs

The Statement of Revenue and Expenditure includes an amount of \$121 million in respect of Urban Affairs under "refunds of previous years' expenditures". This item is related to the costs reimbursed to Central Mortgage and Housing Corporation under certain provisions of the National Housing Act from January 1, 1976, to March 31, 1976. Reimbursed to the Corporation in the year ended March 31, 1976, these costs were charged to appropriations provided by statutory authority in that year. However, in the year ended March 31, 1977, in order to conform with the technical details of the appropriation acts these same costs were charged to the annual appropriation providing specifically for such reimbursements and a corresponding revenue was recorded under the caption referred to above. The practice which has been followed for a number of years in fact results in an overstatement of revenues of \$121 million in the current year (\$77 million in 1975-76). The Ministry's expenditures are also overstated by a similar amount. Under Appropriation Act No 3, 1977, this practice is discontinued in 1977-78.

### 6. Loans likely to require parliamentary appropriations for write-off

The following loans are likely to require parliamentary appropriation for write-off in subsequent years:

	(in millions of dollars)	
	1977	1976
Canadian Broadcasting Corporation .....	198	198
National Capital Commission .....	38	38
Northwest Territories .....	105	105
Yukon Territory .....	43	43
	384	384

### 7. Unrecorded surpluses or deficits of revolving funds

Some surpluses or deficits resulting from the operations of these funds are not included in budgetary revenue and expenditure as required by Treasury Board regulations.

Of these surpluses, the Airports revolving fund and the Supply revolving fund accounted for \$46 million (\$65 million in 1975-76) and \$8 million (\$3 million in 1975-76) respectively. In addition, there are a number of other funds which have retained surpluses or deficits of lesser amounts.

## 8. Provincial tax collection agreements account

The excess of payments over credits in this account was \$71 million at March 31, 1977 and is included under "Other loans, investments and advances—Provincial and territorial governments". The credit balance of \$50 million in the account at March 31, 1976 is included in "Other liabilities".

## 9. Internal accounts

Certain internal accounts previously reported as assets and liabilities do not meet the new definitions recommended in the Report on the Study of the Accounts of Canada. However, these accounts will continue to be reported as "Internal accounts" on the Statement of Assets and Liabilities until such time as Parliamentary authority is obtained to delete them.

"Internal accounts" reported as assets represent deferred expenditures chargeable to subsequent years, in accordance with legislation, regulations or established practice.

"Internal accounts" reported as liabilities represent spending authority carried forward to future years.

The balances reported as "Internal accounts" in the Statement of Assets and Liabilities at March 31 were as follows:

	(in millions of dollars)	
	Balances at March 31	
	1977	1976
<b>ASSETS</b>		
Working capital advances to revolving funds, departments and agencies .....	727	843
Unemployment Insurance advances .....	1,734	2,255
Unamortized bond flotation costs .....	140	140
	2,601	3,238
<b>LIABILITIES</b>		
Undisbursed balances of appropriations to special accounts .....	38	94

## 10. International assistance account

Appropriation Act No 1, 1977 repealed outstanding authorities to carry forward appropriations in the international assistance account and discontinued the account at March 31, 1977. Commencing in 1976-77, such appropriations are subject to annual lapsing and from 1977-78, budgetary expenditure will show amounts expended rather than amounts appropriated.

In 1976-77, total disbursements in the account were \$148 million which were funded by the balance of \$43 million carried forward from the previous year and by \$105 million charged to budgetary expenditure.

## 11. Unemployment Insurance Account

The accounts in respect of the Unemployment Insurance Account which are included in the Statement of Assets and Liabilities are summarized in the following table:

	(in millions of dollars)	
	1977	1976
<b>ASSETS</b>		
Unemployment Insurance Account—Interest-bearing advances .....		70
Unemployment Insurance advances—Non-interest-bearing advances .....	1,769	2,088
Unemployment Insurance Account .....	— 35	167
	1,734	2,255
	1,734	2,325
<b>LIABILITIES</b>		
Outstanding warrants .....	118	108

## 12. Canada Pension Plan

The accounts in respect of the Canada Pension Plan which are recorded on the Statement of Assets and Liabilities are summarized in the following table:

	(in millions of dollars)	
	1977	1976
Canada Pension Plan account .....	11,357	9,770
Unmatured debt—Canada Pension Plan investment fund .....	72	62
	11,429	9,832
Canada Pension Plan investment fund—Securities of, or guaranteed by—		
Provinces .....	10,851	9,362
Government of Canada .....	72	62
	10,923	9,424
Net liability to the Canada Pension Plan .....	506	408

The liability amounts shown above do not purport to reflect any obligation of the Government of Canada to discharge the unfunded actuarial liability of the Plan. Financial statements of the Canada Pension Plan Account can be found in Section 15 of Volume II.

## 13. Unamortized portion of actuarial deficiencies of superannuation accounts

These accounts record the unamortized portions of the actuarial deficiencies in the Public Service superannuation account, the Canadian Forces superannuation account, and the Royal Canadian Mounted Police superannuation account which have been set up as deferred charges and credited to superannuation accounts.

Actuarial valuations are made quinquennially, the next of which will be made effective December 31, 1977 for the Public Service superannuation account, December 31, 1975 for the Canadian Forces superannuation account and December 31, 1974 for the Royal Canadian Mounted Police superannuation account.

Any actuarial deficiency revealed will be credited to the account and charged to unamortized portion of actuarial deficiencies and amortized to budgetary expenditure in five equal annual instalments commencing in the fiscal year in

which the report is laid before Parliament. Also, the cost for benefits payable under the superannuation acts as a result of the authorization of salary increases is to be credited to the superannuation accounts and charged to unamortized portion of actuarial deficiencies and amortized to budgetary expenditure over a period of five years commencing in the year in which the increases are authorized.

Adjustments for actuarial deficiencies in respect of authorized salary increases were recorded in 1976-77 in the amount of \$677 million while amortization to budgetary expenditure was \$784 million. In 1975-76 adjustments were \$965 million and amortization was \$743 million. There were no quinquennial adjustments recorded in either year.

#### 14. Unrecorded accounts payable

Some accounts applicable to the year ended March 31, 1977 are not recorded in the financial statements, but were carried over to be paid in the following year.

Accounts totalling \$46 million are disclosed in Section 11 of Volume 1 of the Public Accounts, "Summary of Accounts Properly Chargeable to 1976-77 but carried over to 1977-78". The comparative amount for 1975-76 was \$78 million.

#### 15. Retroactive salary and wage payments

A number of collective bargaining agreements have been signed, that call for retroactive payments partly applicable to 1976-77 and which have been or will be paid in 1977-78. The estimate of the retroactive payments to be made pertaining to 1976-77 is \$44 million. No provision for this has been made in the 1976-77 accounts. The comparative amount for 1975-76 was \$48 million.

#### 16. Foreign assets and liabilities

The foreign assets and liabilities recorded under these headings are those which are subject to settlement in foreign currencies. There are other foreign assets and liabilities such as foreign currencies which are included with other cash balances at their Canadian dollar equivalent and amounts denominated in foreign currencies which are held in deposit and trust accounts.

#### 17. Valuation of assets and liabilities denominated in foreign currencies

Assets and liabilities denominated in foreign currencies, other than those of a short-term nature, are recorded at historical values. The value of these assets and liabilities based on exchange rates in effect at March 31, 1977 (\$1 U.S.= \$1.0539 Canadian) are summarized in the following table.

(in millions of dollars)			
	Recorded value	Valuation at March 31, 1977 exchange rate	Over (Under) valuation
<b>ASSETS DENOMINATED IN FOREIGN CURRENCIES</b>			
Loans, investments and advances— Crown corporations and agencies .....	69	68	1
Exchange Fund account .....	3,217	3,326	(109)
Subscriptions, loans and advances—			
International Monetary Fund .....	1,232	1,344	(112)
Other international organizations .....	859	878	(19)
	5,377	5,616	(239)
<b>LIABILITIES DENOMINATED IN FOREIGN CURRENCIES</b>			
Special Drawing Rights .....	370	438	(68)
Unmatured debt .....	164	159	5
	534	597	(63)

Balances in bank accounts operated in foreign currencies are converted to Canadian currency at the year end on the basis of closing market rates.

#### 18. Maturity of Government Debt

The following amounts represent that portion of unmatured debt maturing in the next five years.

(in millions of dollars)				
	Treasury bills	Marketable bonds	Canada savings bonds	Total
1978 .....	8,255	2,732	27	11,014
1979 .....		2,100	2,692	4,792
1980 .....		2,353	146	2,499
1981 .....		2,464	948	3,412
1982 .....		1,594	824	2,418
	8,255	11,243	4,637	24,135

It should be noted however that all Canada savings bonds are redeemable on demand regardless of maturity date.

Details of unmatured debt may be found in Section 10 of this volume.

#### 19. Gross liabilities of the Government of Canada

The Statement of Assets and Liabilities has been prepared in accordance with the concept that assets are financial claims acquired by the Government of Canada on outside parties and liabilities are its financial obligations to outside parties. The deferred expenditure charges, which are deducted from certain

liabilities, are not in keeping with this concept. To arrive at the gross liabilities of the Government the amounts deducted must be added back to the total of liabilities as shown in the following table:

	(in millions of dollars)		
	Balances at March 31		Net increase or decrease (—)
	1977	1976	
Total liabilities per statement .....	67,075	59,802	7,273
Unamortized portion of actuarial deficiencies .....	1,723	1,830	— 107
Discount on Treasury bills .....	124	109	15
Undisbursed balances of appropria- tions to special accounts .....	— 38	— 94	56
	68,884	61,647	7,237

## 20. Contingent liabilities of the Government of Canada

The determinate amounts outstanding under guarantees and other contingent liabilities assumed by the Government, as now recorded, are as follows:

	(in millions of dollars)	
	1977	1976
Railway securities guaranteed as to principal and interest .....	574	583
Insured loans under the National Housing Act, 1954 .....	15,130	13,864
Other outstanding amounts .....	3,109	2,677
	18,813	17,124

Details of these contingent liabilities, together with certain indeterminate guarantees, are listed in Section 10.

## 21. Events subsequent to the end of the year

The following events have occurred subsequent to the end of the year:

- i. Under amendments to the Currency and Exchange Act passed June 27, 1977, the net income of the Exchange Fund account for the year ending December 31, 1977 is defined as including, inter alia, the deficit accumulated in the account to December 31, 1976. The deficit was \$125 million at that date.

The amendments also provide that the net income of the account for a year is to be paid into, or out of the Consolidated Revenue Fund if a loss, by March 31 of the following year. Thus the \$125 million deficit in the Exchange Fund at December 31, 1976, will be reflected in the Public Accounts of 1977-78 and has not been provided for in 1976-77. The deficit of \$125 million includes \$82 million accumulated to December 31, 1975.

- ii. Effective April 1, 1977, the \$625 million of indebtedness of the St. Lawrence Seaway Authority, to the Government of Canada, is deemed to be paid to the Authority as its capital (Supplementary Estimates "D" for 1976-77). In the Public Accounts for 1977-78 the amount will be so recorded. This change does not affect the government's ownership of the Authority, which remains total.
- iii. Cabinet approval was given on May 24, 1977 to write off loans to several least developed countries. These loans will be included in the Supplementary Estimates for 1977-78 which will then be subject to Parliamentary approval. The amount at which these loans were recorded at March 31, 1977 was \$215 million.

# Observations by the Auditor General on the Financial Statements of the Government of Canada

## Introduction

This section contains observations, prepared for inclusion in my Report to the House of Commons, that relate specifically to matters affecting the presentation of the financial statements of the Government of Canada for the year ended March 31, 1977. These financial statements are included in Section 3 of this volume and comprise the Statement of Revenue and Expenditure, the Statement of Assets and Liabilities and the Summary of Budgetary Appropriations, Expenditures and Unexpended Balances by Department. In addition to these observations, my Report to the House of Commons will contain other comments on the results of the audit of the accounts of the Government for the year ended March 31, 1977.

Many of the observations included in this section concern matters that I commented on in previous Reports to the House of Commons. These matters relate to practices which result in serious deficiencies in the presentation of the financial position and the financial operations of the Government of Canada, even though such practices are in accordance with existing legislation and stated accounting policies. The implementation of the recommendations of the Study of the Accounts of Canada will correct some of these deficiencies. Others that relate to the valuation of loans to other governments and to government controlled organizations, are at present being studied by the Government in accordance with recommendations of the Standing Committee on Public Accounts.

## Changes in financial statement presentation

Note 2 to the financial statements describes the significant changes in the presentation of the Statement of Assets and Liabilities and the Statement of Revenue and Expenditure. The changes reflect the implementation, in whole or in part, of several recommendations contained in the Report on the Study of the Accounts of Canada.

The Statement of Revenue and Expenditure has been changed to show the amount of revenue credited to gross expenditure under the authority of the relevant Appropriation Acts. This change corrects the distortion in the reporting of revenue and expenditure commented on in my 1976 Report, except for the treatment of certain expenditures from postal revenues, as disclosed in Note 4(i) to the financial statements, and the overstatement of revenues and expenditures of the Ministry of Urban Affairs, as shown in Note 5.

Assets and liabilities have been reordered and grouped in the Statement of Assets and Liabilities to comply with the recommendations of the Study of the Accounts of Canada. Certain balances which do not meet the definition of assets and liabilities prescribed by the Study and set out in Note 1 to the financial statements, are identified as "Internal Accounts" designated for deletion in future years. Included in these "Internal Accounts" are certain advances to the Unemployment Insurance Account, working capital advances not representing financial claims on third parties, and undisbursed balances of appropriations to special accounts. In previous years I commented on the accounting inconsistency of reporting these balances as assets and liabilities of the Government of Canada. When the recommendations of the Study are fully implemented and these balances written off, this accounting inconsistency will be corrected.

Note 3 to the financial statements describes a change in accounting for bond discounts, premiums and other bond flotation costs. Only such costs incurred in the year were

charged to budgetary expenditure. In 1977-78 the Government plans to write off the balance of unamortized bond flotation costs at March 31, 1976, which is included in "Internal Accounts." This change in accounting practice implements another recommendation of the Study.

I previously indicated my support for the recommendations of the Study of the Accounts of Canada and am pleased to note the action taken in the year. A brief summary of the status of the Treasury Board Secretariat's plans for the implementation of the recommendations of the Study is contained later in this section.

## Internal accounts to be deleted

Pending parliamentary approval for write-off, the financial statements report the following balances of "Internal Accounts", as described in Note 9, as assets and liabilities:

### Assets

Working capital advances to revolving funds, departments and agencies .....	\$ 727	million
Unemployment Insurance advances .....	1,734	"
Unamortized bond flotation costs .....	140	"
	<u>\$2,601</u>	<u>million</u>

### Liabilities

Undisbursed balances of appropriations to special accounts .....	\$ 38	million
--	-------	---------

Accordingly, the reported assets and liabilities of the Government of Canada at March 31, 1977 are overstated by \$2,601 million and \$38 million respectively.

"Loans, Investments and Advances to Crown corporations and Agencies" reported in the Statement of Assets and Liabilities includes \$91 million for a stockpile of uranium concentrates administered by Uranium Canada Limited for the Department of Energy, Mines and Resources. This amount should have been classified as a departmental working capital advance and included in "Internal Accounts" designated for deletion. Subsequent to the closing of the 1976-77 accounts, the Department initiated action to correct the classification of the amount in the Accounts of Canada.

## Loans likely to require parliamentary appropriation for write-off

In my opinion, the following loans do not represent assets of the Government of Canada. The Government has recognized this and has indicated, as described below, that it intends to take action to delete them from the assets of the Government of Canada.

### CANADIAN BROADCASTING CORPORATION, NATIONAL CAPITAL COMMISSION, NORTHWEST TERRITORIES AND YUKON TERRITORY

Note 6 to the financial statements identifies the following outstanding loans as likely to require parliamentary appropriations for their write-off in subsequent years:

Canadian Broadcasting Corporation .....	\$ 198	million
National Capital Commission .....	38	"
Northwest Territories .....	105	"
Yukon Territory .....	43	"
	<u>\$ 384</u>	<u>million</u>

These loans were made before March 31, 1975, to finance capital expenditures. Since then, capital expenditures have been financed by budgetary appropriations of Canada. Payments of principal and interest on the outstanding loans have been deferred by Order in Council until 1979 pending the write-off and deletion from the Accounts of Canada of the amounts owing.

#### LOANS TO LEAST DEVELOPED COUNTRIES

As described in Note 21(iii) to the financial statements, loans to national governments include approximately \$215 million in special loan assistance to a number of least developed countries which will be written off in 1977-78 subject to obtaining the necessary parliamentary approval.

### Loans and advances, the carrying value of which is questionable

The recorded amounts of the following loans and advances, represented as assets of the Government of Canada, are questionable in view of the following circumstances:

#### LOANS TO CROWN CORPORATIONS

As pointed out in my previous Reports to the House of Commons, a number of Crown corporations, including the Canadian National Railways, the National Harbours Board and The St. Lawrence Seaway Authority, have a history of deficits and have lacked sufficient revenue to repay their outstanding loans without assistance by way of parliamentary appropriation.

Loans to the Canadian National Railways of \$1,412 million are included in the Statement of Assets and Liabilities. In 1976 the Corporation had a profit for the first time in many years and a parliamentary appropriation to meet a current deficit was not required. Whether the Corporation will be able to continue to fully repay these loans without parliamentary appropriations depends on its ability to generate the necessary funds in future years.

Loans to the National Harbours Board amounted to \$330 million at the year end. Based on the present financial circumstances of this organization, it is doubtful that it will be able to meet the principal and interest obligations on these loans.

Loans to The St. Lawrence Seaway Authority totalled \$625 million and interest in arrears amounted to \$216 million at March 31, 1977. I previously reported that it was extremely unlikely that the Seaway Authority would be able to repay its capital indebtedness. Appropriation Act No. 1, 1977, approved the conversion of \$625 million of loans to equity capital of Canada as of April 1, 1977, as disclosed in Note 21(ii), and Order in Council approval was obtained to cancel any future accrual of interest. Authority will be sought to write off the \$216 million of interest in arrears.

#### LOANS TO DEVELOPING COUNTRIES

Loans to national governments include \$1,430 million in special loan assistance to developing countries. Most of these loans bear no interest and are usually repayable over

50 years with no payments falling due in the first 10 years. A certain number carry nominal interest rates of 3/4 of 1%. Loans for such long periods with such low interest rates have the characteristics of grants and, as previously mentioned, \$215 million will be written off in 1977-78 subject to parliamentary approval.

"Subscriptions, Loans and Advances—Other International Organizations" included in "Foreign Assets" includes \$263 million of special loan assistance to international development associations. These loans are working capital advances, have no repayment terms and bear no interest. Repayment will fall due only on termination of the association. These loans also have the characteristics of grants.

#### LOANS TO ATOMIC ENERGY OF CANADA LIMITED

Included in the loans to Atomic Energy of Canada Limited are the following relating to prototype nuclear power stations:

Gentilly I, Quebec .....	\$ 88 million
Douglas Point, Ontario .....	70 "
	<u>\$ 158 million</u>

During the year, the Corporation obtained a parliamentary appropriation of \$85 million to cover accrued interest on these loans owing to Canada to March 31, 1977. The Corporation is also requesting revised terms to make the loans non-interest-bearing as of April 1, 1977.

Ontario Hydro and Hydro-Québec are committed, under contract, to offer to purchase the prototype nuclear power stations at Douglas Point and Gentilly I respectively at prices economically viable to the utilities when the stations have been demonstrated to be a safe and dependable source of power. It is not known when the sales might take place or whether the sales prices will provide for full recovery of the costs.

#### INACTIVE LOANS

Accounts in this category comprise:

Loans to China—	
Export Credits Insurance Act .....	\$ 49 million
Loans to Greece .....	7 "
	<u>\$ 56 million</u>

These loans are described in the Public Accounts as being neither currently revenue-producing nor realizable. In fact, there has been no change in the outstanding balances for over 20 years.

#### LOANS TO SAINT JOHN HARBOUR BRIDGE AUTHORITY

These loans are included in three categories as follows:

National Harbours Board—	
Saint John Harbour Bridge Authority .....	\$ 15 million
Miscellaneous—The Department of Finance—	
Saint John Harbour Bridge Authority .....	8 "
Municipal Development and Loan Board—	
Advances .....	2 "
	<u>\$ 25 million</u>

Revenues of the Saint John Harbour Bridge Authority have been insufficient to meet principal and interest payments on the National Harbours Board loan and the advances from the Municipal Development and Loan Board. The miscellaneous loan from the Department of Finance was made to cover the shortfalls on repayments of principal and interest. In these circumstances these loans cannot be regarded as fully collectable.

#### LOANS TO BE FORGIVEN

Loans to provincial governments include \$206 million for winter capital projects of which an estimated \$8 million relating to associated labour costs to May 31, 1975, is to be forgiven.

Outstanding loans of \$9 million at March 31, 1977, by the Department of Indian Affairs and Northern Development for Indian housing assistance, are non-interest-bearing and subject to conditional forgiveness.

### Deficits of Crown corporations for which parliamentary appropriations are likely to be sought

The following instances were noted where Crown corporations incurred deficits for which it appears likely that parliamentary appropriations will be sought:

#### CANADIAN DAIRY COMMISSION

The Canadian Dairy Commission reported an accumulated deficit of \$160 million at March 31, 1977, mainly the result of providing \$147 million for the deficit of the Export Equalization Account which the Minister of Agriculture has announced would be taken over by the Government.

#### CANADIAN NATIONAL RAILWAYS

Following the recovery of the overpayment of subsidies to the Canadian National Railways for 1974 and 1975, the Corporation's deficit for those years will be increased by \$22 million. For many years, the operating deficits of the Corporation after accounting for subsidies received, have been compensated for through parliamentary appropriations. Accordingly, an appropriation will likely be sought to pay to the Corporation the \$22 million.

#### ATOMIC ENERGY OF CANADA LIMITED

Parliamentary appropriations provided for \$110 million of the \$291 million excess of expenses over revenue recorded during the year, leaving a deficit of \$181 million of which \$170 million is attributable to a provision for estimated losses recorded by the Corporation. On the realization of these losses, parliamentary appropriations may be required.

### Exchange Fund Account deficit

Advances to the Exchange Fund Account at March 31, 1977, amounted to \$3,217 million. The Statement of the Account as at December 31, 1976, showed an accumulated deficit of \$125 million. Under an amendment to the Currency and Exchange Act, this deficit will be charged to budgetary expenditure in 1977-78, as disclosed in Note 21(i) to the financial statements.

### Allowance for losses on realization of assets

In assessing the valuation of the recorded assets of the Government of Canada, the allowance for losses on realization of assets should be considered. This allowance of \$546 million was established many years ago and does not constitute a provision for loss on the realization of any specific asset or class of assets. Departments are not currently required to identify delinquent loans and advances for purposes of assessing the adequacy of the allowance.

In considering the recommendations of the Study of the Accounts of Canada, two areas in which the Public Accounts Committee concluded that further study was necessary were as follows:

- the accounting of current and future loans to other governments;
- the accounting of current and future loans to government-controlled organizations whose financing is unrealistic and who therefore may not be in a position to repay such loans.

We understand that the Treasury Board Secretariat is undertaking a special study on the "Valuation of Assets" in response to the foregoing and in order to implement recommendations of the Study of the Accounts of Canada concerning the establishment of provisions for losses on specific classes of assets.

### Valuation of pension accounts

The Financial Statements of the Government of Canada do not reflect any deficiency resulting from actuarial valuation of the Canada Pension Plan account or the Supplementary Retirement Benefits account. Relevant details are as follows:

#### CANADA PENSION PLAN ACCOUNT

As stated in Note 12, the financial statements of the Government of Canada do not purport to reflect any obligation of the Government of Canada to discharge the unfunded actuarial liability of the Canada Pension Plan.

Benefits paid under the Plan are financed from current contributions and the excess of receipts over disbursements is invested in provincial and federal securities. Should contributions be insufficient to meet benefit payments in future years, the deficiency would be financed by interest received or by a drawdown of the investments of the Plan. Based on current actuarial projections, assuming the current rate of contribution is maintained, contributions will be insufficient to cover benefits in 1983 and the assets of the Plan will be exhausted by 2000. The Canada Pension Plan Act limits payments from the Consolidated Revenue Fund to the amount of the outstanding balance in the Canada Pension Plan account.

#### SUPPLEMENTARY RETIREMENT BENEFITS ACCOUNT

As described in Note 13 to the financial statements, actuarial valuations of the superannuation accounts are made quinquennially. Any resulting actuarial deficiencies are recorded in the accounts and amortized to budgetary expenditure in five equal annual instalments beginning in the year in which the actuarial report is laid before Parlia-

ment. No similar actuarial valuation is made of the Supplementary Retirement Benefits account which was established in 1970 and from which increased benefits resulting from indexation were to be met.

Increased superannuation benefits paid during the year due to indexation amounted to \$131 million (\$90 million in 1975-76). In accordance with the legislation, \$126 million (\$89 million in 1975-76), representing benefit payments to superannuates in excess of their share of contributions to the Account was charged to budgetary expenditures. Only \$5 million (\$1 million in 1975-76) was charged to the Supplementary Retirement Benefits account. The magnitude of the benefit payments in excess of contributions and charged to budgetary expenditures, indicates that there could be a material actuarial liability of the Government of Canada under this plan. Since no actuarial valuation of the Account has been made, the actuarial liability is not recognized in the financial statements.

### **Implementation of the recommendations of the Study of the Accounts of Canada**

In my 1976 Report, I stated that my Office would monitor adherence to the plans for the implementation of the recommendations of the Study of the Accounts of Canada outlined by the Treasury Board Secretariat. The following comments present a brief summary of the status of the implementation of the recommendations based on our review and discussions with the Financial Administration Branch of the Treasury Board Secretariat.

In addition to the changes in the presentation format of the Statement of Assets and Liabilities and the Statement of Revenue and Expenditure commented on above, summary statements of financial transactions were introduced in Section 2 of this volume to comply with the recommendations of the Study. These summary statements are consistent with those used to report government financial transactions in the Budget Papers and the Canada Gazette. Changes in the order and grouping of balances on the Statement of Assets and Liabilities are intended to make that statement compatible with the summary statements of transactions; however, additional modifications will be required to make these statements fully consistent.

The Treasury Board Secretariat has not yet decided as to when it will seek parliamentary authority to delete "Internal Account" balances. A project to establish procedures for recording all accounts payable is underway. This project is intended to provide for the reporting of all accounts payable at March 31, 1978. Until these actions are completed, the assets and liabilities of the Government of Canada will not be reported on a basis consistent with the definitions recommend-

ed by the Study. Further, changes in appropriations for revolving funds and amendments to the Unemployment Insurance legislation will be required to treat future advances for these purposes as budgetary expenditures in the year in which such advances are made.

A further recommendation of the Study not yet implemented is the disclosure in the Statement of Revenue and Expenditure of the amount of interdepartmental transactions to be eliminated in order to arrive at revenue and expenditure involving third parties. Procedures to appropriately identify these transactions in the accounts have been initiated.

The special Study on the "Valuation of Assets" being undertaken by the Secretariat as mentioned above, will facilitate implementation of the recommendations of the Study concerning the establishment of provisions for losses on specific classes of assets.

We are informed that, as recommended in the Study, the Estimates for 1977-78 include estimates for all non-budgetary loans, investments and advances appropriations and the Government plans to present a comparison of those estimated amounts with the actual outlays for loans, investments and advances in the 1977-78 Public Accounts. No new non-lapsing appropriations are included in the 1977-78 Estimates and existing multi-year votes and instances of net voting of revenues are being phased out as recommended. However, action has not been taken to date to implement other significant recommendations of the Study concerned with the presentation of summary information in the Estimates. The Secretariat does not expect such recommendations to be implemented prior to 1980-81.

Recommendations concerning revolving funds and cost recovery are included in a position paper being prepared by the Secretariat and a draft of a revised Treasury Board policy on this subject is expected to be completed early in 1978.

The Secretariat is also developing a revised policy on commitment accounting which will provide for the implementation of recommendations of the Study in this regard. The target date for completing a draft of this policy is December 31, 1978.

Many of the issues related to the Study's recommendations on Crown corporations are addressed in the Government's Proposals concerning the direction, control and accountability of Crown corporations published in September of this year.

It is evident from the foregoing that the changes this year represent an initial step towards the full implementation of the recommendations of the Study. Further substantive changes are planned for succeeding years. My Office will continue to monitor the progress in implementing the recommendations of the Study.

## Financial Operations

The audited financial statements in Section 3 show the budgetary revenue and expenditure and the assets and liabilities of the Government of Canada. In order to show the magnitude and nature of the financial operations that lie behind these audited statements, this section presents statements of both total and consolidated financial operations of the Government. The effects of these operations on the debt and cash position are then disclosed in a statement that shows the changes in this position.

The Statement of the Total Financial Operations includes all the cash, non-cash and internal transactions reported during a year. The Statement of Consolidated Financial Operations excludes internal transactions and therefore shows the financial transactions between the Government and outside

parties. The effects of these operations on the debt and cash position of the Government are then presented in a Statement of Changes in the Debt and Cash Position of the Government which shows the financial resources used by the Government and the financial resources available to it from sources other than unmatured debt and cash.

## Total Financial Operations

The Statement of Total Financial Operations given in Table 5.1 translates the contents of the audited financial statements into the gross values of the transactions of the Government. Gross values for budgetary transactions are obtained by adding receipts and revenues credited to appropriations, and postal expenditure made from postal revenue, to budgetary

revenue and expenditure and by disclosing the gross values of transactions in asset and liability accounts. Gross transactions are aggregated to show the magnitude of non-budgetary, foreign exchange and unmatured debt operations. The last section of the statement shows how the various financial operations affected cash balances.

In terms of absolute amounts, the financial operations of the Government of Canada from all types of transactions in 1976-77 led to receipts and other credits of \$107,351 million, payments and other charges of \$106,806 million and an increase in cash of \$545 million. In 1975-76, the corresponding figures were \$88,210 million of receipts and credits, \$88,362 million of payments and charges and a decrease in cash of \$152 million. These absolute figures should not be interpreted as being either revenue or expenditure. They are the totals of the receipts and credits and of the payments and charges which passed through the Accounts of Canada, including internal and non-cash transactions. As such, they serve as a measure of the magnitude of the transactions presented for audit and as totals to be analyzed, as in Table 5.1, to show the total values of different kinds of financial transactions.

Additional information on budgetary revenue, budgetary expenditure, non-budgetary, foreign exchange and unmatured debt operations, and changes in cash balances, are given in the following sections of this volume.

## Consolidated Financial Operations

The purpose of the Statement of Consolidated Financial Operations is to report the Government's financial operations with outside parties. The process of consolidation involves:

- the definition, identification and elimination of internal transactions; and
- the restatement of the remaining transactions.

An internal transaction takes place within the Government. An example is a transfer from one appropriation to another in which the first appropriation is charged with an expenditure and the second receives a credit to be offset against its expenditure. Since no party outside the Government is involved, such transfers are transactions internal to the Government. However, accrued wages and salaries are included in the consolidated financial operations because employees are regarded as outside parties and accrued wages and salaries are liabilities payable to them. After the elimination of internal transactions, the remaining transactions are those between the Government and outside parties.

In Table 5.2 receipts and other credits include tax revenue, excise taxes, contributions to annuity, insurance and pension accounts, non-tax revenue, and decreases in assets and increases in liabilities. Payments and other charges in the table include operating and capital expenditures, grants, contributions and other transfer payments, acquisition of assets and liquidation of liabilities.

## Changes in the debt and cash position

The Statement of Changes in the Debt and Cash Position shows the financial resources used by and provided from the Government's operations during the year, together with the changes in its debt and cash position.

In the statement, transactions which neither require nor provide resources in the current year are eliminated. An example of an elimination is the Government's contribution in 1976-77 of \$1,683 million to the Unemployment Insurance Account. This amount is eliminated in the statement because it did not require financial resources, that is, it was not actually paid out nor will it be subsequently paid. However, in its place, the amount actually paid for benefits to the unemployed and the administration of the Unemployment Insurance Account, \$3,590 million, is reported, because it represents the financial resources actually used for this purpose, while the employee and employer contributions to the account of \$2,467

million are reported as a source of funds. On the other hand, accrued liabilities for salaries, wages and interest are not eliminated because they will eventually require payment.

The increase in debt and cash position was \$4,265 million in 1976-77 and \$4,744 million in 1975-76, representing the excess of resources used over resources available in each year, from sources other than debt and cash.

To finance these changes, the Government borrowed, on a net basis, \$4,810 million in 1976-77 and \$4,592 million in 1975-76. In 1976-77 this borrowing also provided an increase in cash balances of \$545 million, but in 1975-76 borrowings were supplemented by a decrease in cash balances of \$152 million.

In reporting the net increases in bonds and Treasury bills, par or face values have been used rather than the net proceeds (par values less discounts) realized.

## BUDGETARY REVENUE

Budgetary revenue consists of all revenue that has not been allocated to a special purpose. It includes all tax revenues from income tax, oil export charge, excise taxes and duties, and customs import duties subject to the exceptions noted in the following paragraph. In addition, budgetary revenue includes returns received on investments, postal revenue net of both disbursements and revenues credited to the votes of the Post Office, and certain other non-tax revenues. The main items included in other non-tax revenues are fees, sales, privileges, licences, permits and bullion and coinage transactions and refunds of previous years' expenditures. Budgetary revenue also includes other internal transactions that do not lead to changes in the balance of the Consolidated Revenue Fund as disclosed under the Identification of Financial Transactions. Details are given in section 1.

Budgetary revenue is stated net of refunds paid and excludes:

1. taxes collected by the Government of Canada on behalf of participating provinces in accordance with Federal Provincial Agreements;
2. receipts from the air transportation tax credited to both the Airports Revolving Fund and budgetary expenditures of the Ministry of Transport;
3. contributions to the Canada Pension Plan, Unemployment Insurance and superannuation accounts;
4. receipts and revenues credited to appropriations;
5. receipts and revenues credited to special and departmental accounts;
6. receipts and revenues credited to revolving funds.

The yield from tax revenue is affected by changes in tax rates, by changes in the base on which taxes are calculated and by variations in economic conditions. Income tax liability

relates to the income of a taxation year but the system of collecting personal and corporation income taxes by payroll deductions and instalments produces a distribution of receipts throughout the year.

The following tax changes had an impact on this year's budgetary revenue:

- Doubling of limits on the child care expense deduction;
- Increase in contribution limits on deferred income plans;
- Increase in income subject to the low rate of tax for Canadian-controlled private corporations;
- Removal of the federal sales tax from energy-conserving equipment;
- Increase in the tax on high energy-consuming vehicles;
- New tax on automobile air conditioners; and
- Extension of the air transportation tax.

Tax revenue increased \$2,062 million in 1976-77 compared to an increase of \$1,607 million in 1975-76.

The increase of \$1,911 million in personal income tax accounted for 93% of the increase in tax revenues and for 45% of total budgetary revenue in 1976-77 compared to 43% in 1975-76. Increases were recorded in all components of taxes excluding the oil export charge. Non-tax revenues increased by \$622 million or 22% over the previous year.

Under fiscal arrangements that became operative in 1962, the federal government entered into tax-collection agreements under which it collects the provincial personal income taxes of all provinces except Quebec and the provincial corporation income taxes of all provinces except Ontario and Quebec.

Personal and corporation income taxes collected by the federal government on behalf of the provinces, and subsequently remitted to the provinces, are not included in the tables shown here.

<sup>(1)</sup> The old age security taxes were eliminated after 1971 but amounts determined by reference to the previously existing old age security tax rates were credited to the Old Age Security Fund.

Under amendments to the Old Age Security Act, which came into effect at the end of June, 1975, the Old Age Security Fund ceased to exist, benefits paid are to be charged to budgetary expenditure and transfers of personal and corporation income taxes and sales tax previously made to the fund were discontinued.

<sup>(2)</sup> Based on October 1, population of each year.

## Personal income tax

In 1976-77 personal income tax was again the largest source of government revenue. The increase was due mainly to a higher level of personal incomes in 1976-77.

The concentration of personal income tax refunds in the early months of the year accounts for the relatively low level of deductions at source in April, May and June. Other collections, which represent taxes paid directly by individuals, were higher in May, reflecting the payment of balances due for the taxation year 1975, and in April, July, October and January, reflecting the payment of quarterly instalments for the taxation year 1976.

## Corporation income tax

Corporation income tax was the second largest source of government revenue.

## Non-resident tax

Revenue in this category is derived from tax withheld from dividends, interest, rents, royalties, alimony and income from estates and trusts paid to non-residents.

## Excise taxes

Excise taxes including sales tax, oil export charge and gasoline tax totalled \$5,675 million, 17% of total budgetary revenue.

From a revenue standpoint the general sales tax was the most important tax levied under the Excise Tax Act. Included in excise tax is \$661 million in oil export charge, applicable to exports made since the beginning of March 1974, imposed under the Excise Tax Act.

Receipts from the gasoline tax were \$600 million. Under certain conditions the amounts received may be refunded to purchasers. As of March 31, 1977, \$766 million was received and \$166 million refunded and charged to revenue. This special excise tax in part offset the oil export charge decrease in revenue due to the reduction in the rate of the charge and significant reduction in the volume of oil exported.

The yield from other excise taxes levied under the Excise Tax Act, other than the general sales tax, the oil export charge and the gasoline tax was \$485 million.

## Excise duties

Excise duties are levied on alcoholic beverages (other than wines) and tobacco products. (Additional taxes on tobacco products and taxes on wines are levied under the Excise Tax Act).

## APPROPRIATIONS

The major part of the expenses of the public service is defrayed from moneys granted by Parliament in the annual Appropriation Acts; however substantial payments are made under authority of other acts which authorize expenditures for specified purposes and for such amounts and during such time as the acts may prescribe. The spending authority granted in the annual Appropriation Acts differs from that granted in "statutory" authorities in that it is usually for a specific amount and of definite duration and, unless there is provision to the contrary in the wording of the vote, any unused balance lapses at the end of the fiscal year for which it is granted.

Table 7.1 gives a summary of budgetary expenditure provided under the authority of the annual Appropriation Acts and various statutory authorities for the year ended March 31, 1977. A statement in greater detail, classified by department, is given in volume II.

<sup>(2)</sup> Amends reporting in previous year's Public Accounts.

In addition spending authority of \$61 million was carried forward from 1975-76 in accordance with provisions of the original appropriations.

Budgetary expenditure during 1976-77, under authority of these appropriations, totalled \$16,317 million, consequently, \$1,249 million, or about 8% of the amount provided by the Appropriation Acts for budgetary expenditures, was unspent at the close of the fiscal year. Of this amount \$1,224 million lapsed in accordance with section 30 of the Financial Administration Act and \$25 million was available for expenditure in 1977-78 in accordance with provisions of the Appropriation Acts.

Budgetary expenditures in 1976-77 under the authority of statutes authorizing payments from the Consolidated Revenue Fund for specific purposes without further appropriations amounted to \$22,613 million, accounting for approximately 58% of the total budgetary expenditures of \$38,930 million. A comparative summary of these statutory expenditures by principal classes is shown in table 7.2

The Estimates for 1976-77 covering budgetary expenditure and the Appropriation Acts granting funds in respect thereof were as follows:

In 1975-76 annual Appropriation Acts provided \$15,752 million of which \$14,963 million was used and expenditures under Special Statutes were \$19,015 million resulting in total expenditures of \$33,978 million.

## BUDGETARY EXPENDITURE

Budgetary expenditure consists of expenditure that is financed from budgetary revenue and such other sources as may be used to finance any shortfall of budgetary revenue. It includes:

- Payments made during the year and within thirty days following the end of the year on account of debts incurred for operating expenditures, capital expenditures, grants and contributions;
- Interest accrued on the public debt;
- Accruals of certain salaries and wages earned but not paid at the end of the year.

Budgetary expenditures also include certain transactions that do not change the balance of the Consolidated Revenue Fund, such as

- Interest and government contributions credited to superannuation, other annuity, insurance and pension accounts and to the Unemployment Insurance Account;
- Write-off of losses;
- Amortization of loan flotation costs and the actuarial deficiencies of superannuation accounts;

- Amounts credited to the undisbursed balances of appropriations to special accounts;
- Credits to votes from other appropriations, revolving funds and other accounts.

Budgetary expenditure does not include pensions paid under the Canada Pension Plan, superannuation and other pension accounts, Unemployment Insurance payments other than benefits to fishermen, any payments financed from receipts credited directly to undisbursed balances of appropriations to special accounts or expenditures charged to working capital advance accounts and revolving funds.

## EXPENDITURE BY FUNCTION

The government's budgetary expenditure classified by function is summarized in Table 7.3.

The largest category of expenditure under the functional classification is health and welfare which accounted for \$13,793 or 35% of total expenditures. For comparative purposes a five year table is presented on page 7.35.

## EXPENDITURE BY MAJOR CLASSIFICATION

Expenditure is usually greater towards the end of the year because many construction contracts which are let in the early part of the year do not come up for payment until some months later and deficits sustained by Crown corporations and losses incurred in the operation of various agencies and accounts are not known until the end of the year. Also, under section 30 of the Financial Administration Act, for thirty days after March 31, payments properly applicable to the old year may be made and charged to that year's accounts. Table 7.4 presents a summary of expenditure by month for 1976-77.

The larger payment to the provinces was due to equalization payments under the Federal-Provincial Fiscal Arrangements Act.

Expenditure under Public Works and Transport were \$834 million or 42% for the first six months compared with \$1,162

million or 58% for the remainder of the fiscal year. This was due mainly to construction contracts coming due for payment late in the year and to payments by the Department of Transport in December to the railways for revenues foregone by maintaining existing freight rates in 1976 and in the supplementary period in respect of the Canadian National Railways.

Some of the large items in the all other expenditure are (a) charges in the supplementary period of \$268 million to cover the 1976-77 net operating loss of the Agricultural Stabilization Board and (b) charges in respect of total payments for the fiscal year of \$2,030 million under the Hospital Insurance and Diagnostic Services Act, \$933 million for the development and utilization of manpower, \$989 million under the Canada Assistance Plan and \$649 million in post-secondary education payments.

## EXPENDITURE BY STANDARD OBJECT

The Budgetary Expenditure amounts have been coded to reflect the thirteen Standard Objects constituting the current expenditure coding system generally in use throughout the Government of Canada. The titles of the thirteen Standard Objects and a description of the contents of each are given below:

## 1. Personnel

The amounts included in this Standard Object are displayed under two titles:

*Salaries and Wages*

Includes salaries and wages, overtime and other special pay of all civilian continuing (full-time) or term (part-time, seasonal and casual) employees except those of agency and proprietary Crown Corporations. It also includes Judges' salaries, those of the Governor General and Lieutenant-Governors and the indemnities to Members of both Houses of Parliament.

The pay and all types of allowances (except travel allowances included in "Travelling and Removal Expenses" below) paid to members of the Defence Forces and the Royal Canadian Mounted Police, including subsistence allowances and other perquisites common to such Services, are coded to Object 1 and shown as separate line entries in the Estimates Details.

*Other Personnel Costs*

Includes all types of allowances paid to or in respect of continuing and term employees, such as Living, Terminable, Foreign Service, Isolated Post, and board and subsistence allowances, shift differential allowances, mileage and boot allowances to Post Office staff, allowances for assistants, and other such allowances. Also includes Minister's Motor Car Allowances, and the Expense Allowances to Senators and Members of the House of Commons.

Also included in this Group are the Government's contribution to the Public Service Superannuation Account, the Supplementary Retirement Benefits Account, the Canada Pension Plan Account, the Quebec Pension Plan, the Royal Canadian Mounted Police Superannuation Account, the Canadian Forces Superannuation Account and the Members of Parliament Retiring Allowances Account; the Government's contribution to the Public Service and Regular Forces Death Benefit Accounts, and the Government's contribution as an employer, to the Unemployment Insurance Fund.

## 2. Transportation and Communications

Includes travelling and transportation expenses of Government Employees, Members of the Defence Forces and the Royal Canadian Mounted Police, removal expenses of those persons and their dependents, and living and other expenses of such persons on travel status; Judges' travelling expenses, and travelling expenses and allowances payable to Senators and Members of the House of Commons. It also includes transportation of persons by contract and chartered facilities or by other means (automobile mileage, aeroplane fares, local transportation, etc.), including travelling expenses of persons engaged in field survey work, inspections and investigations. Also includes travelling and transportation of other than Government employees such as travel costs of veterans who are applicants for treatment or pensions.

Includes ordinary postage, air mail, registered mail, special delivery mail, post office box rentals, and any other postal charges.

Also includes the cost of transportation of goods other than initial delivery cost on a purchase (which is included in the Object covering the cost of the purchase itself).

Includes all costs of communication services by telephone, telegram, cable, teletype, radio and wireless communication (tolls, rates, rentals, etc.) and other communication costs such as courier services provided by outside agencies and communication services performed under contract or agreement.

## 3. Information

This Object contains two main categories of costs:

### *Departmental Publications*

Includes provision for the publication of Departmental Reports and other material, including information and educational bulletins and pamphlets; publications on scientific and technical matters, natural resources, statistics and other such material; Hansard and other Parliamentary papers; maps, charts, etc. The costs of printing, binding, engraving, lithographing, artwork, mats, writers' fees, and other costs attributable to specific publication projects and programs are included hereunder, with the exception of those belonging under Object 1. The costs of publications and material produced wholly within a Service are distributed to the appropriate objects.

### *Advertising*

Includes provision for advertising for publicity and general purposes, including advertising for tenders (except that charges directly arising from specific construction projects or purchases are included under such headings.) It includes publication of proclamations, announcements, notices, etc., and various forms of educational and informational publicity, by broadcasting, posters, press and other means.

## 4. Professional and Special Services

Includes provision for all services performed by individuals or organizations outside the particular program such as: payments in the nature of fees, commissions, etc. for legal services, and for the services of architects, engineers, analysts, accountants, reporters, translators, doctors and nurses; payments for hospital treatment and care of veterans; payments for the provision of service by computer service bureau; and other outside technical, professional and other expert assistance; payments for the production of films, including total net provision for the operation of the National Film Board; payments for agents on a fee or commission basis, payments to church organizations for Indian education, payments of tuition for Indians at non-federal schools, payments for Corps of Commissionaires services; purchase of training services under the Adult Occupational Training Program and laundry, dry cleaning and other business services. It includes armoured car service and other operational and maintenance services performed under contract other than those more properly classified under other Items, such as repair and upkeep projects performed under contract, which are included in Object 6.

## 5. Rentals

Includes provision for rentals of all kinds: rental of properties required for special purposes by the various Departments and for the accommodation of Government Offices and Services by the Department of Public Works; hire and charter—with or without crew—of vessels, aircraft, motor vehicles and other equipment; and rental of office equipment including computers. Storage and warehousing services is however in Object 4 even though it involves the rental of space.

## 6. Purchased Repair and Upkeep

Provision is made in this Object for the repair and upkeep under contract of the types of durable physical assets provided for in Object 8 below and of equipment provided for in Object 9 below. Materials, supplies and other charges entering into the cost of such repairs undertaken by a Department directly are coded to other Objects, according to the nature of the purchase.

## 7. Utilities, Materials and Supplies

Included here is the provision for all payments for services of a type normally provided by a Municipality, or Public Utility Service such as the supply of water, electricity, gas, etc., and includes water, light, power and gas services, school fees, and payments for such services whether obtained from the Municipality or elsewhere.

It also includes provisions for materials and supplies required for normal operational and maintenance of Government services such as gasoline and oil purchased in bulk; fuel for ships, planes, transport, heating, etc.; feed for livestock; food and other supplies for ships and other establishments; livestock purchased for ultimate consumption or resale; seed for farming operations; food, clothing and other supplies for sick and indigent Indians; text books and school supplies purchased for Indian schools; books and other publications purchased for outside distribution; uniforms and kits; photographs, maps and charts purchased for administrative and operational purposes; laboratory and scientific supplies, including samples for testing; drafting, blueprinting and artists' supplies; supplies for surveys, investigations, etc.; chemicals; hospital, surgical and medical supplies; mail bags for transportation of the mails; char service supplies; coal and wood; electrical supplies; repair

parts other than parts normally acquired with equipment at the time of purchase and all other materials and supplies.

Office machines and equipment, and attachments and accessories for such machines—costing less than \$150 are included here. Those costing more than \$150 are included in Object 9.

#### **8. Construction and Acquisition of Land, Buildings and Equipment**

Includes provision for all expenditures pursuant to contracts for new construction of buildings, roads, irrigation works, canals, airports, wharfs, bridges and other such types of fixed assets, and reconstruction of such types of assets, improvements involving additions or changes of a structural nature, and also the installed cost of fixed equipment which is essentially a part of the work or structure such as elevators, heating and ventilating equipment, etc. It includes all such projects performed under contract or agreement. The purchase of land is also included. The cost of casual employees hired for specific projects of continuing employees assigned to work full or part time on such projects, and of materials purchased directly for use on such projects is, however, charged to Object 1 or Object 7.

#### **9. Construction and Acquisition of Machinery and Equipment**

Includes provision for all machinery, equipment, office furniture and furnishings, including office machines and appliances, typewriters, adding machines, calculators, recording machines, tabulating machines, microfilming equipment and supplies, inter-office communication equipment, postal meter machines, machine records and all other office equipment; motor vehicles, aeroplanes, tractors road equipment, laboratory and other scientific equipment, vessels, icebreakers and other aids to navigation and all other types of light and heavy equipment; includes ammunition and various types of equipment for National Defence, such as ships, aircraft, mechanical equipment, fighting vehicles, weapons, engines and such spare parts as are normally acquired with that equipment at the time of purchase.

#### **10. Transfer Payments**

This Object comprises all transfer payments including grants and contributions, that is payments other than those made for goods or services.

It includes the major welfare payments, such as Medicare, Hospital Insurance, Family Allowances, veterans' pensions and allowances; subsidies and payments to the Provinces under the Federal-Provincial Fiscal Arrangements Act and other statutes; subsidies to industry; research grants and other assistance towards research carried on by non-governmental organizations; scholarships; sustaining grants to many national organizations, such as the Federated Women's Institutes of Canada; contributions to international organizations and assessments for membership in such organizations, such as the contribution

to the International Food Aid Program and Canada's assessment for membership in the UN; and the total budgetary payments to the Canada Council.

Most of the payments in this Object are identified in the Estimates Details as "Grants" or "Contributions". The former are not subject to audit and are therefore restricted by Parliament as to amount and recipient and often as to purpose; the latter are subject to audit and are not so restricted.

#### **11. Public Debt Charges**

Includes interest on the unmatured debt of Canada (including Treasury Bills) and on other liabilities such as trust and other special funds. It also includes cost of issuing new loans, annual amortization of bond discount, premiums and commissions, and the costs of servicing the Public Debt.

#### **12. All Other Expenditures**

Includes provision for operating deficits and payments to crown corporations and special accounts as well as minor residual items of the kind often referred to as "Sundries". These include such costs as loss of personal effects, bonding of Government employees, and small miscellaneous articles and services. It includes licences, permits and payments for dockage, towage, wharfage and mooring privileges; works of art for exhibits, and historical material for galleries, museums and archives. Also included is provision for many small items and services detailed throughout the Estimates which do not lend themselves to distribution under the specific headings detailed in this summary.

#### **13. Less—Receipts and Revenues Credited to the Vote**

Revenues credited to the vote, expenditures recoverable from other departments and certain expected lapses are coded to this Object.

#### **1976-77 Expenditures by Standard Object**

In Table 7.5 a comparative summary of budgetary expenditure by standard object is presented for the years 1976-77 and 1975-76.

Grants, contributions and other transfer payments were again the largest category and accounted for \$21,920 million or 55% of the total budgetary expenditure. Payments included fiscal transfer payments to provinces \$3,356 million, payments under the Hospital Insurance and Diagnostic Services Act \$2,030, million family allowances payments \$1,980 million, guaranteed income payments \$1,017 million, spouses allowance payments \$101 million, old age security payments \$3,319 million, Canada Assistance Plan payments \$989 million and post-secondary education payments \$649 million.

Salaries and wages accounted for \$5,695 million or 15% of total expenditure. The increase of \$784 million was due mainly to higher salary rates.

Public debt charges totalled \$4,721 million or 12% of the total. The increase of \$766 million was due to an increase in unmatured debt and to higher interest rates.

## Administration

To provide overall policy direction, administrative support and economic advisory services for all departmental programs.

## Research

To increase the efficiency and productivity of Canadian agriculture.

The total cost of \$96 million included \$32 million for support services, \$22 million for crop research, \$1 million for general biology, \$11 million for animal research and \$7 million for soil research.

## Production and marketing

To assist agricultural producers in realizing from the market a fair return for management capital and labour.

Outlays of \$387 million included \$19 million for production, \$18 million for marketing and \$340 million for farm income maintenance of which \$268 million was paid through the Agricultural Stabilization Board.

## Health of animals

To safeguard the health of Canadian livestock and ensure wholesomeness of meat food products for domestic and export trade.

The program total of \$69 million included \$30 million for meat inspection, \$28 million for animal contagious diseases and \$9 million for animal pathology.

## Canadian Grain Commission

To achieve maximum acceptability of Canadian grain in domestic and export markets, in the interests of Canadian agriculture.

Expenditures of \$26 million included \$8 million for grain inspection, \$4 million for grain weighing and \$8 million in respect of Canadian government elevators.

## Canadian Dairy Commission

To achieve a sound, healthy and viable dairy industry.

## Canadian Livestock Feed Board

To ensure the availability of adequate feed grain supplies and storage space to meet the needs of livestock feeders in Eastern Canada and British Columbia and to contribute to reasonable price stability for such supplies; to assist in equalizing feed grain prices to livestock feeders in Eastern Canada and in British Columbia.

Expenditures consisted mainly of freight assistance and grain storage costs on western feed grains shipped to Eastern Canada and British Columbia.

## Farm Credit Corporation

To provide long-term mortgage credit to farmers and loans to syndicates of farmers and to perform operational and administrative functions related to the organization of Cana-

dian agriculture into economic farm units in the hands of competent operators.

The Farm Credit Act provides that the objects and purposes of the corporation are to make and to administer and supervise farm loans as provided in the Act.

During the year a net operating loss of \$2 million was charged to budgetary expenditure under parliamentary authority.

### Financial and economic policies

To assist the government in deciding upon and implementing financial and other economic policies and measures that will best accomplish its major economic and other objectives.

### Municipal grants

Provision of grants to municipalities in lieu of taxes on federal government property.

### Public debt

The provision of funds for the interest and amortization costs of the public debt; servicing costs of the public debt and the cost of issuing new loans.

Public debt charges consist of interest on public debt, discounts and commissions on bonds and Treasury bills, cost of issuing new loans and other costs.

The increase of \$602 million in interest on unmatured debt reflected an increase in unmatured debt which rose from \$37,697 million at March 31, 1976 to \$42,519 million at March 31, 1977 and an increase in interest rates. The average interest rate on the unmatured debt decreased from 7.84% at

March 31, 1976 to 7.53% at March 31, 1977. The increase in interest on other liabilities was due mainly to increases of \$141 million in respect of the superannuation accounts.

*Contracting-out payments*

The Federal-Provincial Fiscal Revision Act 1964, provides that where the federal savings exceeds the federal revenue abatement of a province providing schooling allowances after April 1, 1964, for the taxation year in a fiscal year, the Minister of Finance may pay to that province, out of the Consolidated Revenue Fund, the amount equal to the excess, or if the federal revenue abatement exceeds the federal savings, the amount of the excess may be deducted from any payment to that province under the Federal-Provincial Fiscal Arrangements Act, or under any subsequent Act substituted therefor, or may be otherwise recovered as a debt due to Canada by a province. The abatement for the taxation year 1976 and the revised abatement for the taxation year 1975 in respect of the Province of Quebec exceeded the federal savings by \$130 million which has been recovered from payments to the province under the Federal-Provincial Fiscal Arrangements Act.

In addition to the above payments, \$4,456 million in provincial income taxes collected by the federal government on behalf of the provinces was credited to the provincial tax collection agreements account in 1976-77 under the terms of the Federal-Provincial Fiscal Arrangements Act for allocation to the provinces compared with \$4,104 million in 1975-76. A more detailed explanation of these arrangements is given under Deposit and Trust Accounts in section 10.

A summary of payments, by provinces, during 1976-77 is given in Table 7.17.

*Anti-Dumping Tribunal*

To determine whether dumping of goods causes material injury to Canadian industry.

*Winter capital projects fund*

The provision of funds for the purpose of creating employment, through loans to provinces and municipalities to encourage capital spending.

*Auditor General*

To report to the House of Commons on the examination of the accounts and the financial statements of the Government of Canada, and to the appropriate bodies in respect of certain international and other organizations.

*Insurance*

To protect the public against financial loss from the operations of federally registered or licensed financial institutions and registered pension plans and to provide actuarial services for the government and other government departments.

*Tariff Board*

To adjudicate upon appeals from customs and excise rulings made by the Department of National Revenue and to conduct studies of the customs tariff structure as directed by the Minister of Finance.

Family allowance payments, as defined in the Family Allowances Act 1973, are payable in respect of all children under 18 years of age who are dependant on their parents. They are paid only to residents of Canada or persons outside of Canada when that parent or child is temporarily absent or when a Canadian family is stationed abroad and subject to Canadian income tax. The allowance must be declared as income for tax purposes by the parent who claims the child as a tax exemption. The rate of allowances paid can be decided upon by the provinces within certain limits. However, the provinces may vary the rate to be paid on the basis of the child's age or size of a family or any combination of both. The limits are that the rate cannot be less than \$14.33 per child and the average rate per month paid on behalf of all children within a province cannot exceed \$23.89.

The number of families and number of children in receipt of family allowance payments in the month of March and the total payments in each of the fiscal years ended March 31, 1973 to 1977, inclusive, are shown in table 7.30.

The Canada Assistance Plan Act authorizes the government to enter into agreements with the provinces for sharing the costs of assistance provided by the provinces, territories and municipalities to persons in need and welfare services provided to persons in need or likely to be in need, including the costs of food, shelter, clothing, fuel and utilities, essential household supplies, expenses incidental to a trade, care in a home for special care, travel and transportation, funerals and burials, health care services, prescribed welfare services including rehabilitation, and comfort allowances. The rate of the federal contribution is 50% of the shareable costs; the rates for assistance granted and the specific conditions of eligibility applied are determined by the provinces and their municipalities and take into account the budgetary requirements as well as the income and resources of the applicants. Contributions under this plan have replaced certain contributions which formerly had been made under the Old Age Assistance Act, the Disabled Persons Act, the Blind Persons Act and the Unemployment Assistance Act.

Under federal-provincial agreement, the Province of Quebec has opted out of a major portion of this program.

Post Office

To provide postal services to the people of Canada at reasonable rates and at a standard of service adequate to meet their needs without incurring subsidization from general taxation.

Gross expenditures of the Post Office were \$1,254 million. However, as authorized by the Post Office Act, remuneration of postmasters and staffs at revenue and semi-staff offices and certain other disbursements are paid from revenue. These payments amounted to \$103 million. A reconciliation statement is given at the end of this section.

Also Post Office Vote 1, authorized that revenue arising from services thereunder be credited thereto. This revenue amounted to \$48 million, consequently net expenditures were \$1,103 million.

As net post office receipts totalled \$615 million as shown in the revenue section of this report and net expenditures totalled \$1,103 million there was a net operating deficit of \$488 million.

However, it is to be noted that Post Office expenditures do not reflect any charges for premises occupied by the Post Office or for certain accounting and miscellaneous services provided by other departments, nor does Post Office revenue reflect any receipts from the franking privilege covering parliamentary and departmental mail or other miscellaneous services provided for other departments and agencies. The services provided free by other departments were valued at \$99 million and those provided free by the Post Office were valued at \$8 million.

## NON-BUDGETARY TRANSACTIONS

(excluding unmatured debt transactions)

Non-budgetary transactions are those which increase or decrease the government's asset and liability accounts and do not enter into the calculation of the annual budgetary surplus or deficit. The discussion of non-budgetary transactions in this section excludes unmatured debt transactions as well as changes in the cash position, which are given in Section 9. The related balances of asset and liability accounts at the beginning and end of the fiscal year and the effect of non-budgetary transactions during the year are examined in Section 10.

Both assets and liabilities are influenced by non-budgetary transactions. The transactions described in this section which influence assets consist mainly of loans and advances to and repayments by Crown corporations and other government

agencies, national, provincial and municipal bodies, and other borrowers. Those leading to changes in liabilities relate to social security accounts, other annuity, insurance and pension accounts and deposit and trust accounts held or administered by the government. The receipts and payments through the main categories of non-budgetary accounts, in 1976-77 and 1975-76 other than those for unmatured debt and cash, are summarized in Table 8.1.

The total of non-budgetary receipts and other credits in 1976-77 rose by 15% to \$29,157 million. Non-budgetary payments and other charges increased by 9% to \$28,256 million. As a result, non-budgetary transactions provided a net amount of \$901 million in 1976-77 compared to a usage of \$567 million in 1975-76. Table 8.1 shows that there was a decrease of \$627 million in the net funds required to finance loans, investments and advances, an increase of \$189 million in net funds provided by annuity, insurance and pension accounts.

### Loans to and investments in Crown corporations

In 1976-77, the total of loans and investments to Crown corporations increased by \$2,115 million. Advances decreased from \$3,444 million in 1975-76 to \$3,125 million in 1976-77.

Lending institutions received \$2,186 million or 72% of the loans to Crown corporations and agencies. This pattern of lending and investments in 1976-77 was very similar to that in 1975-76 when the same four corporations received 70% of all loans to and investments in Crown corporations. The amounts lent to or invested in individual corporations are shown in Table 8.2.

*Central Mortgage and Housing Corporation*

The objectives of Central Mortgage and Housing Corporation are "to promote the construction of new houses, the repair and modernization of existing houses, and the improvement of housing and living conditions in Canada". To fulfil these objectives, the Corporation borrows large sums of money from the Government and relends these sums to borrowers engaged in housing activities.

The greater part of the Corporation's borrowing is to obtain funds for direct lending for home-ownership and rental housing, including loans to limited dividend companies to finance low-rental housing projects and loans for public housing projects. Its borrowing for these purposes is authorized by the National Housing Act, 1954, as amended.

The Corporation also borrowed in 1976-77 to finance municipal sewage treatment projects, university housing, federal-provincial housing projects and urban renewal. After deducting repayments the Corporation's borrowing to finance such projects decreased from \$1,057 million in 1975-76 to \$837 million in 1976-77.

*Export Development Corporation*

The Export Development Corporation borrows under the Export Development Act. In 1976-77 its gross borrowing of \$309 million was a decrease of \$117 million over 1975-76. After deducting repayments the Corporation's borrowing in 1976-77 was \$202 million, or \$155 million less than its net borrowing of \$357 million in 1975-76.

### *Farm Credit Corporation*

The Farm Credit Corporation borrows to make loans to farmers and farm machinery syndicates. In 1976-77 it borrowed \$361 million. Its repayments totaled \$84 million.

### *Federal Business Development Bank*

The Federal Business Development Bank promotes and assists the establishment and development of business enterprises in Canada by providing financial assistance, management counselling, management training information and advice. During the year the government loaned the bank \$301 million and invested \$19 million in its capital stock.

### *Air Canada*

In 1976-77, Air Canada borrowed \$12 million under the annual Financing and Guarantee Acts to finance capital expenditures for the acquisition of aircraft, engines, spare parts, other equipment and buildings.

### *Atomic Energy of Canada Limited*

Atomic Energy of Canada Limited borrows to finance nuclear power stations and transmission lines. In 1976-77, it borrowed \$215 million compared to \$281 million in 1975-76.

### *Canadian National Railways*

Under the Refunding Act, 1955, the Canadian National Railways may borrow from the government to finance its refunding of maturing debts; and under the Financing and Guarantee Acts it may borrow from the government to finance capital expenditures.

Under the terms of Section 6(1) of the Canadian National Railways Capital Revision Act, 1952, as extended to the annual Financing and Guarantee Acts, the government may invest in the 4% preferred stock of the company. During 1976-77 the government invested \$70 million in such stock.

The Canadian National Railways also obtains interim financing to cover its operating deficits.

### *Petro-Canada*

Petro-Canada's objectives are (a) to engage in exploration for and the development of hydrocarbons and other types of

fuel or energy; (b) to engage in research and development projects relating to fuel and energy resources; (c) to import, produce, transport, distribute, refine and market hydrocarbons of all descriptions; (d) to produce, distribute, transport and market other fuels and energy; and (e) to engage or invest in ventures or enterprises related to the exploration, production, importation, distribution, refining and marketing of fuel, energy and related resources.

During 1976-77 the government invested \$180 million in common shares and \$77 million in preferred shares of the Corporation.

### *Other Crown Corporations*

Loans to and investments in other Crown corporations were relatively small in 1976-77. Their total before repayment was \$332 million, of which the major items were \$119 million to the Canadian Dairy Commission and a transfer of uranium concentrates, valued at \$101 million, to Uranium Canada Limited.

## **Loans to Provincial and Territorial Governments**

Loans to these governments, are shown in Table 8.3. The total of these loans rose by 9% from \$277 million in 1975-76 to \$303 million in 1976-77.

### *Loans to Provinces*

Loans to provinces increased by \$24 million to \$295 million in 1976-77. The largest items were loans of \$73 million to Saskatchewan and \$63 million to Manitoba for special areas assistance loans. Miscellaneous advances of \$71 million were made to various provinces through payments in excess of amounts credited to the provincial tax collection agreements account.

### *Loans to Territories*

Loans to the Northwest and Yukon Territories increased from \$6 million in 1975-76 to \$8 million in 1976-77. These loans are used to finance capital expenditures and provide mortgage loans for housing.

## Loans to National Governments, including Developing Countries

The greater part of all sums advanced to national governments consists of special loan assistance to developing countries for economic, educational and technical projects. In 1976-77 such loan assistance amounted to \$184 million, a decrease of \$83 million over 1975-76. During the year the Government of Jamaica received a loan of \$25 million for economic assistance.

The remaining transactions with national governments were repayments of \$15 million of loans made to Belgium, France and the Netherlands under the Export Credits Insurance Act.

The amounts lent to or repaid by national governments are shown in Table 8.4

## Other Loans, Investments and Advances

Loans and investments to individuals, businesses and other bodies in Canada are shown in Table 8.5.

### Veterans' Land Act Fund

The Veterans' Land Act Fund records advances made under the Veterans' Land Act, for the acquisition, by the Director, of properties, buildings, materials, livestock, farm equipment and commercial fishing equipment for purposes of the Act, for sale to qualified veterans of World War 2 and Korea, under sales

agreements which carry specified conditional benefits if the terms of such agreements are adhered to by the veterans, and for progress payments to veterans during construction of housing. During 1976-77 advances amounted to \$18 million and repayments were \$53 million, resulting in a balance of \$505 million at March 31, 1977. In 1975-76 comparable amounts were advanced of \$34 million and repayments of \$52 million bringing the balance to \$541 million at March 31, 1976.

Partly offsetting these advances is the reserve for conditional benefits which consists of amounts charged to budgetary expenditure, beginning with the fiscal year 1945-46, to cover 1/10 of the amount of conditional benefits included in sales to veterans and credited to this account. As and when conditional benefits are earned the amounts are charged to the reserve and credited to the advances. During the year \$5 million was charged to the reserve account and additional reserves of \$2 million were credited thereto, resulting in a balance of \$29 million in the reserve account at March 31, 1977. During 1975-76 charges were \$4 million and credits were \$4 million resulting in a balance of \$33 million at March 31, 1976.

### Municipal Development and Loan Board Advances

Under the Municipal Development and Loan Act, advances were made to the Municipal Development and Loan Board to enable it to lend to municipalities for the augmentation or acceleration of municipal capital work programs. These advances are now being repaid. Repayments in 1976-77 were \$11 million.

## Annuity, Insurance and Pension Accounts

Table 8.6 summarizes the transactions of the social security accounts, the superannuation accounts, the government annuities account and a number of smaller insurance and pensions accounts.

## Social Security Accounts

The two social security accounts included under this heading are the Canada Pension Plan and Unemployment Insurance. A summary of their transactions is shown in Table 8.7.

The Canada Pension Plan had a net amount available for investment of \$1,587 million used to acquire \$1,489 million of provincial bonds, \$11 million of bonds of the Government of Canada and increased its deposit with the Receiver General by \$87 million. The Unemployment Insurance Account had an excess of \$201 million of receipts and other credits over payments and other charges. Disbursements include repayment of \$70 million interest-bearing advances and \$320 million of non-interest-bearing advances.

### Canada Pension Plan

The Canada Pension Plan was established by an Act which was proclaimed in May 5, 1965. The Plan is financed by

contributions of 1.8% of income on earnings of employees, with matching contributions by their employers, and by contributions of 3.6% of the income of self-employed persons, (subject to a maximum payment of \$151.20); it also receives investment income. Contributions are payable by employees and self-employed persons earning over \$800 per year.

Contributions to the Plan rose by 13% to \$1,684 million in 1976-77, compared with \$1,489 million in 1975-76. The investment income of the Plan rose by 21% from \$621 million in 1975-76 to \$750 million in 1976-77. The rise in investment income was mainly a result of the increased investments.

The benefits payable under the Canada Pension Plan are retirement pensions, survivors' benefits payable to widows, disabled widowers and to orphans or as a lump sum death benefit, and disability pensions. Retirement pensions were payable at their full rate January 1, 1976, i.e., ten years after the Plan first received contributions. Partly because of this change and partly because of increases in the number of pensioners, pensions and other benefits payable by the Plan increased from \$588 million in 1975-76 to \$833 million in 1976-77.

The pensions, other benefits and expenses of the Plan are, as yet, still small in relation to receipts. As a result, the Plan had \$1,507 million in 1975-76 and \$1,587 million in 1976-77 available for investment. The greater part of these sums was invested in bonds issued by the provincial governments to the

Canada Pension Plan Investment Fund because the legislation governing the Plan provides that funds not required for benefits and expenses in the following three-month period are to be made available as loans to provincial governments and shared by them in the same proportions as their residents contribute to the Plan. Any sums not borrowed by the provinces are invested in bonds of Canada. Placements were \$1,489 million of provincial bonds and \$11 million of bonds of the Government of Canada were purchased for the Canada Pension Plan Investment Fund in 1976-77 compared with \$1,431 million and \$10 million respectively in 1975-76. The remaining balances of \$66 million in 1975-76 and \$87 million in 1976-77 were placed on deposit with the Receiver General.

### Unemployment Insurance

The Unemployment Insurance Act, 1955, as amended, provided for a compulsory contributory unemployment insurance program applying to everyone employed under a contract of service subject to certain exceptions. The main exceptions were members of the Armed Forces and of the federal, provincial and local government services and persons earning over \$7,800 per annum.

The Unemployment Insurance Act, 1971, which was assented June 23, 1971, replaced the former Act. Under the new

Act, those main exceptions noted above have been removed and all employment in Canada (with minor exceptions) is insurable effective from January 2, 1972.

The new Act also authorized the establishment in the accounts of Canada of an account to be known as the Unemployment Insurance Account and that the balance of the amount standing to the credit of the Unemployment Insurance Fund under the former Act on June 27, 1971, together with interest accrued thereon to that day, be credited thereto.

The Act also provides that all amounts received under the Act as or on account of premiums, fines, penalties, interest and repayment of overpayments of benefits, and all amounts collected by the Commission for services rendered to other government departments or agencies or the public, shall be paid into the Consolidated Revenue Fund and shall be credited to the Unemployment Insurance Account; that any other amounts provided out of the Consolidated Revenue Fund for any purpose related to unemployment insurance that is authorized by an appropriation by Parliament and the administration of which falls to the Commission shall be credited to the Unemployment Insurance Account; that the Minister of Finance may authorize, in accordance with such terms and conditions and at such rates as he may prescribe, the payment of interest on the balance in the Unemployment Insurance Account, and such interest shall be credited to the account;

Receipts in 1976-77 with comparable amounts for 1975-76 shown in brackets totalled \$4,222 million (\$3,756 million) and included contributions of \$4,211 million (\$2,939 million) and other income of \$11 million (\$1 million).

Disbursements in 1976-77 totalled \$4,021 million of which \$212 million were administrative costs. In 1975-76 disbursements were \$3,823 million and administrative costs were \$178 million.

Maximum weekly contributions were \$3.30 in 1976 and 1977 depending upon the contributor's income. For the same periods, maximum weekly benefits were \$133.00 and \$147.00 depending upon the level of average weekly contributions and the circumstances of the recipient.

Temporary advances of \$390 million were reimbursed in 1976-77.

#### Canadian Forces Superannuation Account

The balance of \$7,006 million reflects an increase of \$549 million during the fiscal year.

Receipts of \$739 million include \$63 million in contributions by personnel, \$114 million in contributions by the government, \$265 million in interest and an actuarial liability adjustment of \$296 million arising from salary increases. Government contri-

butions are made at the rate of 1 4/5 times the current and prior service contributions by personnel.

#### Royal Canadian Mounted Police Superannuation Account

The balance of \$576 million in this account is \$89 million higher than the balance at March 31, 1976.

Receipts of \$94 million during the year include contributions of \$15 million by personnel, the government's contribution of \$26 million, an actuarial liability adjustment of \$33 million arising from salary increases, and interest of \$20 million.

Disbursements of \$5 million consist mainly of annuities and allowances.

In 1975-76 receipts were \$98 million and disbursements were \$5 million.

#### Public Service Superannuation Account

The balance of \$8,148 million in this account is \$836 million higher than at March 31, 1976. Receipts of \$1,116 million include employees contributions of \$248 million, the government's contribution of \$204 million, interest of \$297 million, and \$348 million arising from salary increases. Contributions by the government and Crown corporations are equal to the estimated current and prior service payments by individuals in 1975-76.

Disbursements of \$280 million include \$220 million in pensions and retiring allowances and \$25 million in cash termination allowances and return of contributions.

In 1975-76 receipts were \$1,104 million and disbursements were \$212 million.

#### *Unamortized portions of actuarial deficiencies*

These accounts record the unamortized portions of the actuarial deficiencies in the Canadian Forces superannuation account, the Public Service superannuation account and the Royal Canadian Mounted Police superannuation account. Actuarial valuations are made quinquennially, the next of which will be made effective December 31, 1975 for the Canadian Forces superannuation account, December 31, 1977 for the Public Service superannuation account and December 31, 1974 for the Royal Canadian Mounted Police superannuation account. Any actuarial deficiency revealed will be credited to the superannuation account and charged to unamortized portions of actuarial deficiencies and amortized to budgetary expenditure in five equal annual instalments commencing in the year in which the report is laid before Parliament. The cost of benefits payable under the superannuation acts as a result of the authorization of salary increases is credited to the superannuation accounts and charged to the unamortized portions of actuarial deficiencies and amortized to budgetary expenditure over a period of five years commencing in the year in which the increases are authorized.

Amendments to the superannuation regulations provided for the calculation of interest at a revised rate (related to the Canada Pension Plan interest rate) commencing with the quarter ended September 30, 1969. The Act provides that the amount by which the interest calculated at the revised rate exceeds the amount of interest calculated at the rate used in the latest actuarial report may be used to reduce the amortization of actuarial deficiencies in budgetary expenditures.

The unamortized portion of the actuarial deficiency in the Canadian Forces superannuation account was \$811 million compared with \$915 million at March 31, 1976. During the year \$296 million was charged thereto as salary increases and \$401 million was amortized as a charge to budgetary expenditure, to which \$203 million of interest on public debt was credited.

The unamortized portion of the actuarial deficiency in the Public Service superannuation account was \$841 million compared with \$847 million at March 31, 1976. During the year, \$348 million was charged thereto as salary increases and \$354 million was amortized as a charge to budgetary expenditure, to which \$227 million of interest on public debt was credited.

The unamortized portion of the actuarial deficiency in the Royal Canadian Mounted Police superannuation account was \$71 million compared with \$68 million at March 31, 1976. During the year \$33 million was charged thereto as salary increases and \$30 million was amortized as a charge to budgetary expenditure, to which \$15 million of interest on public debt was credited.

#### *Government Annuities Account*

Receipts of interest and premiums in the government annuities account were \$84 million and \$8 million respectively in 1976-77 as compared with \$84 million and \$4 million in 1975-76. Disbursements in 1975-76 of \$98 million and in 1976-77 of \$93 million were for matured annuity, commuted value, death benefit, premium refunds and premium withdrawal payments.

#### *Other Insurance and Pension Accounts*

There are a number of other insurance and pension accounts operated by the Government of Canada. Transactions on behalf of the public service death benefit account, the regular forces death benefit account and the veterans insurance fund account for the greater part of all transactions by these accounts.

The total receipts of these accounts were \$110 million in 1975-76 and \$143 million in 1976-77 while payments increased from \$35 million to \$43 million in the same period.

#### **Other Non-Budgetary Transactions**

The major accounts in which other non-budgetary transactions are recorded are cash in transit, interest and matured debt, accounts payable and accrued salaries, outstanding cheques, warrants and money orders, provincial tax collection agreements, deposit and trust and internal accounts.

Interest and matured debt not paid at March 31, 1977 amounted to \$3,598 million, a net increase of \$696 million over the balance at March 31, 1976.

Accounts payable are cheques issued in April in respect of transactions undertaken during the previous year. In April 1977 these amounted to \$1,708 million compared with \$1,085 million in April 1976.

Outstanding cheques warrants and money orders are Canadian cheques issued on or before March 31 of the fiscal year and outstanding at that date. Transactions in 1976-77, resulted in a decrease of \$361 million bringing the balance at the end of the year to \$1,389 million.

The provincial tax collection agreements account records transactions arising from federal-provincial tax collection agreements. During 1976-77 the Government of Canada collected \$4,456 million of provincial income taxes on behalf of provincial governments of which \$3,874 million were personal income tax and \$582 million were corporation income tax. In the same period, payments to the provinces of \$4,577 million were \$121 million more than receipts, resulting in overpayments of \$71 million classified as loans to provinces. These receipts and payments were substantially higher than in 1975-76 when \$4,105 million of income taxes were collected on behalf of provincial governments and \$4,039 million were paid to them.

The remaining non-budgetary transactions are shown in Table 8.9.

## FOREIGN EXCHANGE TRANSACTIONS

### Exchange Fund Account and International Monetary Fund

Foreign exchange reserve transactions, shown in Table 8.10, consist of advances to the Exchange Fund to enable it to acquire gold, securities or foreign currency, repayments of such advances by the Exchange Fund and transactions with the International Monetary Fund including subscriptions to its capital, the receipt and disposal of Special Drawing Rights (SDRs) and the issue and redemption of non-interest-bearing notes. These transactions are undertaken either to finance increases in the official international reserves of Canada or to convert these reserves into Canada dollars. While the Receiver General's deposits in foreign currency are included in Canada's official international reserves, the transactions influencing these deposits are excluded because they are mainly payments abroad for goods, services, pensions, interest and similar items and not transactions which involved conversion between Canadian dollar assets and those foreign currency assets included in Canada's official international reserves.<sup>(1)</sup>

In 1976-77, advances to the Exchange Fund were \$12,314 million, repayments were \$13,851 million, leaving a net decrease in advances of \$1,537 million during the year. Transactions with the International Monetary Fund included a revaluation adjustment of \$110 million to the Fund due to an appreciation of the Canadian dollar to April 30, 1976. Capital subscriptions are set in SDR units of account so that, when the Canadian dollar depreciates, additional Canadian dollars must be supplied to the Fund and when the Canadian dollar appreciates the converse applies.

This subscription is Canada's quota in the International Monetary Fund. In this organization, members' quotas are set in SDR units of account and are normally paid in gold (25%) and the remainder (75%) in the member's currency. If the fund does not require a currency, a portion of a member's quota may be paid in the form of non-interest-bearing notes

payable on demand. These notes are recorded in the government's liabilities.

Non-interest-bearing notes resulted in a net decrease of \$364 million due mainly to other countries' dealings in Canadian dollars with the Fund.

There was no allocation of Special Drawing Rights by the International Monetary Fund to Canada during the year leaving the recorded value of SDRs in the government's books at \$370 million at March 31, 1977. These SDRs were, in turn, advanced to the Exchange Fund.

The transactions just described are those through which the Government of Canada financed additions to Canada's official international reserves, other than the Receiver General's working balances in foreign currency, in 1976-77. The change in the Receiver General's foreign currency deposits was relatively small when compared with the transactions just described. Subject to this exception, the net effect of these transactions was to decrease advances of the Government of Canada by \$1,283 million in 1976-77 as compared with a net decrease of \$23 million in 1975-76.

### Other Foreign Transactions

Canada's subscriptions, loans and advances to other international organizations totalled \$267 million in 1976-77 an increase of \$108 million over 1975-76.

In 1976-77 the non-interest-bearing notes payable to the International Development Bank, Asian Development Bank and Inter-American Development Bank, increased by \$106 million. The unmatured debt payable in foreign currency decreased by \$2 million in 1976-77.

<sup>(1)</sup> The Bank of Canada's holdings of convertible foreign currencies are also included in Canada's official international reserves but are excluded from this section because they are financed by the Bank and are therefore not included in the accounts of the Government of Canada.

## FINANCING OPERATIONS OF THE GOVERNMENT

In 1976-77, the Government of Canada issued \$30,457 million of new bonds and Treasury bills and retired \$25,635 million. In addition, it acquired a net amount of \$12 million of its own securities. These operations provided \$4,810 million as compared with \$4,595 million in 1975-76 to finance operations of the government and to increase its cash balances.

As shown in Table 9.1, there were net sales of \$2,265 million in marketable bonds, \$1,760 million in Treasury bills, and \$10 million in other non-marketable bonds.

Canada savings bonds issues were \$2,210 million and retirements \$1,423 million, a net increase of \$787 million.

Discount on marketable bonds issued in 1976-77 is \$22 million as compared to \$21 million in 1975-76. Discount on Treasury bills was \$642 million compared to \$494 million for 1975-76.

**Marketable bonds**

As shown in Table 9.2, six times during the year the government issued bonds payable in Canadian dollars. The proceeds were used partly to redeem maturing debt. The table

also shows a definite decrease in interest rates on the new issues.

For bonds payable in currencies other than Canadian dollars, all operations during the year were retirements.

### Treasury bills

As shown in Table 9.3, total Treasury bills issued during the year totalled \$23,395 million and redemptions were \$21,635 million resulting in \$1,760 million of new borrowing.

Three month bills with issues of \$17,895 million and redemptions of \$16,945 million increased by \$950 million. Six month bills with issues of \$4,600 million and redemptions of \$3,990 million increased by \$610 million. Other bills with issues of \$900 million and redemptions of \$700 million

increased by \$200 million. Three month and six month bills are issued weekly, while other bills are issued periodically, usually for periods of one year or less.

Interest rates on three-month bills declined from 9.07% on April 2, 1976 to 7.58% on March 25, 1977, on six-month bills from 9.18% on April 2, 1976, to 7.55% on March 25, 1977 and on other bills from 8.85% on May 7, 1976 to 7.56% on February 4, 1977.

### Non-marketable bonds

The issues in non-marketable bonds were \$2,210 million for Canada savings bonds, \$10 million for other non-marketable bonds and retirements of \$1,423 million for Canada savings bonds, resulting in a net increase of \$797 million.

Canada savings bonds which are non-callable but redeemable on demand at face value plus accrued interest increased by \$787 million during the year bringing the balance outstand-

ing at March 31, 1977 to \$16,304 million. Gross sales of series 31 were \$2,210 million and additional sales of series 30 were \$39 million. Redemptions prior to maturity of series 17 to 31 totalled \$1,423 million. In 1975-76 sales were \$3,719 million and redemptions were \$1,117 million resulting in a net increase of \$2,602 million.

Canada Pension Plan bonds purchased by the federal government during the year were \$10 million. There were no redemptions.

## THE PUBLIC DEBT

The public debt of Canada consists of all liabilities which appear on the government's Statement of Assets and Liabilities. In addition the government has certain indirect or contingent obligations such as the guarantee of securities of the Canadian National Railways, insured loans made by approved lending institutions under the National Housing Act and deposits maintained by the chartered banks in the Bank of Canada.

The gross debt of Canada, or the total of liabilities as recorded on the Statement of Assets and Liabilities, was \$67,075 million at March 31, 1977 compared with \$59,802 million at March 31, 1976, \$7,273 million higher. There were net increases of \$4,810 million in unmatured debt, \$1,777 million in annuity, insurance and pension account balances and \$1,000 million in other liability accounts. Unmatured debt in the amount of \$42,358 million was 63% and annuity, insurance and pension accounts in the amount of \$16,161 million were 24% of total liabilities. At March 31, 1976 unmatured debt was \$37,548 million or 63% and annuity, insurance and pension accounts were \$14,384 million or 24% of total liabilities.

**Net recorded assets**

At March 31, 1977 the government's net recorded assets totalled \$37,489 million, \$983 million higher than they were at March 31, 1976. The main changes were increases of \$2,288 million in loans, investments and advances and decreases of \$1,382 million in Foreign assets, and \$637 million in internal accounts.

Loans, investments and advances totalled \$25,425 million or 68% of which loans to Crown corporations and agencies accounted for \$20,238 million. Foreign assets totalled \$5,574 million or 15% and internal accounts were \$2,601 million or 7% of the total. At March 31, 1976 loans, investments and advances totalled \$23,137 million or 62% of which loans to Crown corporations and agencies accounted for \$18,123 million. Foreign assets totalled \$6,956 million or 19% and internal accounts were \$3,238 million or 9% of the total.

**Net debt**

The net debt of Canada is represented by the excess of recorded liabilities over net recorded assets.

As recorded liabilities increased by \$7,273 million during 1976-77 and net recorded assets increased by \$983 million, net debt increased by \$6,290 million. The net debt at March 31, 1977 was \$29,586 million compared with \$23,296 million at March 31, 1976. The increase was the result of the budgetary deficit of \$6,290 million.

The net debt in per capita terms and as a percentage of the gross national product is shown in the following table. The net debt per capita was \$790 at March 31, 1973 compared with \$1,273 at March 31, 1977. Expressed as a percentage of gross national product, the net debt which was 16.7% at March 31, 1973 was 15.6% at March 31, 1977.

### Interest rates

The average interest rate on the government's unmatured debt was 7.53% at March 31, 1977. At March 31, 1976 it was 7.84%.

The following table sets out the unmatured debt at March 31, for each of the years 1972-73 to 1976-77 inclusively, with the average rate of interest thereon. For purposes of comparison the unmatured debt is classified as to marketable bonds,

non-marketable bonds (which includes Canada savings bonds) and Treasury bills.

The average rate on marketable bonds was 6.27% at March 31, 1977 compared with 6.64% at March 31, 1976 and for Treasury bills was 8.01% compared with 8.69%.

Interest rates on new issues of marketable bonds varied from a low of 7.50% to a high of 10% during the year.

### Indirect debt or contingent liabilities

In addition to the direct debt set out in the Statement of Assets and Liabilities, the government has assumed certain indirect or contingent obligations. Details are shown in Section 10 of this volume.

## THE CASH POSITION OF THE GOVERNMENT

The government's cash account represents balances of current and special deposits to the credit of the Receiver General for Canada in the Bank of Canada, chartered banks in Canada and certain banks in London, New York, Brussels, Bonn, Frankfurt and Rome.

The cash position of the government is affected not only by budgetary operations but also by unmatured debt, non-budgetary and foreign exchange operations. Non-budgetary and foreign exchange operations affect the government's asset and liability accounts and must be taken into account when considering the full scope of the government's financial operations.

On the asset side, non-budgetary and foreign exchange operations consist, for the most part, of loans and advances to, and repayment by Crown corporations and agencies, provincial, national and municipal governments, international organizations and other borrowers.

On the liability side, they relate mainly to receipts and payments in annuity, insurance and pension accounts and in deposit and trust accounts and other liabilities.

During 1976-77 total cash receipts from all government transactions totalled \$90,219 million and total cash payments were \$89,674 million, bringing the total balances in Receiver General bank accounts to \$3,597 million at March 31, 1977.

Of this balance \$3,581 million was on deposit in Canada and \$16 million in foreign countries.

Non-budgetary payments and other charges totalled \$28,256 million in 1976-77 and included \$5,842 million for loans, investments and advances, \$7,874 million for annuity, insurance and pension accounts, \$4,506 million under provincial tax collection agreements, \$2,013 million for internal accounts and \$8,021 million for sundry other accounts.

Foreign exchange payments and other charges totalled \$13,012 million of which \$12,314 million were repayments of advances from the Exchange Fund.

Non-budgetary receipts and other credits totalled \$29,157 million of which \$3,554 million were for loans, investments and advances, \$9,651 million for annuity, insurance and pension accounts, \$4,456 million for the provincial tax collection agreements account, \$2,594 million for internal accounts and \$8,902 million for sundry other accounts.

Foreign exchange receipts and other credits totalled \$14,134 million of which \$13,851 million represented advances to the Exchange Fund.

Details of these operations are given in Section 8 of this volume.

As is shown in Table 9.9, operations in unmatured debt furnished a net amount of \$4,812 million of which \$4,267 million was used for cash requirements. The remainder, \$545 million, increased the government's available cash to \$3,597 million at March 31, 1977.

Table 9.10 shows monthly cash balances of Canadian dollar deposits for the latest five years and Table 9.11 shows the foreign cash balances (converted to Canadian dollars) for the same period.

During 1976-77 Canadian cash balances rose from a low of \$1,829 million at September 30, 1976 to a high of \$4,365 million at February 28, 1977. Foreign balances rose from a low of \$8 million at May 31, 1976 to a high of \$21 million at January 31, 1977.

The implication of the level of government cash balances at any given time can be misinterpreted because of the wide fluctuations throughout the year, as is illustrated in the following table. Furthermore, because many cheques are issued at month end and are not redeemed until the following month and the bulk of receipts are not received until later, cash balances may drop in the early days of a month by as much as \$125 to \$300 million.

## ASSET AND LIABILITY ACCOUNTS

The Statement of the Assets and Liabilities of Canada, as certified by the Auditor General, is presented in Section 3 of this volume and shows the balance of each of the principal classifications of accounts at March 31, 1977, the corresponding balance at March 31, 1976, and the increase or decrease during the year. A general description of each category of asset and liability account as it appears on the Statement of Assets and Liabilities can be found in this section. In addition, the detailed schedules of these accounts with their supporting notes are presented in this section. A description of the structure and more significant features of the Statement of Assets and Liabilities is given in Section 1 of this volume.

### Definition of assets and liabilities

In the Study of the Accounts of Canada, assets are defined as "the financial claims acquired by the Government of Canada on outside organizations and individuals as a result of events and transactions prior to the accounting date" and liabilities are defined as "its financial obligations to outside organizations and individuals as a result of events and transactions prior to the accounting date".

These definitions exclude the "Internal accounts" reported on the Statement of Assets and Liabilities which accounts will continue to be reported until parliamentary authority to delete them has been obtained.

## Summary

The net recorded assets totalled \$37,489 million at March 31, 1977, an increase of \$983 million over the total of \$36,506 million at March 31, 1976. The main changes were increases of \$2,288 million in loans, investments and advances, and decreases of \$1,382 million in foreign assets and \$637 million in internal accounts.

The gross liabilities of the government totalled \$67,075 million at March 31, 1977, an increase of \$7,273 million over the total of \$59,802 million at March 31, 1976. The main changes were increases of \$4,812 million in the unmatured debt payable in Canadian currency and \$1,580 million in net superannuation accounts.

The excess of recorded liabilities over net recorded assets was \$29,586 million at March 31, 1977 compared with \$23,296 million at March 31, 1976. The increase of \$6,290 million reflected the budgetary deficit for the year.

A summarized statement of the assets and liabilities of the Government of Canada as at March 31, 1977, with comparative figures as at March 31, 1976, and the net increase or decrease during the year, is presented in Table 10.1.

Further details may be found in Section 8 "Non-budgetary and foreign exchange transactions" and Section 9 "Financing operations of the government, the public debt and the cash position" as well as in the schedules of the Statement of Assets and Liabilities and explanatory notes thereto in this section.

## GENERAL DESCRIPTION OF ASSET AND LIABILITY CATEGORIES

### *Crown corporations and agencies*

Loans to, and investments in, Crown corporations represent the government's outstanding advances to Crown corporations for working capital, capital expenditure and other purposes, investment in the capital of corporations and advances to corporations for relending. Where applicable, the uncollected interest capitalized has been deducted from accounts.

The government equity in Crown corporations as recorded in the Accounts of Canada as at March 31, 1977, together with the unrecorded government equity in the surpluses (less deficits), reserves of the Crown corporations at their respective years ended coincident with, or immediately prior to, the year ended March 31, 1977, is shown in this section.

### *Provincial and territorial governments*

This account records the loans to provinces made under relief acts and other legislation. Where applicable, the uncollected interest capitalized has been deducted from the loans. The loans are classified by departments within each province.

### *National governments including developing countries*

Loans to national governments consist mainly of the loan to the Government of the United Kingdom under the authority of the United Kingdom Financial Agreement Act, 1946, loans to foreign countries under the Export Credits Insurance Act for purchase of goods and services in Canada and special loan assistance in developing countries. Where applicable, the uncollected interest capitalized has been deducted from the loans.

### *Unemployment Insurance Account—Interest-bearing advances*

This account represents any temporary loans as a result of deficiencies in contributions from employers and employees.

### *Municipal Development and Loan Board—Advances*

This account records loans made to provinces and municipalities under the Municipal Development and Loan Act, under which advances were made to the Municipal Development and Loan Board to provide financial assistance by way of loans to augment or accelerate municipal capital works programs.

### *Veterans' Land Act Fund advances—Less allowance for conditional benefits*

The fund is for the purpose of loans to qualified veterans of World War 2 and Korea under sales agreements which carry specified conditional benefits if the terms of such agreements are adhered to by the veterans.

The account records, under parts I and III of the Veterans' Land Act, the cost of the acquisition of land, permanent improvements, removal of encumbrances, purchase of stock and equipment and protection of security. Under part II, it records the purchase, subdivision and development of land and for progress payments to veterans during construction and completion of unfinished houses after termination of the contract.

### *Government controlled corporations*

This account records loans to government controlled corporations. The terms and conditions of these loans are governed by the Governor in Council or an appropriation act. For the purposes of this account a

government controlled corporation is a business corporation in which the Government of Canada has sufficient equity to have a controlling interest. This category excludes Crown corporations.

### *Private sector enterprises*

This account records loans to private sector enterprises outside the entity of the Government of Canada.

### *Inactive loans*

This group includes a loan to China and a loan to Greece which are not currently revenue-producing or realizable. From time to time a repayment may be made.

### *Miscellaneous*

This account records advances to employees and other types of loans which were previously classified under working capital advances. It also records loans not classified elsewhere. Where applicable the uncollected interest capitalized has been deducted from loans.

### *Exchange Fund Account*

This account includes advances to the Exchange Fund for the purchase of gold, foreign currency and securities (including Special Drawing Rights (SDR's) in the International Monetary Fund).

It also includes the recorded value of SDR's "allocated" to Canada by the International Monetary Fund as a supplementary line of credit to existing foreign exchange reserves (in the latter case, the potential liability for the use of this line of credit is shown as a liability under the heading "Special Drawing Rights").

### *Subscriptions, loans and advances—International Monetary Fund*

This account represents the recorded value of Canadian quota subscription as a member of the International Monetary Fund. It is contributed by a payment in gold (equal to 25% of the quota), a cash working balance in Canadian currency of at least 1% of the quota with the balance being covered by Canadian dollar non-interest-bearing notes payable on demand. These notes are carried as a liability of the Government of Canada.

### *Subscriptions, loans and advances—Other international organizations*

This category records Canada's subscription to the capital of the Asian Development Bank, the Caribbean Development Bank, the Inter-American Development Bank, the International Bank for Reconstruction and Development, the International Development Association, the International Finance Corporation and working capital advances and loans to international organizations.

### *Cash*

Cash represents balances of current and special deposits at credit of the Receiver General for Canada in banks in Canada, London, New York, Paris, Bonn, Brussels and Frankfurt.

### *Cash in transit*

This category represents cash in hands of collectors or in transit received by public officers on or before March 31 but not deposited to the credit of the Receiver General for Canada until after that date. It also includes money received after March 31 but applicable to current year.

### *Allowance for losses on realization of assets*

This reserve of \$546 million represents lump sum charges to budgetary expenditures during the period from 1941 to 1957, less amounts written off in the same period. Since 1957 there has been no change in the balance.

### *Fixed assets*

This account records at a nominal value of \$1 such fixed assets of the government as land, buildings, works, equipment, etc., which, in accordance with long standing practice, are charged to budgetary expenditure at the time of acquisition or construction.

### *Working capital advances to revolving funds, departments and agencies*

Departmental working capital advances represent an authorization by Parliament to draw from the Consolidated Revenue Fund monies not to exceed a maximum amount for prescribed purposes. The amount stated at year-end constitutes the advances outstanding.

### *Unemployment Insurance account*

This category includes the interest free loan advanced by the government due to the time lag before the Unemployment Insurance account is reimbursed for costs to be borne by the government. It also includes the administration cost and the benefits account of the Unemployment Insurance account as well as warrants outstanding at year-end.

### *Unamortized bond flotation costs*

This account consists of discounts, commissions, redemption and conversion premiums on loan flotations which remained to be charged to expenditure. Commencing in 1976-77 such costs are being charged to budgetary expenditures as incurred.

### *Excess of recorded liabilities over net recorded assets*

The excess of recorded liabilities over the net recorded assets includes the deficit since Confederation together with certain amounts which have been charged directly through to net debt.

### *Canada Pension Plan Account*

This category records the government's liability in respect of the Canada Pension Plan. The plan was established under legislation enacted in 1965. It is designed to provide an organized program for retirement pensions for members of the labour force. It also provides benefits to a disabled contributor as well as death benefits for his or her spouse and children. These liabilities do not reflect any obligation of the Government of Canada to discharge the unfunded actuarial liability of the plan.

### *Provincial Government Securities in the Canada Pension Plan Investment Fund*

This account represents funds of the Canada Pension Plan in excess of immediate requirements, which in accordance with the provisions of the Canada Pension Plan Act (1965) have been invested in securities issued or guaranteed by any Province (in approximate ratio of net contributions received from the contributions in each Province).

### *Superannuation accounts*

This category records the government's liability in respect to the Public Service superannuation account, the Canadian Forces superannuation account and the Royal Canadian Mounted Police superannuation account. The purposes of these accounts is to provide pensions to retired employees or their dependants.

### *Unamortized portions of actuarial deficiencies*

These accounts record the unamortized portions of the actuarial deficiencies in the Canadian Forces superannuation account, the

Public Service superannuation account and the Royal Canadian Mounted Police superannuation account which have been set up as deferred charges. Actuarial valuations are made quinquennially, the next of which will be made effective December 31, 1975 for the Canadian Forces superannuation account, December 31, 1977 for the Public Service superannuation account and December 31, 1974 for the Royal Canadian Mounted Police superannuation account. Any actuarial deficiency revealed at that time will be credited to the account and charged to unamortized portions of actuarial deficiencies and amortized to budgetary expenditure in five equal annual installments commencing in the fiscal year in which the report is laid before Parliament. Also, the cost for benefits payable under the superannuation acts as a result of the authorization of salary increases are to be credited to the superannuation accounts and charged to unamortized portions of actuarial deficiencies and amortized to budgetary expenditure over a period of five years commencing in the year in which the increase is authorized.

### *Government annuities*

This account represents all money received and not paid out from Government annuities account under the provisions of the Government Annuities Act, c. 132, R.S. plus interest and actuarial adjustment credited to the account.

### *Other*

This category records the government's liability as an insurer of certain persons and as administrator of certain pension funds that are not included in the previous three categories. The government receives premiums or similar assessments and in turn pays out specific benefits.

### *Interest and matured debt*

This group includes the following:

- (a) *Interest due and outstanding*  
Represents the amount of interest on bonded debt payable by coupons, which have not yet been presented for payment.
- (b) *Interest accrued*  
Represents the calculated liability for interest on the public debt from the last due date to the year-end.
- (c) *Matured debt outstanding*  
Represents the amount of matured bonds and other certificates of indebtedness issued by the Government of Canada that matured but have not been presented for redemption.
- (d) *Provision for compound and bonus interests on Canada savings bonds*  
This records the estimated amount of the prorated provision to March 31 for the special compound and bonus interests features applicable to certain Canada savings bonds.

### *Accounts payable and accrued salaries*

#### *Accounts payable*

Represents amounts owing at year-end for work performed, goods received, services rendered or pursuant to a contractual arrangement. In the Accounts of Canada, this term by convention has been restricted to mean the total amount of payments made in April which are applicable to the previous fiscal year as permitted by Section 30 of the Financial Administration Act.

#### *Accrued salaries*

The accrued salaries and wages of public service employees for the period immediately following the last pay period in the fiscal year to the end of the fiscal year.

*Outstanding cheques, warrants and money orders*

This is the balance of cheques in Canadian dollars issued and unpaid on March 31, with the exception of those outstanding for ten years or more which have been transferred to non-tax revenue.

Cheques in foreign currencies are credited at the time of issue to appropriate "Cash in Receiver General current deposits" accounts.

It also includes the following outstanding items:

- warrants for hog and lamb premiums
- post office money orders
- cheques settlement account—Bank of Canada
- letter of credit
- imprest account cheques
- Unemployment Insurance warrants

*Deposit and trust accounts*

The accounts in this category represent the government's liability for monies or securities deposited for purposes which fall into three broad classes. Those for which the government acts as a trustee by administering the funds for the purpose for which they were received or created, those deposited as security for specific performance of contracts, and unclaimed amounts of various types. The account also includes the Provincial Tax Agreement Accounts. To the extent that the funds are represented by securities, these are deducted from the specific Deposit and trust account to group together accounts of similar nature.

*Other*

This group includes miscellaneous liabilities of the Government of Canada. Examples are miscellaneous departmental payroll deductions, Olympic account, contractors' and other holdbacks and various departmental suspense accounts.

*Notes payable to the International Monetary Fund*

This account represents the portion of Canada's subscription in the International Monetary Fund which is not immediately needed in currency by the fund. These notes are payable on demand and subject to issue and redemption depending on the need of the International Monetary Fund for Canadian currency.

*Notes payable to other international organizations*

This account represents the portion of capital subscription authorized and accepted by the Government of Canada in international organizations as payable on demand, but which has not yet been called by these organizations. This account is accordingly reflected as a liability in the Statement of Assets and Liabilities. The investment by Canada is shown as an asset.

*Special Drawing Rights*

This account represents rights to purchase currency of other countries. They are granted by the International Monetary Fund to countries participating in the Special Drawing Account established under Articles Agreement of the International Monetary Fund as a supplement to existing foreign exchange reserves.

*Unmatured debt payable in foreign currency*

This account represents bonds payable in U.S. dollars. For reporting purposes, this account is also included in the account marketable bonds of the Statement of Assets and Liabilities. The account is then deducted to arrive at total unmatured debt payable in Canadian currency.

*Marketable bonds*

This account represents marketable bonds payable in Canadian and U.S. dollars. The securities held for the Securities Investment account and the investment held for the retirement of unmatured debt have been deducted to group items of similar nature under one account.

*Canada savings bonds*

This account shows the Canada savings bonds outstanding. Canada savings bonds held for employees are deducted for the purpose of grouping together accounts of similar nature.

*Special non-marketable bonds*

This account represents the unmatured debt of the Government of Canada payable to the Canada Pension Plan Investment Fund. The investment account is deducted from the unmatured debt to group similar accounts under one classification.

*Treasury bills*

Treasury bills are short term Government of Canada liabilities most of which are for thirteen weeks.

*Undisbursed balances of appropriations to special accounts*

This category records the undisbursed balances of appropriations to special accounts from which disbursements may be made for authorized purposes in subsequent years. They fall into two classes. The first consists of those cases where Parliament has appropriated monies for specific purposes such as Department of Agriculture reserve for wheat acreage reduction payments. The other class consists of accounts to which is credited, under parliamentary authority, monies arising from the sale of commodities, land and buildings, which are available for the purpose of replacing equipment as authorized by Section 11 of the National Defence Act and Vote 48.

No advances were made during the current fiscal year. During the year there was a repayment to the loan account of \$121,291 of which \$3,330 was in respect of capitalized interest and was credited to non-tax revenue—return on investments. The uncollected interest capitalized is applied against the loan account to arrive at the net total loans.

A-14 These accounts reflect the transactions in respect of advances made to the Canadian National Railways for debt redemption and capital expenditure purposes under various authorities.

The Financing and Guarantee Acts 1941 and 1942 authorized the Minister of Finance to make loans to the Canadian National Railways for the purpose of acquiring securities of the company on the open market. Under authority of various Orders in Council loans totalling \$6,670,748 were made in the current year.

Interest in the amount of \$89,018,293 was received and credited to non-tax revenue—return on investments.

A-15 Under the provisions of the Canadian National Railways Capital Revision Act, c. 311, R.S., as amended the Minister of Finance was authorized:

- (a) to release the company from certain claims of Her Majesty amounting to \$736,385,405 being 50% of the indebtedness of the company to Her Majesty and the public as at December 31, 1951, in exchange for preferred stock of the company;
- (b) to purchase from time to time, in the years 1952 to 1961 inclusive, out of the Consolidated Revenue Fund, preferred stock of the company to the total value not exceeding 3% of the gross revenue of the national company, to be used to meet expenditures for additions and betterments to the system;

With respect to (a) above, the principal amount of \$736,385,405 specified in schedule A of the Act was released in exchange for 736,385,405 shares of 4% preferred stock of the company.

With respect to (b) above the period was extended to December 31, 1971 by Section 14 of the Canadian National Railways Financing and Guarantee Act, 1969 and to December 31, 1973 by Section 13 of the Financing and Guarantee Act, 1973 and additional stock to the value of \$583,291,807 has been purchased.

During 1974-75 and 1975-76 stock to the value of \$120,468,941 was purchased under authority of Vote L66b, Appropriation Act No. 4, 1974 and Vote L70, Appropriation Act No. 3, 1975. In the year 1976-77 additional stock to the value of \$69,704,882 was purchased under authority of the following parliamentary appropriation:

**Vote L75** To authorize the Canadian National Railways to issue, and the Minister of Finance, to acquire, hold and subsequently dispose thereof 4% preferred stock of the Canadian National Railways in the same manner and for the same purposes as provided for in Sections 6 and 7 of the Canadian National Railways Capital Revision Act, 1952 and to authorize the Canadian National Railways

- (a) to make expenditures on equipment to the extent of twenty-five per cent of the cost of such equipment, and in respect of the balance of the cost thereof, make or arrange for one or more equipment issues, the aggregate cost of such equipment not to exceed in any event the sum of \$200,000,000, and
- (b) with the approval of the Governor in Council, to borrow money by the issue and sales of securities, bearing such rates of interest and subject to such other terms and conditions as the Governor in Council may approve, to provide amounts required for capital expenditures..... **\$ 70,700,000**

A-16 Under authority of Section 8 of the Canadian National Railways Capital Revision Act, c. 22, 1937, the balances then standing in Public Accounts in respect of: Canadian Government Railways—Open accounts, Canadian Government Railways—Stores accounts, and the Saint John and Quebec Railway—Open and stores accounts were adjusted as prescribed in the Act and the residue was consolidated under the title of "Canadian Government Railways working capital".

The balance in this account is carried against the Canadian National Railways without interest as representing a fair approximation of the amount of Canadian National Railways working capital utilized for Canadian Government Railways purposes.

## SCHEDULE J

### Cash balances

- J-1 Cash in Receiver General current deposits represents the total of the balances at credit of the Receiver General in banks in Canada and other countries in Belgian francs, Canadian dollars, French francs, United Kingdom sterling, United States dollars and West German marks.
- J-2 This is a non-interest-bearing special deposit in connection with the financing of certain foreign service offices through letters of credit.
- J-3 These special deposits consist of balances in the hands of fiscal agents of the government for the purchase or redemption of government securities and for the payment of interest.
- J-4 This account is to record moneys received by public officers prior to the close of business on March 31 but not recorded in current cash accounts until after that date.
- J-5 This represents the cash in hands of postmasters and in transit at the close of business on March 31, 1977.
- J-6 Collections received after March 31, and generally up to May 31st, which are applicable to the fiscal year ending on that date are recorded in this account.

This account intends to accommodate refunds of old year expenditure received prior to the closing of the accounts, and receipts to be credited to asset, liability and (in exceptional cases) revenue accounts where the omission of the credits in the old year would tend to make the accounting incomplete or inconsistent.

## SCHEDULE L

### Working capital advances to revolving funds, departments and agencies

- L-1 This account was authorized by Vote 55g, Appropriation Act (2) No. 4, 1952, Vote 762, Appropriation Act No. 3, 1953, Vote 783, Appropriation Act No. 5, 1955 and Vote L6a, Appropriation Act No. 4, 1970 for the purpose of financing the production of new and improved varieties of seeds, the acquisition, maintenance and development for experimental purposes of livestock, poultry and eggs, including administrative expenses of all authorized projects. The amount that may be advanced to the account at any one time is not to exceed \$1,820,000.

Gross debits during the year were \$871,550 and gross credits were \$997,658.

- L-2 Section 10(1) of the Agricultural Stabilization Act 1957-58, (2) c. 22, s. 1, R.S., c. A-9 as amended, provides that the Agricultural Stabilization Board may (a) purchase any agricultural commodity at the prescribed price; (b) pay to producers of an agricultural commodity, directly or through such agent as the board determines, the amount by which the prescribed price exceeds a price determined by the board to be the average price at which the commodity is sold in such markets and during such periods as the board considers appropriate; (c) make such payments for the benefit of producers as the Governor in Council may authorize for the purpose of stabilizing the price of an agricultural commodity at the prescribed price; and (d) sell or otherwise dispose of, package, process, store, ship, transport, export, insure or otherwise deal in any commodity purchased by the board.

Section 13 of the Act provides authority to establish in the Consolidated Revenue Fund an account to be known as the

agricultural commodities stabilization account, to credit this account with all moneys received by the board from its operations and to make expenditures out of the Consolidated Revenue Fund under this Act, other than administrative expenses, provided that the debit balance in the account shall not be greater than \$250,000,000.

Section 13(7) directs that "at the end of each fiscal year the Minister of Finance shall determine the net profit or loss on the operation of the account for that fiscal year, and if he determines that there is a net profit it shall be charged to the account, but if he determines that there is a net loss, no amount shall be credited to the account in respect thereof without the authority of Parliament"

During the year, gross debits amounted to \$261,866,488 and gross credits also totalled \$261,866,488.

- L-3 Section 4(1) of the Agricultural Products Board Act 1951 (2) (2nd Session) c. 1, s. 1, R.S., c. A-5, provides that the board may, with the authority of the Governor in Council: (a) sell or deliver agricultural products to the government of any country or any agency thereof; (b) purchase or negotiate contracts for the purchase of agricultural products on behalf of the government of any country or any agency thereof; (c) buy, sell or import agricultural products; and (d) store, transport or process, or enter into contracts for the storing, transportation or processing, of agricultural products. Section 5 of the Act provides authority to establish in the Consolidated Revenue Fund an account to be known as the agricultural products board account in which all financial transactions of the board under Section 4(1) of the Act are recorded. The authority was extended by Vote 15b, Appropriation Act No. 1, 1974 which increased from \$15,000,000 to \$50,000,000 the amount by which a payment made under Sub-section 5(3) of the Agricultural Products Board Act may exceed the balance of the Agricultural Products Board Account.

During the year, gross debits amounted to \$2,089,860 and gross credits also totalled \$2,828,229.

- L-4 This account is operated pursuant to the provisions of Sub-sections 1 and 2 of Section 13, Canada Grain Act 1970-71, whereby an accountable advance not exceeding \$500,000 may be made out of the unappropriated moneys in the Consolidated Revenue Fund to the Canadian Grain Commission for working capital in respect of any elevator operation of the Commission. PC 1976-519 authorized the use of this advance for the purpose of financing weigh-over deficits at Canadian Government elevators and to sell or dispose of overages resulting from weigh-overs at Canadian Government elevators.

During the year, gross debits amounted to \$233,161 and gross credits also totalled \$233,161.

- L-5 This account was established by Vote L1b, Appropriation (2) Act No. 1, 1970 and Vote L18b, Appropriation Act No. 2, 1972 to authorize the operation of a race track supervision revolving fund in the current and subsequent fiscal years in accordance with terms and conditions prescribed by the Treasury Board for the purpose of providing race track supervision in Canada, to which shall be charged all administration expenses of such supervision and to which shall be credited all moneys received through the pari-mutuel levy under Section 178 of the Criminal Code, the outstanding amount at any time under this authority not to exceed \$200,000.

This authority was extended by Vote L26d, Appropriation Act No. 1, 1975, to include as a charge to the fund the costs

In the current year, gross debits amounted to \$62,071 and gross credits were \$9,524.

- P-99 Under the Federal-Provincial Fiscal Arrangements Act, 1961, the Government of Canada was empowered to enter into an agreement with the government of any province to collect provincial individual and corporation income taxes and to make payments to the provinces with respect to such taxes. The Government of Canada entered into agreements with nine provinces (Quebec excepted) to collect the provincial individual income tax and with eight provinces (Ontario and Quebec excepted) to collect the provincial corporation income tax, and to commence as of April 1, 1962, to pay in equal monthly instalments to each province the estimated revenue to be produced by the respective provincial taxes. Provincial taxes were applicable to individual and corporation income earned subsequent to December 31, 1962.

At the beginning of each fiscal year, the Minister of Finance will estimate (subject to revision at any time) the amount of the payment that in his opinion is due to the province in respect of the year ending in that fiscal year and will make payments to the province, on the basis of this estimate, in equal monthly instalments. Any adjustment will be made not later than March 31, of the fiscal year following that in which the taxation year ends.

During 1976-77, collections totalled \$4,455,138,999 and payments to provinces totalled \$4,577,276,748 resulting in a debit balance of \$122,137,749.

The balance of \$122,137,749 is further reduced to final debit balance of \$70,893,502 by the recovery of the overpayment that was reported in Schedule A-50 at the end of 1975-76. During 1976-77 overpayments occurred in the amount of \$70,893,501 and are reported in Schedule B of this report.

The provincial income taxes collected by the federal government over the last five years were as follows:

### SCHEDULE S—*Concluded*

An amount of \$104,705,476 was transferred to this account under authority of the vote for "International Development Assistance" of Canadian International Development Agency Vote 30.

During the fiscal year, expenditures amounted to \$147,936,161 resulting in an undisbursed balance of nil as at March 31, 1977, a decrease of \$43,230,684 from the balance outstanding at the end of the previous fiscal year.

S-2 Section 11 of the National Defence Act provides that the Governor in Council may authorize the Minister to deliver to any department or agency of the Government of Canada any material that has not been declared surplus and is not immediately required for the use of the Canadian Forces or the Defence Research Board or for any other purpose under this Act, for sale to such countries or international welfare organizations on such terms as the Governor in Council may determine. The proceeds of such sales are to be paid into a special account in the Consolidated Revenue Fund and, subject to the approval of the Governor in Council, shall be used for the procurement of material; and payments out of the special account shall be made by the Minister of Finance on the requisition of the Minister of National Defence.

Proceeds of such sales amounting to \$696,443 were credited to the account and this amount represents gross credits for the current fiscal year. Gross debits amounted to \$318,872.

S-3 This account was established in 1965-66 under authority of Department of National Defence Vote 48, Appropriation Act No. 1, 1965. It was authorized to be credited with: (a) all revenues received during the current and subsequent fiscal years from the sale of surplus materials, supplies and equipment and (b) revenues received during the current and subsequent fiscal years from the sale during the current year of surplus buildings, works and land not exceeding an aggregate amount of \$5,000,000. Appropriation Acts of 1966, 1967 and 1968 authorized receipts from sale of buildings, works and land in amounts not exceeding \$5,000,000 \$10,000,000 and \$10,000,000, respectively, to be credited to this account; Vote 48, Appropriation Act No. 3, 1969 authorized unlimited receipts be credited to this account. Expenditures during the current and subsequent fiscal years are subject to the approval of Treasury Board for any purposes of the Department of National Defence.

Gross credits to the account for the fiscal year were \$8,237,545 which includes revenues from the sale of surplus materials, supplies and equipment in the amount of \$4,070,319 and \$4,167,226 from the sale of surplus buildings, works and land of which \$2,480 is applicable to 1968-69, \$23,142 to 1969-70, \$32,814 to 1971-72, \$260,431 to 1972-73, \$10,863 to 1973-74 and \$3,837,496 to 1976-77. Gross debits for the fiscal year were \$4,850,000.

S-4 Section 12(1) of the National Library Act provides for a special account in the Consolidated Revenue Fund called the National Library Purchase Account to which any money appropriated by Parliament in any fiscal year for the purpose of acquiring books for the National Library is to be credited and from which expenditures may be made in that or any subsequent fiscal year for the acquisition of books, including any cost in connection therewith. In 1976-77, an amount of \$650,000 provided through Secretary of State Vote 80 was credited thereto.

During the current fiscal year, gross debits amounted to \$812,278 and gross credits were \$723,855.

S-5 Section 10(3) of the National Museums Act provides for an account in the Consolidated Revenue Fund called the National Museums special account, to which shall be credited all moneys appropriated by Parliament for the Corporation for the acquisition or publication and the sale to the public of books, pamphlets, replicas and other materials related to its purposes and all moneys received by the Corporation from the sale to the public of such items.

Amounts of \$2,537,740 were credited to the account with expenditures amounting to \$2,641,572.

S-6 This fund was established under authority of Section 18—Part III—of the Railway Relocation and Crossing Act assented to May 7, 1974 (formerly under Section 202 of the Railway Act, R.S., now repealed) which provides that "there shall be credited to the Fund and charged to the Consolidated Revenue Fund any amounts appropriated and set apart by Parliament to aid actual construction work for the protection, safety and convenience of the public in respect of railway crossings".

The monies credited to the Fund are to be applied by the Canadian Transport Commission solely toward the cost, not including the cost of maintenance and operation, of (a) work actually done for the protection, safety and convenience of the public in respect of existing railway crossings at rail level; (b) work actually done in respect of reconstruction and improvement of a grade separation that has been in existence for at least fifteen years prior to the making of any order by the Commission to apply an amount from the Fund for reconstruction or improvement of the grade separation; (c) placing on the sides of railway cars reflective markings of such size, design and colour as may be prescribed by the Commission; and (d) placing on locomotives revolving lights of such a size, design and colour as may be prescribed by the Commission.

The total amount that may be applied from the Fund toward the cost of placing reflective markings on the sides of railway cars or of placing revolving lights on locomotives shall not exceed 80% of the cost thereof as determined by the Commission.

The total amount that may be applied from the Fund toward the cost of work actually done in respect of any one railway crossing shall not exceed, (a) in the case of a railway crossing at grade level, the aggregate of 80% of the cost of the work, as determined by the Commission, or \$1,000,000, whichever is the lesser amount, exclusive of the cost of any relocation of a public utility plant that is part of the work, and, 80% of the cost of any relocation of a public utility plant that is part of the work; and (b) in the case of reconstruction or improvement of a grade separation, the aggregate of 50% of the cost of the work, as determined by the Commission, or \$625,000 whichever is the lesser amount, exclusive of the cost of any relocation of a public utility plant that is part of the work, and, 50% of the cost of any relocation of a public utility plant that is part of the work.

During the current fiscal year the fund was debited with expenditures amounting to \$27,216,599. Outstanding commitments as of March 31, 1977 amounted to \$38,800,654.

S-7 Section 16(1) of the National Capital Act established this fund and provided that the balance of the National Capital Fund established pursuant to Appropriation Act No. 4, 1947-48 be credited thereto. As at March 31, 1977, \$325,613,500 has been credited to the fund, including \$32,000,000 credited in the current year and charged to Department of Urban Affairs Vote 35.

Advances made to the Commission out of the fund to date were \$307,613,500 including \$21,000,000 in the current year, leaving a balance of \$18,000,000 at March 31, 1977.

Total government equity represents the loans, advances and proprietary equities as shown in the financial reports of Crown corporations at their respective year-end falling in the year ended March 31, 1977 plus adjustments for transactions with the corporations for their year-end dates to March 31, 1977.

Included in the unrecorded equity of the Government of Canada in Crown corporations are those amounts which, although designated by certain Crown corporations as proprietor's equity, have been financed by the Government of Canada and charged to government expenditure or to net debt and have been fully expended in the acquisition of the Crown corporations' capital assets.

Certain corporations are wholly-owned subsidiaries of, or are 50% owned by, other Crown corporations. The equity of the Government in these subordinate companies is reflected in this schedule.

(1) Included in the equity of Canadian National Railways is \$5,000,000 of Air Canada capital stock. Air Canada is a wholly owned subsidiary of Canadian National Railways.

(2) Includes premium on acquisition of capital stock of \$920,000.

(3) In 1976 the Canadian National Railways recorded a charge of \$807.8 million to shareholders' equity and a corresponding credit to accumulated depreciation on property investment. This charge reflected a change to depreciation accounting from replacement accounting for all assets not previously on this basis.

(4) Includes premium on acquisition of capital stock of \$1,660,797.

(5) Included in the equity of the St. Lawrence Seaway Authority is \$1,500 of capital stock of the Great Lakes Pilotage Authority Ltd. which is a wholly-owned subsidiary of St. Lawrence Seaway Authority.

(6) The government equity in Eldorado Nuclear Limited includes the equity in its wholly-owned subsidiary Eldorado Aviation Limited.

(7) Statements of the corporation were not received in time to be included in this schedule.

(8) As detailed in Schedule A of this section.

P C 1967—2207, November 23, 1967, authorized the remission of a certain part of customs duty and sales tax paid on machinery or equipment not available from Canadian producers for use in production of original motor parts:

International Harvester Company of Canada Limited, Hamilton, Ont .....	149,739
--	---------

Tariff item 41100—1 provides that in the case of the importation into Canada of any goods enumerated in the item, the Governor in Council, on the recommendation of the Minister of Industry, Trade and Commerce, may, whenever he considers that it is in the public interest and that the goods are not available from production in Canada, remit the duty speci-

fied in this item applicable to the goods. Remissions of duty are less the duty applicable to the first \$500.00 of value for duty in respect of each application. The following remissions were granted on the recommendation of the Minister of Industry, Trade and Commerce and the Treasury Board under the provisions of the tariff item, and represent customs duty on machinery and parts as described in the various remission orders and schedules thereto, the amounts shown representing that portion of the remission applicable to the machinery and parts imported during the period April 1, 1976 to March 31, 1977, inclusive:

TAXATION

Remissions of income tax:

Alibrando, Salvador ..... 3,796

PC 1976—7/1001, April 27, 1976, authorized the remission of \$3,796 income tax in respect of the 1969 and 1970 taxation years.

The above taxpayer and a partner were owners of a building and both were also shareholders in a company operating in the building. The latter company effected certain renovations to the said building and capitalized the expenses under leasehold improvements. The expenses were disallowed under re-assessment as they were considered to be related to the building rather than the restaurant and re-assessed as benefits to the shareholders. Capitalization of the amounts was allowed in the hands of the partners, owners of the building.

On appeal by the taxpayer's partner, the benefit was diminished. The taxpayer was not allowed to appeal as the 90 day period for the filing of Notices of Objection had expired. As consideration was not given to the taxpayer after the successful appeal of his partner, a remission has been granted for the 1969 and 1970 taxation years.

Bourret, Adélar ..... 1,361

PC 1976—4/2292, September 14, 1976, authorized the remission of \$1,361 income tax plus interest in respect of the 1973 taxation year.

In 1970, the above taxpayer was relieved of his duties as a manager of a garage for the Province of Quebec on the grounds of bad management. The Public Service Commission ruled that he was wrongfully dismissed but in the meantime he was forced to sell his house and borrow money.

The health of the taxpayer, a veteran wounded during the war, was seriously affected by his wrongful dismissal. When rehired in '74, he was only able to work on a part-time basis due to his health problem.

The Salary for the three year suspension, was paid in a lump sum in the amount of \$30,001 in the year 1973 and taxed in that year.

Because of hardship, a remission has been granted of the additional tax payable in the amount of \$1,188 income tax plus the interest payable. This additional tax is due to the amount being taxed in a single year rather than over the years 1970-1973.

Imp—Pac Lumber Limited ..... 55,218

PC 1976—2/1329, June 1, 1976, authorized the remission of \$57,218 income tax plus interest in respect of the 1973 and 1974 taxation years.

On July 28, 1972, the Department of Finance issued an advance information release in regard to the

fast write-off of certain machinery and equipment (class 29). On the basis of this release, the above company purchased certain Sawmill assets.

When the Income Tax Regulations were issued in early 1973, the Sawmill assets were excluded from class 29 without any sound basis for the amendment. Therefore a remission of the tax plus interest if any, that would not be payable if the Sawmill machinery and equipment were included in class 29, is recommended. The resulting benefit for the years 1973 and 1974 is \$50,979 income tax and \$6,239 interest.

Pioneer Fruit and Vegetable Company Limited..... 9,000

PC 1976—3/1329, June 1, 1976, authorized the remission of \$9,000 income tax.

In 1967, the above taxpayer made a valid election under section 105(2) of the former Income Tax Act on \$60,000 so that \$9,000 tax was paid and \$51,000 tax paid undistributed income was created. It was believed that undistributed income on hand was available but there was none then nor at the end of 1971.

Because under paragraph 89(1)(k) of the amended tax-paid undistributed surplus cannot exceed 1971 undistributed income on hand, the advantage of paying the \$9,000 tax was lost.

As the taxpayers' predicament was caused by amendments to the Act several years after the taxpayers' election, it was recommended that the tax of \$9,000 be remitted.

Scott—Bathgate Limited ..... 10,319

PC 1977—7/235, February 3, 1977, authorized the remission of \$10,319 income tax.

In late 1971, the taxpayer made a valid election under section 105(2) of the former Income Tax Act on \$100,000 so that \$15,000 tax was paid and its tax paid undistributed income was increased to \$1,015,179, which exceeded its 1971 Undistributed Income On Hand of \$956,703.

Because of the taxpayer's oversight in paying the excess of 15% tax caused mainly by the confusion resulting from law changes, a remission of \$10,319.26 was recommended.

Overland Western Limited  
Thibodeau Express Incorporated  
Board of Trustees of Central States,  
Southeast and Southwest Areas Pension Fund.

PC 1976—5/1255, May 25, 1976 authorized the remission of all potential taxes pertaining to this situation.

A situation arose, regarding the deductibility of contributions by Overland-Western Limited and Thibodeau Express Incorporated Canadian trucking companies operating between Canada and the US, on behalf of US employees to a US pension plan. The

plan has been registered subject to two rules, viz., that the plan only provide coverage to foreign nationals employed outside of Canada and that the pensions provided be no more beneficial than those that could be provided under a registered pension plan funded or insured in Canada.

Part XI of the *Income Tax Act* which concerns the acquisition of foreign property by trustees of registered pension plans is so worded that it would apply to the trustees of the above plan even though it is a foreign trust. As such it would likely have 100% foreign property and a prohibitive potential tax liability would exist even though in practice it would be very difficult to collect.

Since it was never intended that Part XI tax apply to foreign trusts, a remission was recommended of all such potential taxes payable by the trustees.

Whaley Royce & Company Limited..... 8,118

PC 1976—12/2045, August 5, 1976, authorized the remission of \$8,118 income tax.

In 1971, the above taxpayer made a valid election under Section 105(2) of the former Income Tax Act on \$106,368 so that \$15,955 tax was paid and \$90,413 tax—paid undistributed income was created.

A stock dividend of \$44,410 was paid in December 1971 and the company was in the process of issuing further preferred shares to use the balance of the tax—paid undistributed income. At January 1, 1972 the amended act came into effect and the advantage of paying \$8,118 was lost under paragraph 89(1)(k).

As the taxpayer's predicament was caused by amendments to the Act several years after the taxpayer's election, it was recommended that the tax of \$8,118 be remitted.

Lowy Jacob M.

PC 1976—8/3174, December 23, 1976 authorized the deduction of \$1,600,000 from the taxpayer's taxable income.

Upon transferring and assigning to Her Majesty as a gift the Jacob M. Lowy Collection of Hebrew Books, the taxpayer will be remitted in that year, the additional amount of income tax which would arise in the disposition of the property which is the said gift.

Over a period not exceeding ten years from the date of the gift, the total deduction of \$1,600,000 may be deducted from the taxpayer's income in such proportions as he may find convenient.

This remission will be effective upon the gift of the Jacob M. Lowy Collection to Her Majesty the Queen, in right of Canada.

Communications						
Travel Clerk .....	1975-76	22,200 (22,200)	22,200 (20,290)		(1,910)	Conversion of public funds for own use through the submission of false travel claims. The employee has been found guilty and sentenced to the Ontario Reformatory for a period not to exceed three months. Arrangements were made through the probationary officer for the accused to make restitution on a regular basis.
Environment						
Storeman .....	1975-76	1,500 (1,500)	1,500		(1,500)	Converting public funds to his own use by altering petty cash account invoices. Employee resigned and full amount of loss was recovered from superannuation contributions. Employee was charged by R.C.M.P. and received a one year suspended sentence.
Indian Affairs and Northern Development						
Band Financial Advisor .....	1975-76	9,903 (15,440)			9,903 (15,440)	Employee had diverted indirectly to his personal use Indian Band funds originally derived from or under the trusteeship of the government. Criminal Code charges have been laid and are currently before the courts. In the opinion of the Dept. of Justice only the amount herein reported can be construed to relate to the Account. Any recovery appears unlikely.

## 1. Significant accounting policies:

## a) Expenditure

Expenditure is recorded on a cash basis modified to include payments in April relating to work performed, goods received or services rendered prior to March 31, which basis is consistent with that used by departments of the Government of Canada.

## b) Services provided without charge

An estimated amount for services provided without charge by government departments is included in the statement.

## c) Fixed assets

Purchases of furniture and equipment are recorded as an administrative expense in the year of acquisition.

## d) Employee termination benefits

Termination benefits accrue to employees over their service period. Payments of these benefits are made to the employees on separation or retirement and are expensed by the Board when paid.

AUDITOR GENERAL OF CANADA

Ottawa, Ontario  
June 28, 1977THE CHAIRMAN AND MEMBERS  
AGRICULTURAL STABILIZATION BOARD  
OTTAWA, ONTARIO

I have examined the statement of expenditure of the Agricultural Stabilization Board for the year ended March 31, 1977. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, the statement of expenditure presents fairly the results of the Board for the year ended March 31, 1977 in accordance with the accounting policies set out in Note 1, applied on a basis consistent with that of the preceding year.

## NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1977

AUDITOR GENERAL OF CANADA

Ottawa, Ontario

June 28, 1977

## 1. Summary of significant accounting policies

## Accounting basis

Expenses are recorded on a cash basis modified to include payments in April relating to work performed, goods received or services rendered prior to March 31, which basis is consistent with that used by departments of the Government of Canada. All other accounts of the Board are maintained on an accrual basis.

An estimated amount for services provided without charge by government departments is included in the statement.

## Fixed assets

Purchases of furniture and equipment are recorded as an administrative expense in the year of acquisition.

## Inventory

Inventory is valued at lower of cost and net realizable value.

## 2. Inventory

Inventory at March 31, 1977 consisted of grape products. Due to the uncertainty of the market for some grape products, a provision of \$326,501 for anticipated loss has been recognized in the accounts.

## 3. Prior year's adjustment

The financial statements for the year ended March 31, 1976 have been restated to reflect a loss on the disposal of inventory of \$227,600 that had not been provided for in the accounts of that year.

THE CHAIRMAN AND MEMBERS,  
AGRICULTURAL PRODUCTS BOARD,  
OTTAWA, ONTARIO.

I have examined the balance sheet of the Agricultural Products Board as at March 31, 1977 and the statement of operations and deficit for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at March 31, 1977 and the results of its operations for the year then ended in accordance with the accounting policies set out in Note 1, applied on a basis consistent with that of the preceding year.

## NOTE TO FINANCIAL STATEMENTS MARCH 31, 1977

## 1. Authority and Purpose

The Agriculture Revolving Fund was authorized under Appropriation Act No. 4, 1970, for the purpose of financing the production of new and improved varieties of seeds, and the acquisition, maintenance and development for experimental purposes of livestock, poultry and eggs, including administrative expenses of authorized projects. On April 23, 1970, the Treasury Board designated the Agriculture Revolving Fund as a working capital advance. A significant portion of the cost of projects financed is provided for by appropriations from Parliament as a free service to the Fund.

The amount that can be advanced as working capital at any one time is limited to \$1,820,000. No interest is charged on outstanding advances.

NOTES TO FINANCIAL STATEMENTS  
MARCH 31, 1977

## 1. Authority

The Race Track Supervision Revolving Fund was authorized under Appropriation Act No. 1, 1970. Profit for the year is transferred to the Receiver General for Canada as non-tax revenue. Should a deficit be incurred, reimbursement would be contingent upon a parliamentary appropriation.

## 2. Fixed Assets

- Fixed assets acquired from parliamentary appropriations prior to April 1, 1970, are recorded in the Fund in accordance with Treasury Board Circular 1970-7, at a value determined as at that date by officers of the Department of Agriculture. Acquisitions subsequent to April 1, 1970 are recorded at cost.
- Depreciation is charged on a straight line basis using rates of 10% for furniture and equipment, 20% for desk-top computers and 33% for motor vehicles.

## 3. Advances from Canada

Advances are made by Canada to the Fund for the purchase of fixed assets and repayment is made each year equal to the depreciation taken on fixed assets in that year. Interest is paid at rates determined by the Minister of Finance.

## 4. Vacation Pay

No provision has been made in the accounts for vacation pay earned but not yet taken by employees, estimated at \$76,400 as at March 31, 1977 (\$58,000 at March 31, 1976). There will be no extra cost to the Fund when, in the normal course of operations, these vacations are taken in subsequent years and recorded as salaries and wages expenditure.

## 5. Termination Benefits

Termination benefits accrue to employees over their years of service with the Government of Canada. Employees leaving Government service generally receive termination benefits at the rate of one week's pay for each complete year of continuous service to a maximum of twenty-eight weeks' pay. However, upon resignation, benefits are generally payable only to those with ten or more years continuous service, and the entitlement is reduced to one-half week's pay for each year of continuous employment to a maximum of thirteen weeks' pay.

Revolving Fund employees, being part of the Public Service, earn termination benefits for their total years of continuous employment in the Fund and elsewhere in the Government. New employees hired from within the Government bring their entitlement with them while employees who leave the Fund for other Government employment take along their termination benefit entitlement.

The Fund records termination benefits when payments are made. No provision has been made for benefits accruing to employees, with an estimated value of \$107,900 as at March 31, 1977 (\$90,400 at March 31, 1976). This consists of one week's pay at current salary rates for each complete year of Government service up to and including March 31, 1977.

THE HONOURABLE EUGENE F. WHELAN, P.C., M.P.  
MINISTER OF AGRICULTURE

I have examined the balance sheet of the Race Track Supervision Revolving Fund as at March 31, 1977 and the statements of operations and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, except for the effect of failure to include a provision for vacation pay and termination benefits accruing to employees, as referred to in Notes 4 and 5 to the financial statements, these financial statements present fairly the financial position of the Fund as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED MARCH 31, 1977

## 1. Accounting Policies

## RECEIPTS

The revenue accounts of the Commission are maintained on a cash basis which is consistent with that used by departments of the Government of Canada. Receipts are credited to the Consolidated Revenue Fund.

## EXPENDITURES

Operating and capital expenditures of the Commission are charged to operations and recovered from parliamentary appropriations provided for that purpose. These expenditures are recorded on a cash basis modified to include payments in April relating to work performed, goods received or services rendered prior to March 31, in accordance with section 30 of the Financial Administration Act. Operating expenditures also include non-budgetary services of other Government departments for which there is no direct payment.

## 2. Change in Accounting Policy

The Commission made a change in accounting policy during the current year. The financial figures for 1976 have been restated to give retroactive effect to this change. The effect of such a change on the current year's financial statements is as follows:

## RECEIPTS

The change in accounting policy to a cash basis has resulted in \$1,467,120 of accrued revenues as at March 31, 1977, not being included in the financial statements. Similarly receipts of \$1,200,920 have been reported in the current year, although the revenue was recognized in prior years.

## 3. Statement of Transactions of Canadian Grain Commission Weigh-over Account

## 4. Comparative Figures

The presentation of the 1976 comparative figures has been modified to conform to the 1977 format.

Ottawa, Ontario  
July 20, 1977

THE CHIEF COMMISSIONER AND COMMISSIONERS  
CANADIAN GRAIN COMMISSION  
WINNIPEG, MANITOBA

I have examined the statement of receipts and expenditures of the Canadian Grain Commission for the year ended March 31, 1977. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the results of operations of the Commission for the year ended March 31, 1977 in accordance with the accounting policies set out in Note 1 applied, after giving retroactive effect to the change in accounting policy outlined in Note 2 to the financial statement, on a basis consistent with that of the preceding year.

J. J. MACDONELL  
Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED MARCH 31, 1977

## 1. Authorization and purpose

## a) Authorization

The Fund was authorized by Vote L20, Appropriation Act No. 5, 1963, to draw from the Consolidated Revenue Fund at any time up to \$1 million. This amount was increased to \$2 million by Vote L6a, Appropriation Act No. 4, 1975.

The Treasury Board, on September 21, 1972, authorized the Fund to carry forward to future years, surpluses or deficits to a maximum amount of \$150,000.

## b) Purpose

The Fund is used to finance all activities of the Agency including:

- The payment of accounts submitted by common carrier companies for provision of telecommunication services and facilities in Canada and the USA; for dedicated (private) systems employed by various departments and the management of some eighteen consolidated telephone systems in major cities throughout Canada;
- Telecommunication engineering and support services for network and systems management;
- The printing and distribution of telephone directories for each consolidated system;
- Administrative support and other related overhead charges.

## 2. Significant accounting policies

## a) Depreciation

Depreciation of fixed assets is calculated using the declining balance method at the following rates: automobiles (30%), office equipment (20%), furniture and fixtures (10%).

## b) Contributed capital

Contributed capital represents fixed assets financed from parliamentary appropriations prior to April 1, 1971 and these assets are recorded at cost.

## 3. Loan from Canada for purchase of fixed assets

Vote L6b of Appropriation Act No. 5, 1976 authorized a loan of \$58,717 to the Agency for the purchase of fixed assets, in accordance with terms and conditions approved by Treasury Board.

The terms of repayment have not yet been established by the Department of Finance nor approved by the Treasury Board, even though annual repayments of \$8,186 (excluding interest) until 1980 and of \$3,553 (excluding interest) from 1981 to 1985 have been established by the Agency. The interest rate is fixed quarterly by the Minister of Finance and the related interest has been recorded.

As at March 31, 1977, two repayments had been made for the years 1975-76 and 1976-77 reducing the loan from \$58,717 to \$42,345.

## 4. Termination benefits and annual vacation pay

Termination benefits and annual vacation pay accrue to employees over their service period. Payments of these benefits are made to the employees on separation or retirement and are expensed by the Agency when paid. No provision has been made in the accounts for termination benefits and annual vacation pay accruing to employees as at March 31, 1977 which amounts are approximately \$285,000 and \$132,000 respectively.

## 5. Advances from Canada for working capital

As at March 31, 1977, the Agency had drawn an amount of \$3,397,224 from the Consolidated Revenue Fund. The Agency has thus exceeded by \$1,397,224, the maximum amount of \$2 million it is authorized to draw. As mentioned in Note 6, the Agency has requested authority to increase this maximum amount to \$4 million.

## 6. Subsequent events

## a) Request for a loan

On July 19, 1977, the Agency submitted to the Treasury Board a request for a loan amounting to a maximum of \$527,000 for the immediate payment of non-recurring pre-operational expenses relating to the establishment of an electronic telephone system.

## b) Request to increase the drawing authority limit

The Agency requested the Treasury Board on July 19, 1977 to increase its drawing authority limit from \$2 million to \$4 million.

**Government Telecommunications Agency Revolving Fund—Concluded**

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
August 3, 1977

THE HONOURABLE JEANNE SAUVÉ, P.C., M.P.  
MINISTER OF COMMUNICATIONS  
OTTAWA, ONTARIO

I have examined the balance sheet of the Government Telecommunications Agency Revolving Fund as at March 31, 1977 and the statements of income and expense and retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

As explained in Note 4 to the financial statements, the Agency has not recorded in its accounts an amount of approximately \$417,000 for employee termination benefits and annual vacation pay.

In my opinion, except for the failure to record a provision for employee termination benefits and annual vacation pay as mentioned in the preceding paragraph, these financial statements present fairly the financial position of the Agency as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

**NOTE TO THE FINANCIAL STATEMENTS**

In accordance with the terms of International Agreements, Canada obtains raw sealskins without charge. The year-end inventory valuation of fur sealskins is based on the laid down cost which comprises labour charges for packing and transporting the skins to the fur processor. The additional costs for dressing and dying the skins are billed by the processor at date of shipment by him and have been estimated to be \$86,000 with respect to the March 31, 1977 inventory. The comparable cost for the previous year-end inventory was estimated to be \$83,000.

## Fisheries Prices Support Board—Concluded

Ottawa, Ontario  
July 11, 1977.

# NOTES TO FINANCIAL STATEMENTS MARCH 31, 1977

## 1. Significant accounting policies:

## (a) Inventories

In accordance with Section 10(4) of the Fisheries Prices Support Act inventories are valued at cost. However, had inventories been valued at the lower of cost or net realizable value, their value at March 31, 1977 would have been \$168,413 (1976 \$241,067) and the loss for the year would have been \$1,345,834 (1976 \$1,895,703).

## (b) Modified cash accounting

The Board follows the laid down practise applicable to government departments whereby payments made during the month of April to extinguish liabilities incurred prior to March 31 are reflected as cash transactions of the old year. Similarly settlements of accounts receivable in April by journal voucher of old year accounts due from government departments and agencies are reflected as cash transactions occurring prior to March 31.

## (c) Loss or profit

Section 10(3) of the Act provides that Board net operating losses may be recouped from moneys appropriated by Parliament for that purpose and that net operating profits be transferred to Canada as non-tax revenue.

## (d) Administrative expenses

In accordance with previous practice the administrative expenses of the Board for the year have been charged to Department of the Environment Vote 5. Only the major administrative expenses have been reflected in the statement of operations. The charge for salaries represents the pro-rated portion of the salary costs, excluding employee benefits, of those members of the Department's Ottawa staff who regularly devote time to the Board's affairs. Since the Board has no staff of its own, it does not reflect any accrued liability in its accounts for vacation pay or termination benefits.

## 2. Advances from Canada

Section 10(2) of the Act provides for advances not exceeding \$25 million to be paid from the Consolidated Revenue Fund to finance Board purchases of fisheries products and deficiency payments. The proceeds from sales of fisheries products have been applied by the Board to the advances outstanding. No interest was charged during the year on the advances.

## 3. Deficiency payments:

During the year the Board made deficiency payments directly to the following groups and Crown Corporations involved in the fishing industry:

Smelt fishermen .....	\$ 152,570
Herring fishermen .....	765,507
	<u>\$ 918,077</u>
The Freshwater Fish Marketing Corporation—a processor of mullet and whitefish .....	127,138
The Canadian Saltfish Corporation—a processor of small cod .....	210,000
	<u><u>\$ 1,255,215</u></u>

THE HONOURABLE ROMÉO LEBLANC, P.C., M.P.,  
MINISTER OF FISHERIES AND THE ENVIRONMENT,  
OTTAWA, ONTARIO.

I have examined the balance sheet of Fisheries Prices Support Board as at March 31, 1977 and the statement of operations and deficit for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at March 31, 1977 and the results of its operations for the year then ended in accordance with the accounting policies set out in Note 1, applied on a basis consistent with that of the preceding year.

J. J. MAONELL

NOTES TO FINANCIAL STATEMENTS  
MARCH 31, 1977

## 1. Objective and accounting policies

The Fund was established to provide for the issue of appropriate travel documents to Canadian citizens and to certain permanent residents of Canada who are unable to obtain valid passports from their country of origin.

The authority granted by Parliament was amended by Vote L19 (d), Appropriation Act No. 1, 1975 to allow the Passport Office Revolving Fund to draw out of the Consolidated Revenue Fund a maximum amount of \$900,000. Effective 1975-76 the Treasury Board gave to the Fund the authority to accumulate surpluses and carry over deficits.

## Inventories

The inventory of materials and supplies is carried at cost and the inventory of passports-in-process is valued at average cost for the year.

## Appendix 2—Concluded

## Passport Office Revolving Fund—Concluded

## Fixed assets

Fixed assets are carried at cost. Leasehold improvements are amortized on the straight line basis over the term of the appropriate lease. Other fixed assets are depreciated from the year of acquisition on the straight line basis over their estimated useful lives as follows:

Furniture	16 Years
Equipment:	
Electronic data processing	5 Years
Other equipment	10 Years

## Comparative figures

The presentation of the prior year's comparative figures has been amended to conform to the current year's format.

## 2. Cash on hand or on deposit with Receiver General

In accordance with Treasury Board regulations for Revolving Funds, the Fund sets aside every year amounts equal to depreciation which are restricted to either financing replacements, acquisitions and major renovations or repaying advances from Canada. As at March 31, 1977, \$20,882 of the cash is restricted compared to \$24,596 in 1976.

## 3. Advances from Canada

The advances from Canada were made solely for the acquisition of fixed assets and the minimum amount repayable in a given year is equal to the amount of yearly depreciation taken on the assets so acquired. The interest rates which are determined by the Minister of Finance for long-term borrowing, vary from 7.1325% to 9.375%. These advances are granted for a period of time varying from 5 to 16 years and are repayable up until 1992.

## 4. Prior years' adjustment

This year the Fund established a provision for employee termination benefits and accrued vacation pay in compliance with generally accepted accounting principles. As a result the balance of retained earnings at March 31, 1976 previously reported as \$259,586 has been restated to show a retroactive charge of \$375,510 representing the cumulated amounts at that date. Of the total retroactive charge, \$125,667 is applicable to 1976 and has been charged to expense in that year. The remaining \$249,843 is applicable to years prior to April 1, 1975 and has been charged to retained earnings at that date, previously reported as nil.

## 5. Long-term leases

The Passport Office occupies space at eight locations under long-term leases which expire between March 31, 1977 and December 31, 1981. The annual rental is approximately \$719,000.

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
July 20, 1977

THE HONOURABLE DON C. JAMIESON, P.C., M.P.,  
SECRETARY OF STATE FOR EXTERNAL AFFAIRS,  
OTTAWA, ONTARIO.

I have examined the balance sheet of the Passport Office Revolving Fund as at March 31, 1977 and the statements of income and expense, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Fund as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change, with which I concur, to the accrual method for recording employee termination benefits and vacation pay as described in Note 4, on a basis consistent with that of the preceding year.

J. J. MACDONELL

NOTES TO THE FINANCIAL STATEMENTS  
MARCH 31, 1977AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
May 18, 1977

## 1. Accounting Policies

The Centre follows the accrual basis of accounting to record revenue and expense.

Centre funds held in foreign currency accounts have been converted into Canadian dollars at the rate of exchange in effect on the dates funds were originally transferred to such accounts. Had these funds been converted at the year-end rate of exchange the Canadian dollar equivalent would not be significantly different.

Furniture, equipment and leasehold improvements are expensed in the year of acquisition except for one revenue-producing residence which is recorded at cost and is depreciated on a straight line basis at 4% per annum.

## 2. Changes in Accounting Policies

In 1977 the Centre adopted the policy of recording all project costs on an accrual basis, whereas, previously the portion of these costs relating to payments under contract was recorded only at the time of actual disbursement.

In 1977 the Centre also adopted a policy of recording in its accounts a provision for vacation and other leave benefits earned but not yet paid. Previously the Centre had recorded such benefits only at the time of actual disbursement.

These changes in accounting policy, which were applied retroactively, resulted in additional expense for 1977 of \$1,201,331 and a reduction in previously reported 1976 expense of \$83,673. The cumulative effect of these changes on the cumulative excess of revenue over expense as at March 31, 1977, amounted to a reduction of \$2,222,036.

## 3. Commitments and Contingent Liabilities

Subject to funds being provided by Parliament, the Centre is committed to make contributions totalling \$28,744,784 during the next four years.

In addition the Centre has submitted formal offers to prospective recipients totalling \$2,687,304 and is awaiting acceptance of these offers.

## 4. Special Projects

The Centre has entered into agreements with various donor agencies whereby the Centre has assumed responsibility for project management on their behalf. The Centre receives funds under these agreements to meet actual project costs incurred. As at March 31, 1977, the Centre has commitments totalling \$1,288,849 which will be met by funds provided under such agreements.

## 5. Comparative Figures

Certain figures for the previous year have been reclassified to conform to the current year's presentation.

INTERNATIONAL DEVELOPMENT RESEARCH CENTRE  
ANDTHE HONOURABLE DON C. JAMIESON, P.C., M.P.,  
SECRETARY OF STATE FOR EXTERNAL AFFAIRS,  
OTTAWA, ONTARIO.

I have examined the balance sheet of the International Development Research Centre as at March 31, 1977, and the statements of revenue and expense and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the International Development Research Centre as at March 31, 1977, and the results of its operations and the changes in its financial position for the year then ended, in accordance with generally accepted accounting principles applied, after giving retroactive effect to the changes to the accrual method of accounting for vacation and other leave benefits and the portion of cost relating to payments under contract as referred to in note 2, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of accounts have been kept by the International Development Research Centre, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL

## Exchange Fund Account

## NOTES TO THE FINANCIAL STATEMENT

## 1. Objectives of the Account and significant accounting policies

The Exchange Fund Account was established pursuant to the Currency and Exchange Act, R.S., c. C-39, to aid in the control and protection of the external value of the Canadian monetary unit. The account is in the name of the Minister of Finance and is administered by the Bank of Canada as fiscal agent.

The significant accounting policies are outlined below:

## Financing of the Account

The Account is financed with advances from the Consolidated Revenue Fund. These advances are presently limited by Order-in-Council dated June 6, 1972 to \$6 billion.

## Valuation of Assets

Assets in United States dollars are recorded at cost at the time of purchase including accrued interest where applicable. Premiums and discounts on securities are amortized over their remaining term to maturity.

Assets denominated in Special Drawing Rights (SDRs) including gold (1 troy ounce of gold = 35 SDRs) are valued at the U.S. \$/SDR rate. Since July 1974, this rate is calculated by the International Monetary Fund as a trade weighted average of the market values of sixteen major currencies. On December 30, 1976, the IMF reported the value of the SDR at U.S. \$1 = SDR 0.860670.

For accounting purposes, the Canadian dollar values of the Account's U.S. dollar assets are established at the closing market rate for the U.S. dollar in the Canadian market.

## Allocation of Special Drawing Rights

The Special Drawing Right was created by the International Monetary Fund to supplement existing international reserve assets. SDRs are allocated on the basis of each member's quota (subscription) in the Fund. The liability in respect to the net cumulative allocation represents the obligation that Canada would incur upon the termination of Canada's participation in the Special Drawing Account or on the liquidation by the International Monetary Fund of the Special Drawing Account.

## Amounts due to the Consolidated Revenue Fund

The following policies are governed by the specific requirements of section 16 of the Currency and Exchange Act:

## a) Earnings on investments.

Earnings on investments are recorded on an accrual basis and include interest and the amortization of premiums and discounts.

## b) Net profit from trading operations in foreign exchange, gold and securities.

Net profit from trading operations in foreign exchange, gold and securities is transferred to the Consolidated Revenue Fund. Net losses however would be charged to the Deficit account. Sales of foreign currencies during the year are matched against the most recent purchases during the year.

## c) Net profit from valuation adjustments on unmatched purchases or sales of foreign exchange, gold and securities.

Net profit from valuation adjustments on the increase or decrease in assets held in or expressed in United States dollars is credited to this account. A net loss would be charged to the deficit account.

## Deficit account

This account includes the profit or loss arising from the changes in value of the SDR in terms of U.S. dollars. It also includes net losses from valuation changes on unmatched purchases or sales made during the year, and profits or losses arising from valuation adjustments to the inventory of assets held at the previous year-end.

## 2. Proposed changes to the Currency and Exchange Act

The Deficit account could be affected by proposed legislation now before Parliament. Under the proposed legislation, the accumulated deficit of the Exchange Fund Account would be transferred to the Consolidated Revenue Fund, while changes in the valuation of the EFA's net assets in any subsequent year would be credited or debited to the Consolidated Revenue Fund over the following three years.

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario

April 29, 1977

THE HONOURABLE DONALD S. MACDONALD, P.C., M.P.,  
MINISTER OF FINANCE,  
OTTAWA, ONTARIO.

Dear Mr. Macdonald,

I have examined the Exchange Fund Account and the transaction in connection therewith for the year ended December 31, 1976, as required by section 18 (2) of the Currency and Exchange Act, R.S. c. C-39.

My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances. The Fund's holdings at the close of the year have been confirmed to us by the Auditors of the Bank of Canada.

In my opinion, the transactions in connection with the Account have been in accordance with the provisions of the Currency and Exchange Act, the records of the Account show truly and clearly the state of the Account and the accompanying statement of assets and liabilities presents fairly the financial position of the Account at December 31, 1976, in accordance with the accounting policies described in Note 1 to the statement applied on a basis consistent with that of the preceding year.

Yours sincerely

J.J. MACDONELL  
Auditor General of Canada

In accordance with the provisions of Section 65 of the Financial Administration Act, I have examined the receipts and disbursements of the office of the Auditor General of Canada for the year ended March 31st, 1977. My examination consisted of a general review of the accounting procedures and such tests of accounting records and other supporting evidence as I considered necessary in the circumstances.

In my opinion the accompanying statements of appropriations and expenditures, revenue, accounts receivable, and the working capital advance present fairly the results of the operations of the office of the Auditor General of Canada for the year ended March 31, 1977, in accordance with generally accepted accounting principles applied on a basis consistent with that of the previous year.

## **INDIAN AFFAIRS AND NORTHERN DEVELOPMENT**

### **Department**

#### **Objectives**

##### **ADMINISTRATION PROGRAM**

- To provide overall policy direction and central advisory and administrative services to Departmental Programs.

##### **INDIAN AND ESKIMO AFFAIRS PROGRAM**

- In consultation with Indian and Eskimo peoples to innovate, support and encourage coordinated activities whereby Indians and Eskimos may achieve their cultural, economic and social aspirations within Canadian society.

##### **NORTHERN AFFAIRS PROGRAM**

- To advance the social, cultural, political and economic development of the Yukon and Northwest Territories, in conjunction with the Territorial Governments and through coordination of activities of the federal departments and agencies, with special emphasis on the needs of native northerners.

##### **PARKS CANADA PROGRAM**

- To acquire and develop representative areas of the country, for use by the public consistent with the preservation of such areas in their natural state; to preserve, restore and operate sites, structures and travel routes of importance to Canadian history.

### **Northern Canada Power Commission**

#### **Objective**

- To provide public utilities and distribution systems on a self-sustaining basis in the Northwest Territories, the Yukon Territory and at certain other locations in Canada.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR  
ENDED MARCH 31, 1977

1. Accounts receivable: Includes \$58,000 of accounts the collection of which appears doubtful. Of this amount, approximately \$21,000 is expected to be deleted during 1977-78.
2. Fixed assets: During 1976-77, fixed assets that were valued at \$55,566 when transferred to the Revolving Fund and having accumulated depreciation of \$25,046, were returned to the department. The total cost figure was used to reduce the amount shown in Equity of Canada for Capital Assets from Appropriations, while Accumulated Deficit was reduced by the amount of the accumulated depreciation.
3. Revolving fund transactions: Vote L18(b), Appropriations Act No. 1, 1972, requires that all revenues and disbursements related to the marketing of Indian arts and crafts be processed through the Revolving Fund. During 1976-77 revenues not processed through the Fund amounted to \$740,033, while disbursements amounted to \$1,578,943. (Comparative amounts in 1975-76 were \$705,947 and \$1,094,530).
4. Professional services: Effective July 1, 1975, management of the Marketing Service was transferred under contract to Imanco Marketing Limited, a subsidiary of Canadian Arctic Producers Limited. Under the terms of the contract Imanco supplies the management and operating personnel for the Marketing Service. Thus staff salaries, wages and fringe benefits have been lumped with professional services, as the personnel involved are not employed directly by the Government of Canada. The cost elements of this expense item for 1976/77 (with comparative figures for 1975/76) are set out below:

	1976-77	1975-76
Salaries, wages and fringe benefits	\$ 247,127	\$ 248,288

# INDUSTRY, TRADE AND COMMERCE

## Department

### Objectives

#### TRADE-INDUSTRIAL PROGRAM

- To achieve efficient and sustained growth in the production and trade of Canadian goods and services and to assist Canadian industries to adjust to changes in the domestic and external economic environment.

#### TOURISM PROGRAM

- To sustain orderly growth of tourism in Canada.

#### GRAINS AND OILSEEDS PROGRAM

- To achieve sustained market growth and to maintain an orderly marketing system for grains and oilseeds.

## Federal Business Development Bank

### Objective

- To promote and assist in the establishment and development of business enterprises, particularly small business in Canada.

## Foreign Investment Review Agency

### Objective

- To ensure that acquisitions of control of Canadian business enterprises and the establishment of new or unrelated businesses by non-Canadians are, or are likely to be, of significant benefit to Canada.

## Standards Council of Canada

### Objective

- To foster and promote voluntary standardization in fields relating to the construction, manufacture, production, quality, performance and safety of buildings, structures, manufactured articles and products and other goods and to further international co-operation in the field of standards.

## Statistics Canada

### Objectives

- To collect and provide statistical information needed for understanding the Canadian economy and Canadian institutions and for the development of economic and social policies and programs; to collaborate with other departments and agencies of the federal government, provincial and municipal governments and with businesses and individuals on the development of methodology and its application and on the production of new and expanded statistical information to meet their particular requirements.
- To provide government departments and agencies and other users with special statistical services which are not a part of the Statistics Canada Program.

## Statistics Canada Revolving Fund—Continued

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1977

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
July 25, 1977

## 1. The Fund

The Fund is authorized by Industry, Trade and Commerce Vote L82b, Appropriation Act no. 1, 1969, 1968-69, c.23. The Fund was established to meet requests of other government departments, agencies and others on a cost-recovery basis for special work in the form of services or information that is not provided in Statistics Canada's programs or publications.

## 2. Accounting policies

## a) Income recognition

Income from special statistical services is recognized as revenue in the period in which the Fund provides the service to its customer.

## b) Expenses

All expenses of the Fund are incurred by or provided by Statistics Canada on behalf of the Fund. Salary and wage costs are charged to the Fund using a predetermined standard hourly rate. Overhead expenses are charged to the Fund partly as a percentage of salary costs and partly as a percentage of the direct cost of operating service stations (such as EDP, printing, etc.). The percentage is calculated at the beginning of each year based on estimated salary and wage costs, estimated operating costs of service sections, and estimated overhead expenses. Such overhead expenses are included in expense categories in the following amounts:

Salaries, wages and employee benefits	\$535,931
Accommodation	162,963
Office supplies	135,463
Equipment rental	11,704
Other	3,646
	<u>\$849,707</u>

While these standard charges are considered representative of the actual costs of operating the fund, the records of Statistics Canada do not permit subsequent comparison to actual expenditures which would reveal any over or undercharges to the Fund for salaries or overheads.

## 3. Working capital advance

Operations of the Statistics Canada Revolving Fund were financed by advance payments received from Government Departments and others on account of services to be provided; consequently there were no drawings made against the authorized working capital advance of \$250,000.

THE HONOURABLE JEAN CHRÉTIEN, P.C., M.P.,  
MINISTER OF INDUSTRY, TRADE AND COMMERCE,  
OTTAWA, ONTARIO.

I have examined the balance sheet of the Statistics Canada Revolving Fund as at March 31, 1977 and the statement of operations for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances, except as explained below.

As explained in note 2 to the financial statements, the majority of the expenses of the Fund are represented by standard costs charged by Statistics Canada. No comparison is subsequently made of actual and standard costs to determine if standard costs are materially different from the actual costs incurred by Statistics Canada.

In my opinion, except for the effect of any adjustments which might have been required had actual costs incurred in providing the services of the Fund been charged to the Fund, these financial statements present fairly the financial position of the Fund as at March 31, 1977 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

## Standards Council of Canada—Continued

## NOTES TO FINANCIAL STATEMENTS MARCH 31, 1977

## 1. Accounting Policies:

## Statement of changes in financial position

A statement of changes in financial position has not been presented as, in the opinion of management, it would not add significantly to the information to be derived from these financial statements.

## Office furniture and equipment

Consistent with accounting principles followed by many non-profit organizations the Council follows the practice of charging the cost of office furniture and equipment to operations in the year of acquisition.

## Foreign exchange

Foreign exchange on purchases of international and foreign national standards is recorded as part of the direct cost of those standards, which is expensed each year. There are no material amounts payable or receivable in foreign currencies at March 31, 1977.

Parliamentary appropriations are recorded in the accounts as they are voted by Parliament. Under the terms of the Standards Council of Canada Act the excess of funds provided over actual net expenses for the year is accumulated in an equity account which is reduced in a year when net expenses exceed the amount voted.

## 2. Sale of Standards:

Towards the end of the previous year, the Council took over the function of sales of international and foreign national standards in Mississauga, Ontario, which was previously handled by the Canadian Standards Association. The expenses of those operations are included in these financial statements for the year ended March 31, 1977. The Council co-ordinates, obtains and sells (on a cost-recovery basis) international and foreign national standards. Income from that source is reflected for the first time in these financial statements. Customers often pay in advance for this service, and deposits received on orders taken but unfilled at March 31, 1977 are reflected as a liability on the balance sheet and have not been taken into income.

## 3. Reserves:

During the year, the executive committee approved appropriations from the unrestricted equity of the Council. A reserve of \$135,000 was appropriated towards the cost of hosting the International Organization of Standardization General Assembly in 1982, and \$81,000 for the General Meeting of the International Electrotechnical Commission in 1985. The remaining \$46,874 of the 1976 equity was established as a general reserve to cover any contingency which may arise.

## 4. Vacation Pay and Termination Benefits:

Vacation pay accrues to employees on a monthly basis, and is expensed by the Council when the vacation is taken.

Termination benefits generally accrue to employees over their service period. Payments of these benefits are made to the employees on separation or retirement and are expensed by the Council when paid.

No provision has been made in the accounts for either of these accumulated benefits accrued to employees as at March 31, 1977, estimated to total \$117,000 (1976 — \$83,000).

## 5. Supplementary Information:

The nine members of the Council's executive committee receive no remuneration for their duties as members. The Council's four officers, two of whom are also members of the executive committee, received approximately \$81,000 as remuneration in their capacity as officers for the year ended March 31, 1977 (1976 — \$79,000).

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
May 4, 1977

THE STANDARDS COUNCIL OF CANADA,  
AND  
THE HONOURABLE JEAN P. CHRÉTIEN, P.C., M.P.,  
MINISTER OF INDUSTRY, TRADE AND COMMERCE,  
OTTAWA, ONTARIO

I have examined the balance sheet of the Standards Council of Canada as at March 31, 1977 and the related statement of operations and unrestricted equity for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

As explained in note 4 to the financial statements, the Council has not recorded a provision for employee accrued vacation pay and termination benefits. The accumulated amount of such vacation pay and termination benefits at March 31, 1977 was \$117,000 (March 31, 1976 — \$83,000).

In my opinion, except for the effect of failing to record a provision for vacation pay and termination benefits as described in the preceding paragraph, these financial statements present fairly the financial position of the Council as at March 31, 1977 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

## 1. Accounting policies

## a) Basis of the Account

The Unemployment Insurance Account is part of the Government of Canada accounting entity. The Account is credited with amounts received under the Unemployment Insurance Act and with benefit payments recoverable from Canada under the Act. Receipts under the Act are paid into the Consolidated Revenue Fund.

Benefit payments, administration expenses and interest on advances are paid out of the Consolidated Revenue Fund and charged to the Unemployment Insurance Account.

Premiums collected from and benefits paid to fishermen are made through the Consolidated Revenue Fund.

## b) Revenue

Under Part IV of the Act, the Minister of National Revenue is responsible for collecting employers and employees premiums. These premiums are transferred monthly on an estimated basis to the Unemployment Insurance Account and recorded on a cash basis. The estimate is determined from forecast of factors such as employment, coverage, income and new entrants. Adjustment of the difference between the actual premium amount computed and the estimated premium amount transferred is made in the following year and remitted to or reimbursed by the Commission subsequent to the year end. At December 31, 1976, \$52 million of which \$24 million pertained to 1975 was to be reimbursed and is recorded as amounts payable.

All other revenues are recorded on an accrual basis except for penalties under section 47 of the Act which are recorded when received.

## c) Expenditures

Benefit payments are recorded on a cash basis less the net of benefit overpayments which are established yearly.

Administration expenditures are recorded on an accrual basis.

## d) Fixed assets

The Commission follows the practice of charging to the cost of administration, all purchases of machinery and equipment in the year of acquisition.

## e) Unredeemed warrants

Unredeemed warrants represent benefits issued during the past three years which had not been presented for payments at December 31, 1976. Warrants unredeemed for more than three years are applied to reduce benefit expenditure in the following year.

## 2. Legislative change

Pursuant to Bill C-69, S.C. 1974-75, C-80, effective January 1, 1976, the calculation to determine the "Government cost of paying benefit" was changed from the excess of the average national rate of unemployment for the year over a fixed percentage to the excess over a percentage based on the average for the past ninety-six months ended on the 30th day of June in the immediately preceding year. This change had the effect of reducing the 1976 "Government cost of paying benefit" by approximately \$475 million, thus increasing the expenditure and reducing the excess of revenue over expenditure of the Unemployment Insurance Account by the same amount.

## 3. Estimated overpayments

The Commission is responsible for exercising financial control to ensure the initial and continuing eligibility of approximately 3 million individual claimants to whom benefits were paid in 1976, while providing prompt and efficient service to those who are entitled to receive benefits under the Unemployment Insurance Act.

Because of the large number of claimants to be monitored, control procedures are selective rather than universal in application and the requirement for prompt service has influenced the Commission to rely mainly upon control activities which take place after claimants have begun to receive benefits. It is therefore possible in these circumstances that some benefits could be paid to claimants who are not entitled to these benefits. Although the Commission has been increasing its efforts to improve adjudication by interviewing selected claimants at the time or very shortly after they file claims, the effectiveness of this program still needs to be improved and the integration with the Department of Manpower and Immigration will assist in this regard.

Based upon the results of a statistical sample of claimants to whom benefits were paid in 1976, the Commission has established that it has paid benefits to claimants who were not entitled to such benefits and that the amount of such overpayments not previously identified by the Commission's regular control activities is most likely to be approximately \$95 million. These overpayments, which are included in the cost of benefits on the statement of Revenue and Expenditure, are in addition to an amount of \$5 million also included in that figure which represents the net loss on overpayments identified by the control procedures referred to above. In addition, the results of the sample indicate that in a significant number of instances, the Commission did not completely adhere to its administrative procedures in the processing of continuing benefit payments and that some part of the amounts so paid could represent further overpayments.

In addition to the increase in the balance of benefit overpayments established, \$2.7 million (\$2.6 million in 1975) of uncollected benefit overpayments were written off during the year under authority of section 175(2) of the Unemployment Insurance Regulations.

## 5. Benefits

The Government cost of Unemployment Insurance benefits paid under phases 1, 2 and 3 is based on the national rate of unemployment in excess of an established rate which for 1976 was 22% (44% in 1975). The cost of all other phases are entirely charged to the Government, except for sickness, special severance and maternity benefit payments which are the responsibility of the Commission.

**8. Subsequent event**

On May 9th, 1977, Bill C-52 was passed by Parliament. This Act provides for the consideration of certain unemployment benefit entitlements. Pursuant to this Act, approximately \$19 million of benefits were paid subsequent to May 9 to persons 65 years of age and over, or with dependents, who had established an initial benefit period prior to January 4, 1976. This enactment recognized the acquired rights of persons whose benefits were terminated because of the repeal of former sections of the Act and the substitution of new provisions (Bill C-69, January 4, 1976). As benefit payments are on a cash basis, no provision was made at December 31, 1976.

THE HONOURABLE BUD CULLEN, P.C., M.P.  
MINISTER OF EMPLOYMENT AND IMMIGRATION  
OTTAWA, ONTARIO

I have examined the balance sheet of the Unemployment Insurance Account as at December 31, 1976 and the statements of revenue and expenditure and of administration expense for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Account as at December 31, 1976 and the results of its operations for the year then ended in accordance with the accounting policies set out in Note 1 applied on a basis consistent with that of the preceding year.

As explained in Note 3 to the financial statements, the Commission has established that it has paid benefits to claimants who were not entitled to such benefits and that in a significant number of instances it has not completely adhered to its administrative procedures in establishing the continuing eligibility of claimants. The Commission is seeking ways to improve financial controls and to verify more effectively the initial and continuing eligibility of claimants. My Office will monitor the results achieved by the Commission in improving this aspect of its operations.

NOTES TO THE FINANCIAL STATEMENTS  
MARCH 31, 1977

## 1. Authorization and purpose

The Government Annuities Account was established by the Government Annuities Act c. G6, R.S. and modified by the Government Annuities Improvement Act 1974-75-76, c. 83.

The purpose of the Account was to assist Canadians to provide for their later years by the purchase of Government annuities. The Improvement Act, assented to December 20, 1975, increased the rate of return and flexibility of Government Annuity contracts and the discontinued future sales of annuities.

The Account is administered under the Unemployment Insurance Commission annuities program of the Department of Manpower and Immigration.

## 2. Significant accounting policies

## a) Accounting system

The accounts of the Government Annuities Account are maintained on an accrual basis.

## b) Calculation of unpaid annuities

In accordance with section 15 of the Government Annuities Improvement Act, the liability outstanding at the end of each fiscal year in respect of annuity contracts is calculated on the basis of such rate or rates of interest and mortality tables, and in such manner, as is prescribed by regulation.

If at the end of any fiscal year the liability calculated according to the above-mentioned paragraph exceeds or is less than the balance of the Government Annuities Account, the actuarial deficit or surplus resulting is credited or charged to the Consolidated Revenue Fund.

## c) Revenue for the year

Revenue for the year included accrued interest calculated yearly on the balance of unpaid annuities, on the basis of such rate or rates of interest and mortality tables, and in such manner, as is prescribed by regulation.

## d) Administration expenditures

Included in the reported expenditures, are amounts for services provided without charge by other government departments. Acquisitions of furniture and equipment are expensed in the year of acquisition.

## 3. Change in accounting policies—actuarial valuation

Effective March 31, 1977, the surplus or deficit resulting from actuarial valuations will be recorded in the year in which they arise. To give effect to this change, the accounts have been adjusted retroactively. The balance of unpaid annuities at March 31, 1975, as previously reported, has been reduced by \$7,768,122 representing the actuarial surpluses arising prior to that date and due to Canada (Note 2b).

The accounts for the year ended March 31, 1976, have been restated to include the actuarial deficit of \$4,744,753 due from Canada (Note 2b) arising at that date, by decreasing the actuarial surplus due to Canada on the Balance Sheet and by a corresponding decrease in the excess of expense over revenue for the year ended March 31, 1976.

The opening balance of unpaid annuities at April 1, 1976 has been increased to reflect the change referred to above.

## 4. Comparative figures

Certain 1976 figures have been reclassified to conform to the 1977 presentation.

THE HONOURABLE BUD CULLEN, P.C., M.P.  
MINISTER OF EMPLOYMENT AND IMMIGRATION  
OTTAWA, ONTARIO

I have examined the balance sheet of the Government Annuities Account administered by the Unemployment Insurance Commission as at March 31, 1977 and the statements of revenue and expense, unpaid annuities and administrative expenditure for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Government Annuities Account as at March 31, 1977 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in accounting for actuarial valuation referred to in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

Department of National Health and WelfareNOTES TO FINANCIAL STATEMENTS  
MARCH 31, 1977

## 1. Accounting policies:

## Pension obligations—

In accordance with the provisions of the Canada Pension Plan Act, these statements show only the transactions through the Canada Pension Plan Account and the Canada Pension Plan Investment Fund and changes in the balance of these accounts for the year ended March 31, 1977. The plan operates on a current basis with benefits being paid out of current contributions.

The Canada Pension Plan Act directs the Chief Actuary of the Department of Insurance to prepare at least once in every five year a report based on an actuarial examination of the operation of the Act and the state of Canada Pension Plan Account. The Chief Actuary's report is to set out, for each of the ten years immediately following the date of his examination, the estimated revenues of the Account and the estimated amount of all payments chargeable to the Account, and for each fifth year of a period of not less than 30 years from the date of the examination, an estimate of the percentage of the total contributory salaries and wages and contributory self-employed earnings that would be required to provide for all payments chargeable to the Account should there be no balance in the Account at the commencement of that year.

Current projections of the Chief Actuary, assuming the present contribution rate of 3.6% of contributory earnings and annual increases of 5½% for wages and 3% for prices indicate that in 1983 annual benefits will exceed annual contributions, and no further net funds will be available to the provinces. With the accumulation of interest, the fund will continue to increase until 1990 but part of the annual interest payments will be necessary to finance pension benefits. After 1990 the loans to the provinces will require liquidation until the year 2000 when the fund will be exhausted.

## Cash basis—

Contributions, interest and benefit payments of the Canada Pension Plan Account are recorded on a cash basis. Expenses are recorded on a cash basis modified to include payments in April relating to work performed, goods received or services rendered prior to March 31.

All receipts of the Canada Pension Plan Account are paid into the Consolidated Revenue Fund and all disbursements of this account and all purchases of investments for the Canada Pension Plan Investment Fund are made out of the Consolidated Revenue Fund.

## Furniture and equipment—

The cost of furniture and equipment is charged to expense at the time of acquisition.

## Securities—

All securities held are carried at cost, are non-negotiable and have a term of 20 years. The securities bear interest at the average market yield of 20-year Canada bonds applicable at the time of the issue of the security.

## 2. Expense:

The total expense of the Canada Pension Plan Account represents the amount charged for services provided by the Unemployment Insurance Commission (assignment of social insurance numbers and maintenance of central index) and five federal government departments: National Revenue—Taxation (collection of contributions); National Health and Welfare (administration); Supply and Services (accounting and computer services); Public Works (accommodation) and Insurance (actuarial services). The Department of Finance is responsible for the investment program of the Fund, a service that is performed without charge by this Department.

## 3. Interest on investments:

Interest received by the Canada Pension Plan Account during the year ended March 31, 1977 is as follows:

## 4. Purchase of securities of the provinces and Canada:

The balance to the credit of the Canada Pension Plan Account less the balance in the Canada Pension Plan Investment Fund is defined by the legislation as the operating balance. When the operating balance exceeds the estimated amount required to meet all payments in the following three-month period, the excess is available from the Consolidated Revenue Fund for purchase of securities of the provinces and Canada.

Provinces are advised monthly of the amount of excess monies in the Canada Pension Plan Account that is available for the purchase of provincial securities. The amount available to each province is the proportion that contributions made to the Plan by each province bears to total contributions. Contributions received from the Yukon Territory, the Northwest Territories and from certain other employees outside Canada are invested in bonds of the Government of Canada.

**Appendix 2—Concluded****Canada Pension Plan Account—Concluded**

Ottawa, Ontario  
September 15, 1977

The Canada Pension Plan is applicable throughout Canada, except in the Province of Quebec where a similar plan has been established. However, certain federal employees, such as members of the armed forces, who are resident in the Province of Quebec contribute to the Canada Pension Plan. The securities of the Province that are purchased by the Plan relate to the contributions of these employees.

THE HONOURABLE MARC LALONDE, P.C., M.P.,  
MINISTER OF NATIONAL HEALTH AND WELFARE,  
OTTAWA, ONTARIO

I have examined the statements of transactions of the Canada Pension Plan account and the Canada Pension Investment Fund for the year ended March 31, 1977. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these statements of transactions present fairly the balance in the Canada Pension Plan Account and the investments in the Canada Pension Plan Account as at March 31, 1977, and the transactions through these accounts for the year then ended, in accordance with the accounting policies disclosed in Note 1, applied on a basis consistent with that of the preceding year.

As explained in Note 1, under the provisions of the Canada Pension Plan Act, the plan operates on a current basis with benefits being paid out of current contributions. Accordingly the unfunded liabilities of the plan are not recognized in the financial statements and these statements are not intended nor do they purport to show the adequacy of the balance in the Canada Pension Plan Account to meet, on an actuarial basis, the future obligations of the Canada Pension Plan.

## NOTES TO THE STATEMENT OF EXPENDITURE MARCH 31, 1977

## 1. Accounting policies

Administration expenditure accounts of the Council are maintained on a modified cash basis to include payments in April relating to work performed, goods received or services rendered prior to March 31.

Included in the reported administration expenditure are amounts for services provided without charge by other government departments. Acquisitions of furniture and equipment are expensed in the year of acquisition.

Grants and scholarships are charged to expenditure as cash is disbursed.

## 2. The Council had outstanding commitments amounting to approximately \$79,037,225 at March 31, 1977 (\$65,443,000—1976) in respect of future grants and scholarships awarded, payment of which is subject to the provision of funds by Parliament.

## 3. Refunds of previous years' expenditure amounting to \$151,151 (\$166,600 in 1976) were remitted to the Receiver General for Canada and are not reflected in the statement.

## 4. At March 31, 1977 the Council held a cash balance of \$78,027 (\$78,205 in 1976) arising from a donation received for specified research projects. During the year interest of \$6,122 was received and expenditure of \$6,300 was incurred. These transactions are not reflected in the statement.

AUDITOR GENERAL OF CANADA

Ottawa, June 21, 1977

THE HONOURABLE MARC LALONDE, P.C., M.A., LL.L., Q.C., M.P.  
MINISTER OF NATIONAL HEALTH AND WELFARE  
OTTAWA.

I have examined the statement of expenditure of the Medical Research Council for the year ended March 31, 1977. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and procedures as I considered necessary in the circumstances.

In my opinion, the statement of expenditure presents fairly the results of the operations of the Council for the year ended March 31, 1977, in accordance with the accounting policies set out in Note 1, applied on a basis consistent with that of the preceding year.

NOTES TO THE FINANCIAL STATEMENTS  
MARCH 31, 1977

## 1. Accounting Policies

- Authority—The revolving fund has been authorized by National Revenue Vote 632, Appropriation Act No. 2, 1954, 1953-54, c. 25. The maximum authorized amount of the working capital advance is \$750,000.
- Purpose—The fund was created to permit the bulk purchases and sales of paper, stores materials, uniform cloth, stationery supplies, Excise Duty stamps and labels and other similar items.
- Overhead costs of administering the Revolving Fund are borne by the Department of National Revenue—Customs and Excise.
- Interest is not charged to the Fund because the Treasury Board has classified the Fund as a Working Capital Advance.

## 2. Inventory Written Off

During the year, obsolete spirit age labels were written off in the amount of \$25,431. This amount has been recovered through appropriations.

Ottawa, Ontario  
July 28, 1977

THE HONOURABLE MONIQUE BÉGIN, P.C., M.P.,  
MINISTER OF NATIONAL REVENUE,  
OTTAWA, ONTARIO.

I have examined the balance sheet of the Customs and Excise Revolving Fund as at March 31, 1977 and the statements of operations and working capital advance for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

All overhead costs of administering the Revolving Fund are borne by the Department of National Revenue—Customs and Excise. Therefore, the excess of revenue over expenses for the year as reported in these financial statements is overstated by the amount of the overhead costs not recorded in the statement of operations. No estimate is available of the amount of the unallocated costs.

In my opinion, except for the failure to reflect overhead costs of administering the Fund, these financial statements present fairly the financial position of the Customs and Excise Revolving Fund as at March 31, 1977 and the results of its operations and the changes in its working capital advance for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

## **PRIVY COUNCIL**

### **Privy Council**

#### **Objective**

- To provide for the operation and support of the central decision-making mechanism of the Government.

### **Canadian Intergovernmental Conference Secretariat**

#### **Objective**

- To provide administrative and support services for meetings of First Ministers, as well as for federal-provincial and interprovincial meetings of ministers and senior officials.

### **Chief Electoral Officer**

#### **Objective**

- To enable the people of Canada, eligible to vote, to elect members to the House of Commons, the Council of the Yukon Territory and the Council of the Northwest Territories in accordance with the Canada Elections Act and to ensure compliance with the election expenses provisions of the Canada Elections Act.

### **Commissioner of Official Languages**

#### **Objective**

- To ensure recognition of the status of each of the official languages and compliance with the spirit and intent of the Official Languages Act.

### **Economic Council of Canada**

#### **Objective**

- To advise and recommend how Canada can achieve the highest possible levels of employment and efficient production in the medium and long-term in order that the country may enjoy a high and consistent rate of economic growth and that all Canadians may share in rising living standards.

### **Public Service Staff Relations Board**

#### **Objective**

- To provide the framework within which the various rights and responsibilities of participants to collective bargaining in the Public Service are to be exercised and to provide information to participants on rates of pay and other conditions of employment in Canada.

## NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 1977

AUDITOR GENERAL OF CANADA

Ottawa, Ontario  
June 16, 1977

## 1. Objectives of the Fund and significant accounting policies

## (a) Objectives

The Queen Elizabeth II Canadian Fund was established pursuant to the Queen Elizabeth II Canadian Research Fund Act, R.S. c. Q-1 to assist individuals or organizations to undertake or carry on research into the diseases of children, and the causes, prevention and treatment of such diseases. A Board of Trustees consisting of a Chairman and six other trustees appointed by Her Majesty by commission under the Great Seal, manage and administer the Fund. The Fund was set up by an initial contribution of 1 million dollars from the Consolidated Revenue Fund and is augmented by gifts or bequests received.

## (b) Significant accounting policies

## Investments

Investments in Government of Canada Bonds are recorded at cost. Premiums and discounts are not amortized over their term to maturity. Interest earned on investments is recorded in the accounts on an accrual basis.

## Expenditure

Awards to scientists, payable within a one to six year period and fellowship awards payable within the following year are provided for in the year the awards are approved. Any increases granted for the remaining term of such awards are provided for in the year the increases are approved.

## Services provided without charge

The Medical Research Council provides the Board without charge such secretarial and other administrative and technical services and facilities for carrying out the purposes of the Act.

## THE BOARD OF TRUSTEES

AND

THE RIGHT HONOURABLE PIERRE E. TRUDEAU, P.C., Q.C., M.P.,  
PRIME MINISTER OF CANADA,  
OTTAWA, ONTARIO

I have examined the balance sheet of the Board of Trustees of the Queen Elizabeth II Canadian Fund to Aid in Research on the Diseases of Children as at March 31, 1977 and the statement of revenue and expenditure for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Fund as at March 31, 1977 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

MARCH 31, 1977

## 1. Objective and Accounting Policies

## (a) Objective

The Economic Council of Canada was established on August 2, 1963 by Act of Parliament under the provisions of the Economic Council of Canada Act, and reports to the Prime Minister through the Privy Council. The objective of the Economic Council is to advise and recommend to the Prime Minister how Canada can achieve the highest possible levels of employment and efficient production in order that the country may enjoy a high and consistent rate of economic growth and that all Canadians may share in rising living standards.

## (b) Accounting policies

The accounts of the Council are maintained on a cash basis modified to include payments in April relating to work performed, goods received or services rendered prior to March 31. Purchases of furniture and equipment are recorded as an administration expenditure in the year of acquisition. This basis of accounting is consistent with the one used by departments of the Government of Canada.

Reported expenditures also include an estimated amount for services provided without charge by government departments.

## 2. Financing

The amounts required to finance the transactions of the Council are provided by Privy Council Vote 20 and recorded as expenditure in the accounts of Canada. During the year \$4,464,000 was provided by this Vote and \$407,892 lapsed in accordance with Section 30 of the Financial Administration Act.

## 3. The Council

The Chairman, 2 Directors and not more than 25 other members are appointed by the Governor in Council. The Chairman and Directors are full time employees of the Council and their remuneration for the year totalled \$109,820 (1976 - \$147,250). Members served without remuneration.

Ottawa, Ontario  
June 20, 1977ECONOMIC COUNCIL OF CANADA  
ANDTHE RIGHT HONOURABLE PIERRE E. TRUDEAU, P.C., Q.C.,  
OTTAWA, ONTARIO

I have examined the statement of expenditure of the Economic Council of Canada for the year ended March 31, 1977. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the results of the operation of the Council for the year ended March 31, 1977, in accordance with the accounting policies set out in Note 1, applied on a basis consistent with that of the preceding year.

## **SCIENCE AND TECHNOLOGY**

### **Ministry of State**

#### **Objective**

- To encourage the development and use of science and technology in support of national goals.

### **National Research Council of Canada**

#### **Objectives**

#### **ENGINEERING AND NATURAL SCIENCES RESEARCH PROGRAM**

- To provide a national foundation upon which to build for the creation, application and use of knowledge derived from the natural sciences and engineering.

#### **SCIENTIFIC AND TECHNICAL INFORMATION PROGRAM**

- To facilitate the use of scientific and technical information by the government and people of Canada.

#### **SCHOLARSHIPS AND GRANTS IN AID OF RESEARCH PROGRAM**

- To promote and support the development and maintenance of research and the provision of highly qualified manpower in the natural sciences and engineering.

### **Science Council of Canada**

#### **Objective**

- To assess Canada's scientific and technological requirements, resources and potentialities and to advise the Government on the best use of science and technology.

---

Note: In 1976-77 expenditure in respect of grants and contributions for research and development under Atomic Energy Control Board was transferred to this department from Energy Mines and Resources.

For comparative purposes the 1975-76 figures have been adjusted.

Chairman

SCIENCE COUNCIL OF CANADA  
AND

THE HONOURABLE J. HUGH FAULKNER, P.C., M.P.,  
MINISTER OF STATE FOR SCIENCE AND TECHNOLOGY,  
OTTAWA, ONTARIO

I have examined the statement of expenses of the Science Council of Canada for the year ended March 31, 1977. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the results of the operation of the Council for the year ended March 31, 1977 in accordance with the accounting policies set out in Note 1, applied on a basis consistent with that of the preceding year.

J. J. MACDONELL  
Auditor General of Canada

NOTE TO FINANCIAL STATEMENT  
MARCH 31, 1977

## 1. Objective and accounting policies

The objective of the Science Council is to assess Canada's scientific and technological requirements, resources and potentialities and to advise the Government on the best use of science and technology.

The amounts required to finance the transactions of the Council are provided for by lapsing parliamentary appropriation and are recorded as expenditures in the accounts of Canada.

Administrative expenses are recorded on a cash basis modified to include payments in April relating to work performed, goods received or services rendered prior to March 31, which basis is consistent with that used by departments of the Government of Canada.

An estimated amount for services provided without charge by government departments is included in the statement.

Purchase of furniture and equipment are expended in the year of acquisition.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1977

1. Accounting policies

Accounting basis

The Council's accounts are maintained on an accrual basis.

Insured mortgages

Insured mortgages are carried at cost plus the earned portion of the related discount, if any.

Losses on disposal of investments

Net losses on disposal of investments are charged against the "Accumulated net gains on disposal of investments" to the extent of the accumulated gains available on the related accounts. The remaining loss, if any, is charged against "Accumulated earnings" in the case of the Special Funds and "Operating Surplus" in the case of the Endowment Account.

Grants

Grants are charged to expenditure in the year in which they are approved. Cancelled grants approved in previous years and refunds are shown as income in the Endowment Account. With respect to the Special Funds such items are deducted from the grants approved during the year.

Works of art (Note 7)

Purchases of works of art are not capitalized but are charged to programme expenditure in the year of purchase.

Capital assets

Capital expenditures are charged to general administration expenditure in the year of purchase and consequently there are no charges for depreciation.

Termination benefits

The Council does not record in its accounts the liability for termination benefits estimated at March 31, 1977 to be \$139,033.

Other

Except for the parliamentary grant, and the Queen's Fellowship Fund (Note 3), all monies or properties received by the Council pursuant to Section 20 of the Canada Council Act are accounted for in the Special Funds statement.

Net losses on disposal of investments during the year amounted to \$1,758,462 (\$112,069 in 1975-76). These losses are charged against "Accumulated net gains on disposal of investments".

3. Queen's Fellowship Fund

In December 1973 the Council received a grant of \$250,000 from Canada for the establishment of a Queen's Fellowship Fund to be administered by the Council. The income from the

Fund is to be used for the payment of fellowships to graduate students in certain fields of Canadian studies. Fellowships granted amounted to \$24,597 (\$27,930 in 1976), and the Fund earned \$26,250 (\$26,358 in 1976) during the year. Interest accrued on the Queen's Fellowship Fund and fellowships paid therefrom are not included in the statement of operations and surplus of the Endowment Account.

4. Administration expenditures

Programme administration expenditures comprise the major expenditures directly attributable to the Social Sciences and Humanities and Arts programmes and direct costs of servicing the Canadian Commission for UNESCO.

General administration comprises all other expenditures of the Council, including those relating to the Special Funds, and the programmes of Cultural Exchange for the Department of External Affairs and the Canadian Cultural Institute in Rome under P.C. 1967-2354. These expenses were recovered to the extent of \$3,000 (\$3,000 in 1976) from the Molson Prize Fund, \$98,684 (\$43,508 in 1976) from the Izaak Walton Killam Memorial Fund for Advanced Studies and \$180,409 (\$80,000 in 1976) from the Department of External Affairs in respect of servicing these funds and Cultural Programmes.

Net losses on disposal of investments during the year amounted to \$406,141 (\$69,356 in 1975-76). Of this amount, \$261,422 is charged against "Accumulated net gains on disposal of investments" and the balance of \$144,719 is charged against "Accumulated earnings".

6. Bequests and gifts

The Council has received bequests and gifts as follows:

- (a) Izaak Walton Killam Memorial Fund for Advanced Studies  
A bequest of \$12,159,615 in cash and securities was received from the estate of the late Mrs. Dorothy J. Killam for the establishment of "The Izaak Walton Killam Memorial Fund for Advanced Studies" to provide scholarships "for advanced study or research at universities, hospitals, research or scientific institutes, or other equivalent or similar institutions both in Canada and in other countries in any field of study or research other than 'the arts' as presently defined in the Canada Council Act and not limited to the 'humanities and social sciences' referred to in such Act".

The bequest contains the following provisions: that the Killam Trust shall not form part of the Endowment Fund or otherwise be merged with any assets of the Council; and that, in the event the Canada Council should ever be liquidated or its existence terminated or its powers and authority changed so that it is no longer able to administer any Killam Trust, the assets forming the Killam Trust must be paid over to certain universities which have also benefited under the will.

## Appendix 1—Concluded

## Canada Council—Concluded

The cash and securities received and the proceeds have been invested in a separate portfolio.

## (b) Special Scholarship Fund

A gift of approximately \$4,350,000 was received from the late Mrs. Dorothy J. Killam for the establishment of a Special Scholarship Fund. The gift consists of securities registered in the name of the Canada Council, redeemable over a period of years. To March 31, 1977, the Council has received proceeds from the redemption of these securities amounting to \$1,856,380. These proceeds have been invested in a separate portfolio and the income therefrom is available to provide fellowship grants to Canadians for advanced study or research in the fields of medicine, science and engineering at universities, hospitals, research or scientific institutions or other equivalent or similar institutions in Canada.

## (c) Molson Prize Fund

Gifts of \$900,000 from the Molson Foundation established a capital fund referred to as the Molson Prize Fund. The income of the Fund is used for awarding cash prizes to Canadians for outstanding achievement in the fields of the Arts, the Humanities or the Social Sciences that enriches the cultural or intellectual heritage of Canada or contributes to national unity. The value of each prize is \$20,000 or as determined by Council, without restriction as to its use by the recipient.

## (d) Lynch-Staunton Fund

An unconditional bequest of \$699,066 from the estate of the late V.M. Lynch-Staunton established a capital fund, the income from which is available for the regular programmes of the Council.

## (e) John B.C. Watkins Estate

A bequest was received (carried on the balance sheet at a nominal value of \$1.) of the net income from the residue of the estate of the late John B.C. Watkins, which assets are held in perpetuity by a trust company. The net income is to be used "for the establishment of scholarships to be awarded to graduates of any Canadian University who may apply therefor for the purpose of engaging in post graduate studies in Denmark, Norway, Sweden or Iceland and who shall be selected for their outstanding worth or promise by a committee appointed by the Canada Council".

## (f) J.B. Barwick Estate

A bequest of what may amount to \$31,500 was made by the late J.B. Barwick. The payment of the bequest is to be postponed during the lifetime of the surviving beneficiary of the residue of the estate. The bequest to the Council is "on condition that such bequest shall be applied for the benefit of the musical division of the arts and for the encouragement of the musical arts to increase the Council's normal budget in the musical division or field of the arts". The bequest is reflected in the balance sheet at a nominal value of \$1.

## (g) Edith Davis Webb Estate

During the year a bequest of what may amount to \$400,000 was made by the late Mrs. Edith Davis Webb. The payment of the bequest is to be postponed during the lifetime of the surviving beneficiary of the residue of the estate. The bequest to the Canada Council is "to be used for the purpose of making grants or establishing scholarships for musical study in such manner as the Council shall determine". The bequest is reflected in the balance sheet at a nominal value of \$1.

## Other

## 7. Art Bank (Note 1)

In 1972 the Canada Council Art Bank was established to develop a collection of works of art for use in federal offices and public buildings on a rental basis. Works of art acquired to March 31, 1977 totalled \$4,082,000 including \$755,000 purchased in 1976-77 (\$756,000 in 1975-76).

## 8. Long-term Lease Agreement

On October 8, 1976 the Council entered into a ten-year lease agreement for office space for the period November 1976 to October 1986. The agreement calls for an annual rental of \$606,450 for the first five years and an annual rental of \$657,975 for the remaining five years. The Council also rents warehouse space under a five-year agreement ending March 31, 1979 calling for an annual rental of \$15,934.

## 9. Event Subsequent to the Year End

Bill C-26, an Act respecting the organization of certain scientific activities of the Government of Canada passed third reading in the House of Commons on June 3, 1977. The Bill provides for the establishment of the Social Sciences and Humanities Research Council which will assume those duties and responsibilities previously assigned to the Canada Council in the field of humanities and social sciences.

The financial impact of this Bill on the Canada Council's financial statements cannot be determined at this time.

## 10. Comparative figures

The presentation of the 1976 comparative figures has been restated to conform with the 1977 format.

## THE CANADA COUNCIL

AND

THE HONOURABLE JOHN ROBERTS, P.C., M.P.,  
SECRETARY OF STATE,  
OTTAWA, ONTARIO.

I have examined the balance sheets of the Endowment Account and Special Funds of the Canada Council as at March 31, 1977 and the statements of operations and operating surplus of the Endowment Account and changes in equity of Special Funds for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Council and its special funds as at March 31, 1977 and the results of its operations and the changes in its special funds for the year then ended in accordance with the accounting policies set out in Note 1, applied on a basis consistent with that of the preceding year.

I further report that in my opinion, proper books of account have been kept by the Council, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

## National Film Board—Continued

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED MARCH 31, 1977

## 1. Purposes of the Board

The Board is established to initiate and promote the production and distribution of films in the national interest and in particular:

- to produce and distribute and to promote the production and distribution of films designed to interpret Canada to Canadians and to other nations;
- to engage in research in film activity and to make available the results thereof to persons engaged in the production of films.

## 2. Significant accounting policies

## a) Production of films

- i) The costs of films produced for the Board are expensed as incurred.
- ii) The Board records the profit or loss on films produced for sponsors upon completion of the films.
- iii) Where the Board participates with a sponsor in the production of a film, the co-sponsor's contribution is generally applied first against costs incurred.
- iv) The unbilled portion of the costs of films pertaining to sponsors and co-sponsors is recorded as work in progress; the portion of costs which pertains to the Board is expensed as incurred.

## b) Inventories

- i) Material and supplies are carried at the lower of cost and replacement cost.
- ii) Work in progress represents unbilled costs for sponsored and co-sponsored films and is carried at cost.
- iii) Prints from films produced by the Board and held for sale are carried at a standard cost per foot.

## c) Fixed Assets

Fixed assets are carried at cost. Depreciation is calculated on a straight line basis over the estimated useful life of the assets, generally five to ten years.

## d) Services provided free of charges

The Board includes as expenses in the statement of operations and services provided free of charge by government departments. A corresponding amount is credited in the statement of equity of Canada.

## 3. Accounts Receivable

	<u>\$ 74,199</u>	<u>\$ 1,667,427</u>

## 6. Prior years' adjustment

In previous years an account was maintained within Equity of Canada entitled Residual Value of capital assets financed from parliamentary appropriations. This account was credited with values assigned to assets transferred by Canada to the Board plus the cost of fixed assets financed from parliamentary appropriations since inception. The account was reduced by depreciation and the net book value of assets disposed of, and the deficit was reduced by a corresponding amount.

During the year the Board changed its policy with respect to accounting for parliamentary appropriations received for the acquisition of fixed assets. Under the revised policy, such appropriations are credited directly to Equity of Canada. The change in policy has been applied retroactively and the balances of Residual Value of capital assets financed from parliamentary appropriations amounting to \$4,657,612 and \$4,249,386 at March 31, 1976 and March 31, 1975 respectively have been combined with the deficit in Equity of Canada.

## 7. Allocation of expense

Services provided free of charge by other government departments and expenses not requiring parliamentary appropriation are as follows:

Certain of the figures for 1976, presented for comparative purposes, have been modified to conform to the 1977 format.

THE HONOURABLE JOHN ROBERTS, P.C., M.P.  
SECRETARY OF STATE  
OTTAWA, ONTARIO

I have examined the balance sheet of the National Film Board as at March 31, 1977 and the statements of operations, equity of Canada and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change described in Note 6, on a basis consistent with that of the preceding year.

J. J. MACDONELL  
*Auditor General of Canada*
